FOUNDRY AND MACHINE SHOP!

IMPORTANT TO WHEAT GROWERS

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER

AND THE
 Latest Improved Thresher and Triple Gear-Horse Powers, Driving either by Gear or Belt, all furnished Completely ready to be put on Wagons.

The undersigned, desiring to call the attention of Farmers and Threshermen of Franking and adjoining counties to this. This Machine has been before the public for seven years, during which time it has given general satisfaction, and the patentee having made some very important improvements which render it still more complete, both for clean separating and cleaning, and also for ease of draught and fast threshing. I take pleasure in recommending it to the public, knowing that it will give the best of satisfaction. I am manufacturing three different sizes, as follows:

No. 1 is 8 Horse Power, will thresh and clean from 200 to 500 bushels per day.
 No. 2 is 5 to 6 horse power, will thresh and clean from 150 to 300 bushels per day.
 No. 3 is 4 to 6 horse power, will thresh and clean from 100 to 200 bushels per day.

These Machines are warranted to do the above, and do it much better in every respect than any other machine in use.

Grain having much light chaff in it cleaned on this Machine is worth from 2 to 3 cents more per bushel than when cleaned on any other separator, or the common way of cleaning on hand fans. For this reason there is not the eighth part of light matter in the grain as when cleaned on the riddle principle. The blast acts freely on all the grain as it leaves the shutes, whereas, when cleaned with riddle that advantage is lost.

This machine does not return the tails as most of the separators do. By returning the tails and chaff alternately it is impossible to make merchantable grain. Another important feature in this machine that others of the kind have not, is the Self-acting Blast Regulator in the fan, which remedies all difficulties in bad cleaning, blowing grain in the chaff in high speed or irregular driving, which cannot be avoided in cleaning grain by horse power.

This Machine is also more durable and less tedious to manage than any other separator and Cleaner, or the common machine with shaker.

Orders to insure their being filled until harvest should be sent in immediately.

I am fully prepared to make to order and on short notice Portable and Stationary

THE WAR OF 1776.

THE same "Continental" souther more dear to the American heart, than any of the Royal Blood, even should it be a Prince.

So all you that want a good Cooking Stove that burns either coal or wood, call at

W. A. TRITTLE'S

and ask for the Continental, which is one of the best stoves in market, and by far the cheapest. It takes a long stick of wood and is provided with fire brick to burn coal. Always have a large assortment on hand, and will give better bargains than any other house in the country. So to prove that my name is not Gen. Bragg call and see for yourself.

Also on hand Heating Stoves, such as

NINE PLATE AND COAL STOVES, for shop or parlor, all of which I will sell very low. You will also find a large assortment of

TIN WARE, with Copper, Brass and Sheet-Iron Ware, which is all of my own make, and which has been proven cannot be found better in any place. Now remember I am bound to sell cheap, so all that want anything in my line, give me a call. My shop is still at the old place on Main Street, under the Printing Office.
