

to be the People's candidate for the next Presidency. He says: "IN NO CASE CAN I BE THE CANDIDATE OF ANY PARTY, OR YIELD MYSELF TO PARTY SCHEMES."

We clip the following from the Harrisburg Argus, a sound Democratic paper conducted under the patronage of the State Administration:

"We cannot but hope that for the future the ruling sentiment of every American shall be a desire to reward true worth and virtue, instead of yielding an unnatural support to men who have no claim upon their friendship other than a blind adherence to the dictates of the few, who would arrogate to themselves the choice of rulers."

The "Public Ledger" of the 21st inst., decidedly the strongest and most influential paper in support of the State and National Administrations published in Philadelphia, contains the following very sensible expression of views upon the subject under consideration. We recommend that all should read it, and especially those who know nothing about politics except what is reflected from the Fire-pool.

"As we understand the character, a "no party man" is one whose political action is regulated by certain fixed principles, and who adheres to those principles inflexibly, as to "any principle of religion or morals." To him they are "moral" principles, the result of conviction. He believes that they are right, and consequently that his conformity with them is a duty. He does not inquire whether they are adopted or rejected by parties or sects, because the opinions of others are not his standards of right and wrong. He thinks for himself, and therefore acts upon his own convictions, and not upon the persuasion or dictation of those who would undertake to think for him. Holding himself responsible, not to men, but to a higher than human power, he does not surrender his convictions to the ever varying interests or caprices of others. Parties may abandon the ground which they once occupied, and adopt new principles in seeking new objects. But the "no party man" does not change with them; for principles, being immutable, are not changed by the renunciation of old and adoption of new opinions. Though parties may take as many phases as the moon, the "no party man" is inflexible in his principles, because his character is not affected by their parties. They are still the same, however parties may estimate them.

The "party man" adopts and acts upon opinions, not because he is convinced of their rectitude upon his own examination but because they are adopted by his party. His standard is the party, not its principles; and consequently when his party changes its principles, as political parties sometimes do, he changes with them, and adopts the new case, not through conviction of its truth, but because it is now the code of the party and therefore must be correct. He never inquires concerning any proposition, is this right or wrong? but always inquires, is this the doctrine of the party or not? And having settled this last question, he adopts or rejects the proposition without further inquiry. The "party man" cannot adhere to principles "inflexibly," because, having adopted a party for a standard, he must think and act in obedience to its dictates, and change with its mutations. It is his party take new ground, involving new principles, he must take it also, or incur the imputation, so formidable to partisans, of infidelity and desertion. He cannot be independent, cannot have moral courage enough to contend merely for right; for this may injure his party. Independence, moral courage, consistency, inflexibility in principle, are the exclusive attributes of the "no party man."

Offer of Peace Rejected.

The N. O. Commercial Times of the 14th inst. says that the late offer of peace with Mexico through Mr. Trist, has been peremptorily rejected by that government. Although this important rumor is doubted, and even denied by the Picayune, such rejection is precisely what might have been expected from the Mexican government, in its present condition. Whatever may have been said of the Mexican clergy favoring a treaty of peace, or of peace parties in that country, we doubt whether there are any, among all classes and grades of that people, who are sincerely disposed to meet any reasonable offers from our government for an amicable adjustment of the issue. The truth is, tho' disastrous in one sense, the war is not unprofitable to them in another, and if we mistake not, there may be found at the base of all the discordant elements that divide and distract that country, an inveterate hatred of the invading army, and a determination to resist, cheat, harass, and annihilate it. We believe the only way to secure a satisfactory peace at this stage of the quarrel, is to conquer it.

