The Secretary of the Treasury has not yet given notice of any intention to withdraw this popular Loan from Sale at Par, and until ten days notice is given, the undersigned as "General Subscription Agent," will continue to supply the public.

The whole amount of the Loan authorized is Five

Hundred Millions of Bollars. Nearly Four Hundred Millions have been attready subscribed for and paid into the Treasury, mostly within the last seven months. The large demand from abroad, and the rapidly increasing home demand for use as the basis for circulation by National Banking Associations sis for circulation by National Banking Associations now organizing in all parts of the country, will, in a very short period, absorb the balance. Sales have lately ranged from ten to lifteen millions weekly, frequently exceeding three millions daily, and as it is well known that the Secretary of the Teeasury has ample and unfailing resources in the Duties on Imports and Internal Revenues, and in the issue of the Interest bearing Legal Tender Treasury Notes, it is almost a certainty that he will not find it necessary for a long time to come, to seek a market for any other long or permanent Loans, THE INTEREST AND PRINCIPAL OF WHICH ARE PAYABLE IN GOLD.

Prodence and self interest must force the minds

Predence and self interest must force the minds of those contemplating the formation of National Banking Associations, as well as the minds of all who have idle money on their hands, to the prompt conclusion that they should lose no time in subscribing to this most popular Loan. It will soon be beyond their reach, and advance to a handsome premium as was the result with the "Seven Thirty" Loan, when it was all sold and could no longer be substituted for a par-

substitued for at var.

It is a Six per Cent Loan, the Interestand Principal payable in Coin, thus yielding over Nine per Cent per annum at the present rate of premium on

The Government requires all duties on imports to past amounted to over a Quarter of a Million of Dollars duily, a sum nearly three times greater than that required in the payment of the interest on all the 6-20's and other permanent I.oans. So that it is hoped that the surplus Coin in the Treasury, at no distant day, will enable the United States to resan respecte payments upon all liabilities.

1 he Loan is called 5-20 from the fact that whilst

the Bonds may run for 20 years yet the Government has a right to pay them off in Gold at par, at any time after 5 years.

time after 5 years.

The Int. rest is paid half-yearly, viz: on the first days of Nov ember and May
Subscribers can have Coupon Bonds, which are
payable to bear er, and are \$50, \$100, \$500, and
\$1000; or Registered Bonds of same denominations,
and in addition, \$5,000 and \$10,000. For Banking purposes and for investments of Trust-monies -th

Registered Bonds and preferable. These 5.20's cannot be taxed by States, cities, towns, or counties, and the Government tax on them is only one and a half per cent., on the amount of income, when the income of the holder exceeds Six Hundred dollars per annum; all other investments such as income from Mortgages, Railroad Stock and lionds, etc., must pay from three to five per cent tax

on the prome.

Banks and Bankers throughout the Country will continue to dispose of the Bonds; and all orders by mail, or otherwise promptly attended to.

The inconvenience of a few days' delay in the delivery of the Bunds is unavoidable, the demand

being so great; but as interest commences from the day of subscription, no loss is occasioned, and every effort is being made to diminish the delay.
