WAYNESBORD FOUNDRY

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER

AND BAGGER AND THE Latest Improved Thresher and Triple Geared Horse Powers, Driving either by Gear or Bell, all furnished Complete

ready to be put on Wagons.

I, the undersigned, desire to call the attention of Farmers and Threshermen of Frankling and adjoining counties to it. This Machine has been before the public for seven years, during which time it has given general satisfaction, and the patentee having made some very important improvements which render it still more complete, both for clead separating and cleaning, and also for ease of draught and fast threshing. I take pleasure in recommending it to the public, knowing that it will give the best of satisfaction. I am manufacturing Office.

hree different sizes, as follows: No. 1 is 8 horse Power, will thresh and clean from

No. 1 is 8 horse Power, will thresh and clean from 200 to 500 bushels per day.

No. 2 is 5 to 6 horse power, will thresh and clean from 150 to 300 bushels per day

No. 3 is 4 to 6 horse power, will thresh and clean

from IOC to 200 bushele per day.

These Macmines are warranted to do the above, and do it much better in every respect than any

other machine in use. Grain having much light filth in it cleaned on this Machine is worth from 2 to 3 cents more per bush el than when cleaned on any other separator, or the common way of cleaning on hand fans. For this reason there is not the eighth part of light matter in the grain as when cleaned on the riddle principle. The blast acts freely on all the grain as it leaves the shues, whereas, when cleaned with riddle that ad-

vantage is lost This machine does not return the tailends a most of the separators do. By returning filthy tailends alternately it is impossible to make merchantagrain, Another important feature in this machine that others of the kind have not, is the Self-acting Blast Regulator in the fan, which remedies all difficulties in bad cleaning, blowing grain in the chaff in high speed or irregular driving, which cannot be avoided in cleaning grain by horse power This Machine is also more durable and less tedious

to manage than any other Separator and Cleaner, or the common machine with shaker. Orders to insure their being filled until harvest hould be sent in immediately.

STEAM ENGINES.

I am fully prepared to make to order and on short notice Portable and Stationed

GRIST AND SAW MILL GEARING, SHAFTING AND PULLEYS,

IRON BRIDGES, CAST IRON WATER WHEELS, IRON KETTLES, &c

Stoves and Plow castings, also cast iron and wrought iron pipe for steam or water, and Brass castings of every description; in a word, I am prepared to do everything usually done in a foundry and machine shop. Having supplied myself with the latest im-proved machinery, such as Lathes, Boring, Planing and Drilling Machines, persons can rely on having their work done in the most satisfactory manner.

1 am also prepared to manufacture to order mawood, such as Tonging and Groving machines for flooring, Surface, Tenout and Moulding machines, &c.

I also offer to the public a new and valumaller quantities, and other articles usually kept in such establishments. All Flour and Mill Stuff fuel, and the regulation of speed, which renders my new engines far superior to the old engines. All my machines are sold under warrantee. My hands are all experienced workmen in this line of business, and I use all good material, so that I am

perfectly safe in warranting all my work. I am also prepared to do repairing in workmanlike manner, on the shortest notice. Orders solicited and promptly attended to. All orders sent in for repairing must be accompanied with the cash For particulars and circulars descriptive of manine, address GEORGE FRICK, Or DANIEL GEISER, Proprietor of Territory and so-
