SPINNER

N connexion with the following certificate were handed to us the testimonials of several highly respectable ladies, who have Bowel and Summer Complaint-no cure no pay, used the Domestic Horizontal Spinning Wheel, and who concur in saying substantially, that they can spin with it seven or eight ruu, (or about four day's work) per diem, with as much ease as they can perform an ordinary day's work with a common wheel. The interence is irresistable; that it will hereafter be more profitable for the farmer who manufactures his wool, with this machine to have in his employ at the same cost for labor, one girl, than four girls with the common stand-and-spin wheels:-People's Advocate.

nave witnessed with much satisfaction the operation of a novel machine denominated the "Domestic Horizontal Spinning-wheel," lately invented by Hiram F. Wheeler of Springville, in this county. It appears to us to be a valuable improvement, in view of the ease with which it is used and the rapidity with which it executes. We doubt not that our Farmers generally, with fill who "toil and spin" will approve it too. Montrose, Susq'a co. Pa-Col. Franklin Lusk.
