PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER

AND BAGGER AND THE Littlest Improved Thresher and Triple Gearell Horse Powers, Driving either by Gear or Belt, all furnished Complete

ready to be put on Wayons.

offered ate of the best and mest improved killis, and having been tried are acknowledged to be all that are acknowledged to be all that are acknowledged to be all that are and Threshermen of Franking and adjoin ing counties to it. This Machine has been before the public for seven years, during which time if 1, the undersigned, desire to call the attention of the public for seven years, during which time it has given general satisfaction, and the patented having made some very important improvements which render it still more complete, both for clead separating and cleariting, and also for ease of draught and fast fireshing. I take pleasure in recommending it so the public, knowing that it will give the best of satisfaction. I am manufacturing hree different sizes, as follows:

No. I is 8 horse Power, will thresh and clean from 200 to 500 busilely per day. Pro: 2 is 5 to 6 horse power, will thresh and clear fform 150 to 300 bushels per day

No. 3 is 4 to 6 horse power, will thresh and slean

om' 100 to 200 bushele per day. These Machines are warranted to do the above and do it much better in every respect than any

Grain having much light filth in it cleaned on this Machine is worth from 2 to 8 cents more per bushe el than when cleaned on any other separator, or the common way of cleaning on hand fans. For this reason there is not the eighth part of light matter in the grain as when cleaned on the riddle principle. The blast acts freely onall the grain as it leaves the shues; whereas, when cleans with riddle that ad-

vantage is lost This machine does not return the wilends as confectionery, Fraits, &c., &c., &C. most of the separators do. By returning filthy tail-sails alternately it is impossible to make merchantagrain, Another important feature in this machine that others of the kind have not, is the Self-acting Blast Regulator in the fan, which remedies all difficulties in bad cleaning, blowing grain in the chaff in high speed or irregular driving, which cannot be avoided in cleaning grain by horse power This Machine is also more durable and less tedious o' manege than any other Separator and Cleaner, or

the common machine with shaker. Orders to insure their being filled until harvest should be sent in immediately. I am fully prepared to make to order and on short

STEAM DIGINES GRIST AND SAW MILL GEARING,

SHAFTING AND PULLEYS. IRON BRIDGES, CAST IRON WATER

WHEELS, IRON KETTLES, &c. Stoves and Plow castings, also cast iron and wrought iron pipe for steam on water, and Brass castings of every description; in a word, I am prepared to do everything usually done in a foundry and machine shop. Having supplied myzelf with the latest im-proved machinery, such as Latthes, Boring, Planing and Drilling Machines, persotts can rely on having their work done in the most satisfactory manner. l am also prepared to manufacture to order ma

chinery for wood, such as Tonging and Groving machines for flooring, Surface, Tenout and Moulding machines, &c. I also offer to the public a new and valuable improvement in my steam engines, made within the last year, viz: for the economizing of fuel; and the regulation of speed, which renders my new engines far superior to the old engines. All my machines are sold under warrantee. My hands are all experienced workmen in this line of

pusiness; and I use all good material, so that I am berfectly safe in warranting all my work. I am also prepared to do repairing in workillan like manner, on the shortest notice. Orders solicited and promptly attended to. All orders sent in or repairing must be accompanied with the cash.

For particulars and circulars descriptive of machine, address GEORGE FRICK Or DANIEL GEISER, Proprietor of Territory and so-licetor of orders, Waynesboro' Franklin Co. Pa.
