# FOUNDRY

GRAIN SEPARATOR, CLEANER AND BAGGER

Latest Improved Thresher and Triple Gear ed Horse Powers, Driving either by Gear, or Belt, all furnished Complete ready to be put on Wagons.

1, the undersigned, desire to call the attention of Farmers and Threshermen of Frankling and adjoining counties to it. This Machine has been before the public for seven years, during which time it has given general satisfaction, and the patentee having made some very important improvements which render it still more complete, both for clead separating, and cleaning, and also for ease of draught and fast threshing. I take pleasure in recommending it to the public, knowing that it will give the best of satisfaction. I am manufacturing three different sizes, as follows:

No. 1 is 8 horse Power, will thresh and clean from 200 to 500 bushels per day.
No. 2 is 5 to 6 horse power, will thresh and clean

from 150 to 300 bushels per day No. 8 is 4 to 6 horse power, will thresh and clean from IOU to 200 hishele per day.
These Michines are warranted to do the above and do it mach better in every respect than any

other machine in use.

Grain having much light filth in it cleaned on this Mentger & Horse & Cattle Powder Machine is worth from 2 to 3 cents more per bushe el than wh is cleaned on any other separator, or the common way of cleaning on hand fans. For this reason there is not the eighth part of light matter in the grain as when cleaned on, the riddle principle. The blast acts freely onali the grain as it leaves the shues, whereas, when cleaned with raddle that ad-

vantage is lost This machine does not return the tailends as nost of the separators do. By returning fifthy failends alternately it is impossible to make merchanta-grain, Another important feature in this machine that others of the kind have not, is the Self-acting Blast Regulator in the fan, which remedies all difficulties in bad deaning, blowing grain in the chaff in high speed or irregular driving, which cannot be avoided in cleaning grain by horse power This Machine is also more durable and less tedious

to manage than any other Separator and Cleaner, or the common machine with shuker.

Orders to meure their being filled until harvest should be sent in immediately. I am tully prepared to make to order and on short

notice Portable and Stationed 'STEAM ENGINES.

GRIST AND SAW MILL GEARING,

-shafting and pulleys, IRON BRIDGES, CAST IRON WATER

WHEELS, IRON KETTLES, &c. Stoves and Plow castings, also cast iron and wrought iron pipe for steam or water, and Brass castings of every description; in a word, I am prepared to do every description; in a word, I am prepared to do everything usually done in a foundry and machine shop. Having supplied myself with the latest im-proved machinery, such as Luthes, Boring, Planing and Drilling Machines, persons can rely on having. their work done in the most satisfactory manner.

chinery for wood, such as Tenging and Groving machines for flooring, Surface, Tenout and Moulding machines, &c. l also offer to the public a new and valu able improvement in my steam engines, made &c., &c. within the last year, viz: for the economizing o fuel, and the regulation of speed, which renders my new engines far superior to the old engines.

l am also prepared to manufacture to order ma-

All my machines are sold under warrantee. My hance are all experienced workmen in this line of pusiness, and I use all good material, so that I am perfectly safe in warranting all my work.

I am also prepared to do repairing: in workman like manner, on the shortest notice. Orders solicited and promptly attended to. All orders sent in or repairing must be accompanied with the cash. For particulars and circulars descriptive of mathine, address GEORGE FRICK
Or DANIEL GEISER, Proprietor of Territory and solice tor of orders, Waynesboro' Franklin Co. Pa.

# NEW and FRESH

M.
