

SPRING  
Here is something that is not far out of the way as a descriptive scene of Spring:  
The Winter has gone,  
The Spring has come,  
The voice of birds is heard,  
The voice of the lark  
Whistles in the air,  
And the jubilate old blue bird,  
Under the log,  
The solemn frog,  
With his deep bass voice croaks out,  
And the farmer's boy,  
With his lanch of joy,  
Commence to sing and shout.

A SALUTARY THOUGHT.—When I was a young man, there lived in our neighborhood a farmer who was usually reported to be a very liberal man, and uncommonly upright in his dealings. When he had any of the produce of his farm to dispose of, he made it an invariable rule to give good measure—rather more than could be required of him. One of his friends, observing him frequently doing so, questioned him why he did it—told him he gave too much, and said it would not be to his advantage. Now mark the answer of this excellent man.  
"God Almighty has permitted me but one journey through the world, and when gone I cannot return to rectify mistakes." Think of this. But one journey through the world.

To CURE DIPHTHERIA.—A gentleman, who has administered the following remedy for diphtheria, informs us that it has always proved effectual in affording speedy relief.—Take a common tobacco pipe, place a live coal within the bowl, drop a little tar upon the coal, and let the patient draw smoke into the mouth and discharge it through the nostrils. The remedy is safe and simple, and should be tried whenever occasion may require. Many valuable lives may be saved, our informant confidently believes by prompt treatment as above.

"Bill, what are you doing there on the floor?"  
"Why, sir, I have had a shock."  
"A shock?"  
"Yes, sir."  
"What kind of a shock?"  
"Why, sir, one of our subscribers came in during your absence, offered to pay a year's subscription, which produced such an effect upon me that I have been perfectly helpless ever since."  
"No wonder, Bill, but cheer up; if you survive this you are safe, as there is little prospect of another such catastrophe in this office."

Willie, a bright little eight-year-old in Troy, N. C., never neglects daily prayer.—The other day, in the presence of the family, he prayed for the country as follows:  
"Oh! Lord, there was never so good a country as ours, until the civil war broke out; now it is very bad. The rebels are very wicked, turn their hearts to thee, oh, Lord! They have done many bad things; they took Sumpter, but, oh, God! they can't take Pickens."

A poor man gives his might to the cause of benevolence, which is scarce noticed, and a rich man out of his abundance hundreds of dollars, and the contribution is paraded in the public journals as evidence of his wonderful liberality. And yet may not God see more in the gift of the one to please him than in the large donation of the other?

"Mamma! papa's getting very rich, isn't he?"  
"I'm sure I don't know. Why, child?"  
"Cause he gives me so much money."  
"Almost every morning after breakfast, when Sally is sweeping the parlor, he gives me sixpence to go out and play." Shortly after Sally received a notice to quit. Strange!

THEY DO NOT EXPECT TO MEET THE YANKES.—Among the letters found by the soldiers in the rebel camp on Roanoke Island, was one from a young lady in the South to her lover in the Rebel army, in which she says: "I hope we shall see each other here; but if we do not, I hope we shall meet in Heaven, where there are no Yankes."

We find the following remedy for a felon in the Auburn Daily Democrat:  
"A lady who had been troubled sometime with a felon on her finger, gives a simple remedy from which she experienced great relief, and which enabled her to obtain sleep for the first time in many nights. It was to cut a hole in a lemon, and wear it on the finger like a thimble, the felon being encased in the fruit."

A bright little three year old was sitting in his mother's lap, a few evenings since, when he asked, "Are the stars in heaven?" The mother, of course, responded in the affirmative when the little fellow put the further question, "Are the stripes there, too, mother?"

"Ah! John, you won't have me much longer. I shall never leave this bed alive." "Please thee-self, Betty, and thee'll please me," returned John, with great equanimity. "I have been a good wife to you, John," perished the dying woman. "Midlin', Betty, midlin'," responded the matter of fact husband.

It is a common trick of one of the principal American conjurers to make his wife suddenly disappear before the eyes of the spectators. If he could teach to other husbands this trick of making wives vanish, he would have a fair opening for a fortune.

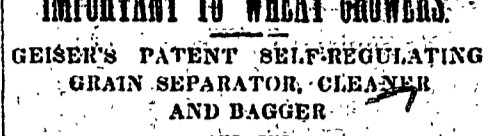

A preacher, in a funeral sermon on a lady, after summing up all her good qualities, added, "that she always reached her husband his hat without muttering."

What is it that God never sees; Kings see but seldom, and we see every day? An equal.

How can a man live eighty years and see only twenty birthdays? He was born on the 29th of February.

