PATENT LOCK .-- We were shown a few days since the model of an improved lock, in tended more particularly for stable doors and other out buildings, invented by JAMES W. MILLER of this place. Mr. M. has succeeded in getting a patent for his improvement. It is simple but very ingeniously arranged and cannot be picked or broken, even with a eledge hammer. It is the article that farmers, more particularly, should have in these horse-thieving times.

DEATH OF A SOLDIER .- JNO. SHOCKEY. son of Isaac Shockey, Esq., of this vicinity whom we noticed last week as having received a serious wound in an engagement near Richmond, we regret to announce has since died from the effects of his wound. ' He was a young man, perhaps not more than 19 or 20 years old, and had been in the service about two years. We sympathize with his parents and other friends in this sad bereavement. They are not without the consolation however that he gave his young life in a noble cause—the cause of his country and humanity, and that the good and loyal, for such valor and devotion, will honor his

Let it not be said that we are less liberal than our neighbors in making provision for the wants of the sick and wounded of our soldiers.

ARMY LETTERS.—We have had the pleasure of perusing several letters recently addressed by Capt. Kurtz of the 17th P. C. to his family in this place. Although the Captain has passed through some of the severest engagements of the war (the battles of Coal Harbor and Bottom Bridge included) he was well and uninjured up to the date of his last letter, June 6th. He refers to John Shockey, son of Isaac Shockey, Esq. of this vicinity as a most excellent young man and jaments very much the death of the gallant young soldier. Lt. Snively was acting Quarter Master for the Regiment, that officer having been killed a few weeks ago. Private Hawker, rumored killed, was well, not having even been wounded.

\$300 EXEMPTION LAW .- The House of Representatives on Tuesday refused by a vote of 100 against 50, to repeal the \$300 commutation clause in the enrolment bill.-Such a result, by so large a majority, took every one by surprise.

Generals Crooks and Averill, when at Staunton, destroyed over three millions dollars worth of Rebel property, consisting in part of foundries, cloth factories and a boot and shoe factory. The destruction of these establishments will be seriously felt by the Rebels, and will increase their embarrassments. Every day adds to their weakness and lessens their prospect of success.