Our government has already lost much time in making offers for peace, yet it must now stand acquitted before the civilized world, of all want of magnanimity. Having gone, in amicable offers, as far as it can with due regard to self respect, it has now no other recourse than a vigorous prosecution of the war, till the Mexicans beg for quarter. Let us then place fifty thousand troops in Mexico without delay, and compel the Mexican people to support them. And especially let us exchange or release on parole, no more prisoners. The infamous treatment of American prisoners by the Mexican government merits severe retribution. It would have been exhibited by no European nation. A Mexican parole is a ridiculous farce. All Mexican prisoners should be sent to the United States and be closely confined; and Mexico should be compelled to foot the bill. We trust that our government will not permit the gallant army, which has fought its way into the heart of Mexico, to remain inactive in that exposed position, its numbers constantly melting away by sickness and the assassin's arm, while efforts are being made to effect a peace!

especially as their appears to be no corresponding wish to negotiate on the part of the Mexicans. All its offers of peace having been spurned, it should lay on the cost until supplication for peace come from the Mexicans. They do not understand forbearance, magnanimity or generosity, but construe all demonstrations of them into fear of their invincible power; and therefore the more we spare them, the less will they be inclined to peace or justice. When they thoroughly feel the weight of the war in the capture of their cities, the blockade of their ports, and in the expenses of the contest, which they should be compelled to defray daily, then, and not till then, will they ask for peace. Their intellect or moral sense can be reached only through two channels, their backs and their pockets. Forbearance is thrown away upon a people so entirely profligate and degraded.

We copy the following from the Tribune of the 21st inst. Wonder if the copper mine alluded to is not located in Wyoming Co., near Tunkhannock, and if it was not discovered by one Samuel Platt, Esq., of this county? We reckon!

"IT WAS NOT ALL THAT HIS FANCY PAINTED IT."—In the Court of Common Pleas at Boston, before Judge Cushing, was tried on Wednesday the case of Barnes vs. Grover, on a note for \$150, given for stock in the Susquehanna Copper Mining Co. It appeared in evidence that no such Company had been formed—though before the note was given specimens of copper had been exhibited yielding 50 per cent. of pure copper, which were said to have been taken from the mines of the Company. The defence to the suit was "no consideration for the note," and the jury thought so too, for they gave a verdict for the defendant. Persons should be careful not to buy copper-stock till they find it has a copper-bottom!

From California.

ARRIVAL OF COL. RUSSEL.—The St. Louis papers of the 14th ult. contain the announcement of the arrival of Col. W. H. Russel from California. The only information he brings is in reference to the dispute between Kearney, Stockton and Fremont, relative to the Governorship of the Territory. When Col. Russel left Los Angeles, on the 22d of March, Col. Shubrick and Gen. Kearney had issued a joint proclamation, announcing the former as Military, and the latter as Civil Governor of California; that Col. Cook, with his Mormons, was marching against Los Angeles to arrest Fremont for insubordination; and that, on the 31st of March, Fremont being apprised of these movements, started for Monterey, the headquarters of Shubrick and Kearney, five hundred miles distant, which he intended to reach in three days and nights. Col. Russel volunteers a defence of Col. Fremont, but it is so much at the expense of Gen. Kearney and Com. Shubrick, as to leave the inference that it is a prejudiced statement. The government has no doubt been properly apprised of all the difficulties, and taken the proper means to remove them.

PENNSYLVANIA RAILROAD.—Proposals for grading the first eighteen miles of the eastern division of this road were opened at Harrisburg on the 16th inst. The president and a committee of the directors were in attendance. Some 200 experienced contractors were at the letting. There was great disparity in the bids, and the work, it is said has been let very low. The cost of grading and masonry on this portion of the road, including the piers and abutments of the bridge, which crosses the Susquehanna about 5 miles above Harrisburg, will not exceed \$10,000 per mile. The line is said to be a beautiful one, presenting few curves and a low grade. The president proceeded to Pittsburg immediately after the letting, to be present at the opening of bids there on the 22d.

