WAYNESBORO FOUNDRY

MACHINE SHOP!

IMPORTANT TO WHEAT GROWERS

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER

Latest Improved Thresher and Triple Gear-ed Horse Powers, Driving either by Gear or Belt, all furnished, Complete, and ready to be put on Wagons.

The undersigned, desiring to call the attention of Farmers and Planters to the benefits of the above mentioned Machine, has been before the public for several years, during which time all has given general satisfaction, and the patents having made some very important improvements which render it still more complete, both for separating and cleaning, and also for ease of draught and fast threshing. I take pleasure in recommending it to the public, knowing that it will give the best of satisfaction. I am manufacturing three different sizes, as follows: No. 1 is a 6 horse Power, will thresh and clean from 200 to 300 bushels per day. No. 2 is a 6 to 8 horse power, will thresh and clean from 150 to 200 bushels per day. No. 3 is a 4 to 6 horse power, will thresh and clean from 100 to 150 bushels per day.

These Machines are warranted to do the above, and are sold at the lowest price, and any other machine in the place.

Grain having much light chaff in it cleaned up this Machine is worth from 2 to 3 cents more per bushel than if cleaned up any other separator, or the common way of cleaning on "hat" fans. For this reason there is not the eighth part of light matter in the grain, as when cleaned on the "hat" principle. The blast acts freely on all the grain as it leaves the chutes, whereas, when cleaned with "hat" fans, the light matter is blown into the grain.

This machine does not return the tailings, as most of the separators do. By returning faulty chaff alternately it is impossible to make merchantable grain. Another important feature in this machine that others of the kind have not, is the Self-acting Blast Regulator in the fan, which remedies all the difficulties in bad cleaning, blowing grain in the chaff in high speed of irregular driving, which cannot be avoided in cleaning grain by horse power.

This Machine is also more durable, and less tedious to manage than any other Separator and Cleaner, or the common machine with shaker. Orders to insure their being filled until harvest should be sent in immediately.

I am fully prepared to make to order and on short notice Portable and Stationary

STEAM ENGINES,

GRIST AND SAW MILL GEARING,

SHAPING AND PULLEYS,

IRON BRIDGES, CAST IRON WATER

WHEELS, IRON KETTLES, &c.

Stoves and Flow castings, also cast iron and wrought iron pipe for steam or water, and Brass castings of every description; in a word, I am prepared to do everything usually done in a foundry and machine shop. Having supplied myself with the latest improved machinery, such as Lathes, Boring, Planing and Drilling Machines, persons can rely on having their work done in the most satisfactory manner. I am also prepared to manufacture to order machinery for wood, such as Tapping and Grooving machines for logging, Surface, Lenoir and Moulding machines, &c.

I also offer to the public a new and valuable improvement in my steam engines, made within the last year, viz: for the economizing of fuel, and the regulation of speed, which renders my new engines far superior to the old engines.

All my machines are sold under warranty. My hands are all experienced workmen in this line of business, and I will give all the satisfaction that can be given in any business. All work done in my shop is warranted for one year, and I will be glad to repair or replace any part of any machine that may be defective. Orders solicited and promptly attended to. All orders sent in or repairing must be accompanied with the cash. For particulars and circulars descriptive of machine, address GEORGE FRICK, Of District Engineer, Proprietor of Territory and collector of orders, Waynesboro-Franklin Co. Pa. April 19-64.

COE'S COUGH BALSAEM

OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.

We have, in our possession, any quantity of certificates, some of them from EMINENT PHYSICIANS, who have used it in their practice, and given it the preeminence over any other compound. It does not dry, up a Cough, but loosens it, so as to enable the patient to expectorate. Two or three Doses will invariably cure Ticking in the Throat. A HALF BOTTLE has often completely cured the most obstinate Cough, and yet, though it is so pure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age. In cases of CROUP, we will guarantee a cure, if taken in season. No Family should be without it. It is within the reach of all, the price being only 25 CENTS. And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this knowing its merits, and feel confident that one trial will secure for it a home in every household. Do not "waste away" with Coughing, when so small an investment will cure you. It may be had of any respectable Druggist in town, who will furnish you with a circular of genuine certificates of cures if he has made. C. G. CLARK & CO., Proprietors, NEW HAVEN, CT.
