#### "Hazard's Electric Powder."

American Sporting Powde

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER AND THE

Latest Improved Thresher and Triple Geared Horse Powers, Driving either by Gear

or Belt, all furnished Complete ready to be put on Wagons.

1, the undersigned, desire to call the attention of Farmers and Threshermen of Frankling and adjoin ing counties to it. This Machino has been before the public for seven years, during which time it be public for seven years, during which time it has given general satisfaction, and the patentee

having made some very important improvements, which reader it stills more complete; both for clead, separa ing and cleaning, and also for ease of draught and fast threshing. I take pleasure in re-commending it to the public, knowing that it will give the best of satisfaction. I am nare focuring Office. three different sizes, as follows:

No. 1 is 8 horse Power, will thresh and clean from

No. 2 is 5 to 6 horse rower, will thresh and crean right
No. 2 is 5 to 6 horse power, will thresh and crean
from 150 to 300 bushels per day
No. 3 is 4 to 6 horse power, will thresh and clean

These Machines are warranted to do the above, and do it much better in every respect than any

other machine in use. Grain having much light filth in it cleaned on this Machine is worth from 2 to 3 cents more per bushel than when cleaned on any other separator, or the common way of cleaning on hand fans. For this reason there is not the eighth part of light matter in the grain as when cleaned on the riddle principle. The blast acts freely on all the grain as it leaves the shues, whereas, when cleaned with riddle that advantage is lost

This machine, does not return the tailends as most of the separators do. By returning filthy tail-ends alternately it is impossible to make merchanta-grain, Another important feature in this machine. that others of the kind have not, is the Self-acting Blast Regulator in the fan, which remedies all dif-ficulties in bad cleaning, blowing grain in the chaff in high speed or irregular driving, which cannot be

avoided in cleaning grain by horse power This Machine is also more durable and less tedious to manage than any other Separator and Cleaner,or the common machine with shaker. Orders to insure their being filled until harvest

should be sent in immédiately. I am fully prepared to make to order and on short notice Portable and Stationed

STEAM ENGINES.

GRIST AND SAW MILL GEARING,

SHAFTING AND PULLEYS,

IRON BRIDGES, CAST IRON WATER WHEELS, IRON KETTLES. &c.

Stoves and Plow castings, also cast iron and wrought

iron pipe for steam or water, and Brass castings of every description; in a word, I am prepared to do everything usually done in a foundry and machine shop. Having supplied myself with the latest im-proved machinery, such as Lathes, Boring, Planing and Drilling Machines, persons can rely on having their work done in the most satisfactory manner .--I am also prepared to manufacture to order machinery for wood, such as Tonging and Groving machines for flooring, Surface, Tenout and Moulding machines, &c.

I also offer to the public a new and valuable improvement in my steam engines, made within the last year, viz: for the economizing of

15 🦽

THE name "Contingent" sounds more dent to the American hears than any of the Royal blood, even should it be a Frintes" So all you that want a good Osoking Steve that burns either coll or wood, call at