A GOOD ENDORSEMENT.—Some one, a few days before the death of General Jackson, said to him that the annexation of Texas would lead to a war with Mexico, and asked him what General was best qualified to lead our armies. The old General replied:—"We have just the man for the crisis, an old soldier down the river—you will find him on his cotton plantation—a farmer looking man, but every inch a warrior—ZACHARY TAYLOR—I go his security." Who would ask a better endorsement.

The New York Canals continue to do a tremendous business. The sum total of tolls received during the 75 days of navigation, ending the 14th inst., was \$1,523,480—which is \$441,000 more than was received during the 90 days of navigation ending with the same date last year.

The Steamship Britannia arrived at Boston on Saturday 17th inst. from Liverpool, which port the Telegraph reports she left on the 4th inst. Her dates therefore are fifteen days later. The only items of news received show a continued decline in Breadstuffs and a further advance in Cotton.

Astonishing Achievement in Art.—Mr. T. M. Eastley, after repeated experiments, has actually succeeded in Daguerrotyping a streak of lightning!—a genuine anti-playing streak of the real snake order. So perfect and instantaneous was the operation, that myriads of intervening drops of rain were transferred with wonderful distinctness to the plate, every drop retaining its globular form, showing that no appreciable space of time was consumed.—St. Louis Rep.

EVERYBODY PRAISES JAYNE'S HAIR TONIC. And for the best reason in the world, because it is the only hair tonic which has been proven to be of once more regaining the full flowing locks of hair, which nature adorned their heads in youth, which it does to the admiration of all who use it. directed. Try it, all of you who need more or luscious hair. It is the very thing for you.

WORMS! WORMS! Worms! Inhabitants of the stomach and bowels, which so often impair the health and destroy the lives of children, use JAYNE'S TONIC VERMIFUGE, a certain and safe preparation for the removal of the various kinds of worms, dyspepsia, sour stomach, various colic, infantile fever and ague, and debility of the stomach and bowels and organs of digestion. It is without exception one of the most valuable preparations in the world.

HEAR DR. HIGBY'S OPINION. Dr. J. L. Higby, Milwaukee, Wis., N. O. 1845, writes to Dr. Jayne, and says, Your Carmine Balm, Hair Dye, and Hair Tonic, all do well, and the Balm especially. It has saved many lives this season. I had to get twice supplied in New York in September last. I shall want about 200 bottles. I have for sale, and have tried many of the "crack articles" for this Bilous Diarrhea, which are subject to, and of all yours is invaluable. I could get \$5 per bottle for it, if it could not be had for less, and any quantity of certificates of the strongest kind. These Diarrheas are the worst disease we have here, and your Balsam is the only thing that cures them.

Headache.—Wright's Indian Vegetable Pills are a positive and certain cure for this distressing complaint, because they purge from the body those bile humors which are the cause not only of headache, giddiness, nausea and sickness, &c., but of "all the ills to which flesh is heir." One 25 cent box of the above named Indian Vegetable Pills, may, a single dose, will frequently carry off the most violent attack of headache; but in case of long standing, perseverance alone is wanted, in order to make a speedy cure of every description of headache. Wright's Indian Vegetable Pills also, and improve the digestion, and purify the blood, and give new life and vigor to the whole frame, as well as drive disease of every kind from the body. NEW ADVERTISEMENTS. TEAS! TEAS! AT NEW YORK PRICES. MONTROSE AGENCY OF THE NEW YORK CANTON TEA COMPANY. THE OLDEST TEA ESTABLISHMENT IN AMERICA! PRINCIPAL ESTABLISHMENT IN NEW YORK.

THE CANTON TEA COMPANY has been popularly known for many years. This is the largest and oldest Tea Establishment in America. The public have had full proof of their integrity and responsibility. But such has been the great and general demand for their TEAS of late, that they have been obliged to enlarge, to a great extent, their two principal establishments in New York, viz: 125 Chatham & 163 Greenwich Sts.