A new State has been added to the Southern Confederacy. It is a Doleful State.  
To be pleased with one's self is the surest way of offending everybody else.  
We admire the ladies, because of their beauty; respect the doctors, because of their virtues; and love them because of their intelligence, and hate them because we can't help it.

# WAYNESBORO FOUNDRY AND MACHINE SHOP!

IMPORTANT TO WHEAT GROWERS.  
GEISEL'S PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER AND THE Latest Improved Thresher and Triple Gear Horse Powers, Driving either by Gear or Belt, all furnished Complete ready to be put on Wagons.

I, the undersigned, desire to call the attention of Farmers and Threshermen of Franklin and adjoining counties to it. This Machine has been before the public for seven years, during which time it has given general satisfaction, and the patentee having made some very important improvements which render it still more complete, both for clear separating and cleaning, and also for ease of draught and fast threshing. I take pleasure in recommending it to the public, knowing that it will give the best of satisfaction. I am manufacturing three different sizes, as follows:  
No. 1 is 8 horse power, will thresh and clean from 200 to 500 bushels per day.  
No. 2 is 5 to 6 horse power, will thresh and clean from 150 to 300 bushels per day.  
No. 3 is 4 to 6 horse power, will thresh and clean from 100 to 200 bushels per day.  
These Machines are warranted to do the above, and do it much better in every respect than any other machine in use.  
Grain having much light chaff in it cleaned on this Machine is worth from 2 to 3 cents more per bushel than when cleaned on any other separator, or the common way of cleaning on hand rakes. For this reason there is not the eighth part of light matter in the grain as when cleaned on the riddle principle. The blast acts freely on all the grain as it leaves the shoes, whereas, when cleaned with riddles the advantage is lost.  
This machine does not return the tailends as most of the separators do. By returning filthy tailends alternately it is impossible to make machinery grain. Another important feature in this machine that others of the kind have not, is the Self-Regulating Blast Regulator in the fan, which remedies all difficulties in bad cleaning, blowing grain in the chaff in high speed or irregular driving, which cannot be avoided in cleaning grain by horse power.  
This Machine is also more durable and less tedious to manage than any other Separator and Cleaner, or the common machine with riddles.  
Orders to insure their being filled until harvest should be sent immediately.  
I am fully prepared to make to order and on short notice Portable and Stationary.

**STEAM ENGINES, GRIST AND SAW MILL GEARING, SHAFTING AND PULLEYS, IRON BRIDGES, CAST IRON WATER WHEELS, IRON KETTLES, &c.**  
Stoves and Plow castings, also iron and wrought iron pipe for steam or water, and Brass castings of every description; in a word, I am prepared to do everything usually done in a foundry and machine shop. Having supplied myself with the latest improved machinery, such as Lathes, Boring, Planing and Drilling Machines, persons can rely on having their work done in the most satisfactory manner.—I am also prepared to manufacture to order machinery for wood, such as Tanning and Grooving machines for flooring, Surface, Tenon and Moulding machines, &c.  
I also offer to the public a new and valuable improvement in my steam engines, made within the last year, viz: for the economizing of fuel, and the regulation of speed, which renders my new engines far superior to the old engines.  
All my machines are sold under warranty. My men are all experienced workmen in this line of business, and I use all good material, so that I am perfectly safe in warranting all my work.  
I am also prepared to do repairing in workmanlike manner, on the shortest notice. Orders solicited and promptly attended to. All orders sent in for repairing must be accompanied with cash.  
For particulars and circulars descriptive of machine, address  
GEORGE FRICK, Of DANIEL GEISEL, Proprietor of the Territory and Co. Franklin Co., Va.  
April 18—t

**Ready-Made Clothing!**

# BARAINS, BARAINS, BARAINS!

REDUCTION IN PRICES.  
At Brotherton's Hardware and Paint Store!

I take this method of informing the public that I have just received from Philadelphia a large and carefully selected stock of  
Iron, Steel, Nails, Putty, Glass, Paints, Oils, Candles, Soap, Paper, Stationery, Hardware, Cutlery, Varnishes, Oil Cloths, &c.  
Agricultural Implements, all of which I desire to dispose of at prices 25 to 50 per cent below the times. Try me, and by an examination of my stock convince yourself that I mean just what I say. I take pleasure in showing goods whether sales are effected or not. To persons who build I am prepared to offer extraordinary inducements both in Hardware and Paints. My friends and customers, a continuance of the same is respectfully solicited—promising to do all in my power to render satisfaction to all who may favor me with their patronage.  
W. H. BROTHERTON.  
April 11.

# TO THE PUBLIC!

**NEW ESTABLISHMENT!**  
THE subscriber would inform the citizens of Waynesboro and the public that he has commenced the Shoemaking business in the Basement of Kurtz's Hotel, where he will at all times be in readiness to accommodate those who may give him a call.
