$100 REWARD! for a medicine that will cure

Coughs, Influenza, Tickling in the Throat, Whooping Cough, or relieve Consumptive Cough,

as quick as

COE'S COUGH BALSAM.

OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.

We have, in our possession, any quantity of certificates, some of them from *EMINENT PHYSICIANS*, who have used it in their practice, and given it the preeminence over any other compound.

It does not dry up a Cough,

but loosens it, so as to enable the patient to expectorate.

Two or three Doses will invariably cure Tickling in the Throat.

A HALF Bottle has often completely cured the most STUBBORN COUGH, and yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age. In cases of *CROUP* we will guarantee a cure, if taken in season.

No Family should be without it.

It is within the reach of all, the price being only **25 Cents.** And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this knowing its merits, and feel confident that one trial will secure for it a home in every household.

Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable Druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

WAYNESBORO'

FOUNDRY

AND

MACHINE SHOP!

IMPORTANT TO WHEAT GROWERS.

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER

Latest Improved Thresher and Triple Geared Horse Powers, Driving either by Gear or Belt, all furnished Complete ready to be put on Wagons.

I, the undersigned, desire to call the attention to Farmers and Threshermen of Franklin and adjoining counties to it. This Machine has been before the public for seven years, during which time it has given general satisfaction, and the patentee having made some very important improvements which render it still more complete, both for clean separating and cleaning, and also for ease of draught and fast threshing. I take pleasure in recommending it to the public, knowing that it will give the best of satisfaction. I am manufacturing three different sizes, as follows:

No. 1 is 8 horse Power, will thresh and clean from 200 to 300 bushels per day.

No. 2 is 5 to 6 horse power, will thresh and clean from 150 to 300 bushels per day

No. 3 is 4 to 5 horse power, will thresh and clean from 100 to 200 bushels per day.

These Machines are warranted to do the above and do it much better in every respect than any other machine in use.

Grain having much light filth in it cleaned on this Machine is worth from 2 to 3 cents more per bushel than when cleaned on any other separator, or the common way of cleaning on hand fans. For this reason there is not the eighth part of light matter in the grain as when cleaned on the riddle principle. The blast acts freely on all the grain as it leaves the shoes, whereas, when cleaned with riddle that advantage is lost

This machine does not return the tailends as most of the separators do. By returning filthy tailends alternately it is impossible to make merchantable grain. Another important feature in this machine that others of the kind have not, is the Self-acting Blast Regulator in the fan, which remedies all difficulties in bad cleaning, blowing grain in the chaff in high speed or irregular driving, which cannot be avoided in cleaning grain by horse power

This Machine is also more durable and less tedious to manage than any other Separator and Cleaner, or the common machine with shaker.

Orders to insure their being filled until harvest should be sent in immediately.

I am fully prepared to make to order and on short notice Portable and Stationed

STEAM ENGINES,

GRIST AND SAW MILL GEARING,

SHAFTING AND PULLEYS,

IRON BRIDGES, CAST IRON WATER WHEELS, IRON KETTLES, &c,

Stoves and Plow castings, also cast iron and wrought iron pipe for steam or water, and Brass castings of every description; in a word, I am prepared to do everything usually done in a foundry and machine shop. Having supplied myself with the latest improved machinery, such as Lathes, Boring, Planing and Drilling Machines, persons can rely on having their work done in the most satisfactory manner.—I am also prepared to manufacture to order machinery for wood, such as Tonging and Groving machines for flooring, Surface, Tenoni and Moulding machines, &c.

I also offer to the public a new and valuable improvement in my steam engines, made within the last year, viz: for the economizing of fuel, and the regulation of speed, which renders my new engines far superior to the old engines.

All my machines are sold under warrantee. My hands are all experienced workmen in this line of pusiness, and I use all good material, so that I am perfectly safe in warranting all my work.

I am also prepared to do repairing in workman like manner, on the shortest notice. Orders solicited and promptly attended to. All orders sent in or repairing must be accompanied with the cash.

For particulars and circulars descriptive of machine, address GEORGE FRICK

Or DANIEL GEISER, Proprietor of Territory and solicitor of orders, Waynesboro' Franklin Co. Pa.