They moreover possess facilities, in relation to the Tea Trade, in a very abundant degree, and doubtless superior to any other Tea Concern in America. Their scrupulous regard to all principles that tend to elevate the character of a large house, is well understood, and has already secured them a competition, probably larger than all other Tea Establishments united, and consequently they are determined to sell TEAS purer, more fragrant, and perfect for the palate, than any house in the world—China excepted.

They respectfully invite the attention of the inhabitants of Susquehanna county to their Agency in Montrose, where the following assortments are always on hand; and they feel no hesitation in stating, that wherever a single trial is made, a very decided preference is given to the celebrated Teas of the CANTON TEA CO. Retain prices as follows, subject in all cases to be returned if not approved of:

GREENS. Good YOUNG HYSON, \$0.50 per lb. Fine " " 0.625 " No. 2 fragrant " 0.75 " No. 3 fragrant " 1.00 " Silver Leaf, do. 1.25 " Good HYSON, do. 0.75 " Very fine do. 1.00 " Extra fragrant " 1.25 " Good HYSON SKIN, do. 0.50 " Good IMPERIAL, do. 0.75 " Very fine do. 1.00 " Extra fine do. 1.25 " Good GUNPOWDER, do. 0.75 " Fine " do. 1.00 " Extra fine do. 1.25 "

BLACKS. No. 1 SOUCHONG, \$0.50 " No. 2 " do. 0.625 " No. 3 " do. 0.75 " Fragrant POWCHONG, various prices. Choice TIEH, do. 0.50 " Silver Oolong, do. 1.00 " Very fine do. 0.75 " Extra fine do. 1.00 " NINGYONG, do. 0.75 " FINEST ENGLISH BREAKFAST TEA, (very rich Pekoe flavored), do. 0.75 " FINE ORANGE PEKOE, do. 0.625 " FINEST PEKOE FLOWERS, do. 1.00 " HOA HUA, or finest Black Tea imported, do. 1.00 "

It is especially desirable, both Green and Black, of all descriptions, the highest grades grown in China, at \$1.50 per lb. TAKE NOTICE.—THE CANTON TEA COMPANY are the exclusive vendors of the superior Black Tea called "HOW QUIA'S MIXTURE," which they introduced in America in 1840—and every other person or house professing to sell the same at all—much less at a lower price—deceive the unwary, as the public themselves will perceive, by comparing the superior with the genuine "Howqua's," sold by the Canton Tea Company.

Every package (in addition to its containing FULL WEIGHT, independent of the wrapper) bears the stamp of neatness and elegance, and the Teas there-in are so thoroughly secured from light and air, that their quality and power will remain unimpaired in any climate. J. B. SALISBURY, Agent, Montrose, July 1, 1847.

Cash paid for Wool! 50,000 pounds of WOOL wanted at the Hat Store one door above Searle's Hotel, for which the highest price will be paid by June 9th 1847. Merrill & Root.

Any kind of Fur, Brush, Mole Skin, Lighorn, Palm Leaf, Sporting and Wool Hats, also Men and Boys' Cloths, Silk, Silk and Cot. Glazed and Velvet Caps, also Children's caps selling cheap by June '47. M. & Root.

Grand Exhibition of NEW GOODS! WHICH has lately been enlarged, making it the Largest Store in the county, may be seen, free of charge, a well selected stock of NEW GOODS, LARGER than the LARGEST, and more DESIRABLE than any in this market, which will be kept up in great splendor during the season by FRESH SUPPLIES from New York. Those who wish to purchase may always be assured of getting the latest styles much lower than they can be bought elsewhere. We defy competition in regard to QUANTITY, QUALITY, and LOW PRICES. The old axiom that "money saved, is as good as money earned," is almost as old as the invention of money itself; but the practice of selling good Goods at low prices, first originated at the "NEW MILFORD EXCHANGE"—a PRACIZEE which has not yet been adopted by our competitors. We deem it unnecessary to give in detail all the articles we offer for sale, and would only add that we have a large supply of
