ready to be put on Wagons.

1, the undersigned, desire to call the attention of Farmers and Threshermen of Frankling and adjoining counties to it. This Machine has been before the public for seven years, during which time it has given general satisfaction, and the patentee having made some very important improvements which render it still more complete, both for clead separating and cleaning, and also for ease of draught and fast threshing. I take pleasure in recommending it to the public, knowing that it will give the best of satisfaction. I am manufacturing

bree different sizes, as follows: No. 1 is 8 horse Power, will thresh and clean from 200 to 500 bushels per day.

No. 2 is 5 to 6 horse power, will thresh and clean from 150 to 300 bushels per day.

No. 3 is 4 to 6 horse power, will thresh and clean

rom 100 to 200 bushele per day.

These M.chines are warranted to do the above, and do it much better in every respect than any other machine in use. Grain having much light filth in it cleaned on this Machine is worth from 2 to 3 cents more per bushe el than when cleaned on any other separator, or the

By returning filthy tailends alternately it is impossible to make merchantagrain, Another important feature in this machine that others of the kind have not, is the Self-acting

Blast Regulator in the fan, which remedies all difficulties in bad cleaning, blowing grain in the chaff in high speed or irregular driving, which cannot be avoided in cleaning grain by horse power
This Machine is also more durable and less tedious to manage than any other Separator and Cleaner, or the common machine with shaker.
