on me. Devoted to interests so noble and exalted, I must at all hazards maintain the prestige and respect of the supreme authority; particularly at present, when if the factions should molest the Government, they would deprive it of the liberty of deliberating, and it would fall into utter inisgnificance in the presence of our enemies. I will be more explicit. Attempts at subversive sedition will be punished in an exemplary manner.

I have still a respectable body of troops, and the nation will assist me to maintain its dignity and vindicate its glory. I consider myself as free as if I had just obtained a distinguished victory, and there is no danger that the negotiations of the enemy will inpose upon me, when their troops and cannon did not inspire me with fear. We will settle our difficulties amicable, if above all things our honor is saved; and we will again appeal to the sword, if force should be interposed to withold from us justice and the acknowledgement of the rights of the nation. ANTONIO LOPEZ DE SANTA ANNA.

Annual Cattle Show and Fair, Of the Susquehanna County Agricultural Society.

OF OCTOBER NEXT.

Persons having any of the animals or articles enumerated in the list for Premiums enumerated which may be deemed worthy of exhibition, either on the score of superior-

Although the provisions of the Bye-Laws are such that none but members of the Society, or persons contributing to its funds, are allowed to become competitors for premiums, yet other persons are not thereby debarred the enjoyment of the benefits and pleasures of the exhibition. ALL, therefore, who feel an interest in the Society are invited to attend; and it is hoped, that as the annual contribution required to constitute membership is but the trifling sum of fifty cents, bundreds of our citizens who are not vet members will become so between this time and the day of the Fair, or on that day.

All who design to compete for premiums are requested to give notice of such intenson to Geo. Fuller, Chairman of the Execunve Committee, at least five days previous to the day appointed for the Fair, specifying the article or animal to be exhibited : and those having specimens for exhibition, of any kind, are requested to bring them or send them in, if convenient, on the afternoon preceding the exhibition. The object of this is to enable the Committee to make suitable arrangements in reference to them. And all animals intended to be exhibited, must be on the ground by nine o'clock on the morning of the day of exhibition.

All articles as well as animals intended to be offered for premiums, or presented for exhibition, should be labelled with the owner's name and place of residence. Animals will he brought to the office of the Hon. Wm. ham Jessup, which is now the office of the Society, in order that they may be entered upon the Books of the Executive Committee. Other articles and specimens will be taken to the Court House, where there will be a Committe to receive and take charge of them.

No premiums will be paid on animals or specimens of any kind taken away before the close of the exhibition without permission of the Executive Committee.

The following Committees for awarding Premiums are appointed for the present year, who are requested to report themselves to Hon. Win Jessup, President of the Society, at his office, by 9 o'clock on the morning of the day of exhibition, in order that if there be vacancies they may be supplied.

It will be observed that there are on the vari ous Committees several gentlemen, who are not now members of the Society, who have been appointed in the expectation that they would lend their influence in promoting the various laudable objects of the Society. It is not desired or expected that any gentleman will serve on any of the Committees unless he be a member of the Society at the time. This restriction is not, however, exlended to the ladies.

These Committees are not allowed by the Bye-Laws to be competitors for premiums that they be called upon to award; but this provision will not extend to any article or

Each of the Committees will be required to report in writing, and in each report to set forth the peculiar point, qualities and advantages of the animal or article obtaining their preference—they are requested to furnish their award or report to the Society by three o'clock in the afternoon.

All these proceedings and exhibitions, it should be understood, are regulated and controlled by the Constitution and Bye-laws of the Society, with which it would be well for all interested to make themselves acquaint

TO THE PUBLIC.—I certily that before my reicians call Scrofula. It made its first appearance by pain and swelling of the joints-more especially of my ankles knees, wrists and elbows, after which the glands of my throat and neck became inflamed and swelled, strended with the most exoruciating pain. I was often confined entirely to my bed, and

for weeks tegether could not turn my neck or my head. Several physicians attended me at different times, but they did not appear to do me any good.

"About a year ago I was attacked with vomiting which continued every few minutes all one night which continued every lew minutes all one inight. The next day an eruption appeared on the sides of my neck, which soon spread all over my neck, head and face, with inflammation of my eyes and eye-lids, which destroyed my eye-lashes, and caused tha heir to fall off my head, and soon the disease spread all over me—my limbs were one entire scal. me of my finger-nails came off. In short I was some of my inger-nais came on. In short I was a mable to get my own living, and in this condition I called upon Dr. Jane, in order that he might undertake my case. He directed me to take his alterative tilrec times a day, and his Sanative Pills as often as I should find it necessary. I have now taken his Alterative four months and am most happy to

say that it has entirely cured me.
