\$100 REWARD! for a medicine that will cure

Coughs, Influenza, Tickling in the Throat, Whooping Cough, or relieve Consumptive Cough,

as quick as

COE'S COUGH BALSAM.

OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.

We have, in our possession, any quantity of certificates, some of them from **EMMENT F. FENESTRANO**, who have used it in their practice, and given it the prominence over any other compound.

It does not dry up a Cough, but loosens it, so as to enable the patient to expectorate.

Two or three Doses will invariably cure Tickling in the Throat.

A HALF Bottle has often completely cured the most obstinate cough, and yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age. In cases of **CROUP** we will guarantee a cure, if taken in season.

No Family should be without it.

It is within the reach of all, the price being only 25 CENTS. And if an investment in the above statement, the money will be refunded. We say this knowing its merits, and feel confident that one trial will secure for it, a home in every household. Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable Druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

The undersigned, desire to call the attention of Farmers and Threshermen of Franklin and adjoining counties to it. This Machine has been before the public for several years, during which time it has given general satisfaction, and the patentee having made some very important improvements which render it still more complete, both for clean separating and cleaning, and also for ease of draught and fast threshing. It does not require re-adjusting it to the public, knowing that it will give the best of satisfaction. I am manufacturing three different sizes, as follows:

These Machines are warranted to do the above and do it much better in every respect than any other machine in use.

Gain having which lightness in it cleaned on this Machine is worth from 2 to 3 cents more per bushel than when cleaned on any other separator, or the common way of cleaning in hand. It is also the best for cleaning grain in the chaff in high speed or irregular driving, which cannot be avoided in cleaning grain by horse power. This Machine is also more durable and less tedious to manage than any other Separator and Cleaner, or the common machine with shaker.

Orders to insure their being filled until harvest should be sent in immediately.
