FARMERS, LOOK TO YOUR MITTHEST

W E the undersigned intend to put up a Car Mill and Evaporator to manufacture Syrul at Ringgold, Md. We call the attention of farmers to the importance of raising the Cane, as it is be lieved by persons who have raised it to be the mos-valuable crop that can be raised. It yields from two hundred and twenty-five to two hundred and seven ty-five gallons of Syrup to the acre. The Cane is best planted on hills. The seed should be sprouted before planting it. Persons wishing to get seed can get it at Charles Hiteshew's store, Ringgold; at Charles Hiteshew's store, Smithsburg; at Ground & Logan's store, Leitersburg, at Geo. Stover's store, Waynesboro', at Daniel Mentzer's Mill, at Samuel Frantz's Mill, at Geo. Besore's Mill, in the Black Corner, and at the Nunnery Mill. Feb. 12, 64 — if J. J. & B. FRICK

IMPORTANT TO WHEAT GROWERS

deiser's patent self-regulating GRAIN SEPARATOR, CLEANER AND BAGGER

O. OAND THE Latest Improved Thresher and Triple Gear-ed Horse Powers, Driving either by Gear or Belt, all furnished Complete ready to be put on Wayons.

1, the undersigned; desire to call the attention o Farmers and Threstermen of Frankling and adjoin-ing counties to it. This Machine has been before the public for seven years, during which time it has given general satisfaction, and the patentee having made some very important improvements which render it still more complete; both for clead separating and cleaning, and also for ease of draught and fast threshing. I take pleasure in recommending it to the public, knowing that it will give the best of satisfaction. I am manufacturing

three different sizes, as follows: No. 1 is 8 horse Power, will thresh and clean from 200 to 500 bushels per day.

No. 2 is 5 to 6 horse power, will thresh and clean

No. 2 is 5 to 6 norse power, with the from 150 to 300 bushels per day.

No. 3 is 4 to 6 horse power, will thresh and clean from 100 to 200 bushels per day.

These M.chines are warranted to do the above,

and do it much better in every respect than any other machine in use. Grain having much light fifth in it cleaned on this

Machine is worth from 2 to 3 cents more per-bushe el than what cleaned on any other separator, or the common wiy of cleaning on hand fans. For this reason there is not the eighth part of light matter in the grain as when cleaned on the riddle principle. The blast acts freely onall the grain as it leaves the shues, whereas, when cleaned with riddle that advantage is lost

grain, Another important feature in this machine that others of the kind have not, is the Self-acting Blast Regulator in the fan, which remedies all difficulties in bad cleaning, blowing grain in the chaff in high speed or irregular driving, which cannot be avoided in cleaning grain by horse power This Machine is also more durable and less tedious to manage than any office Separator and Cleaner, or the common machine with shaker?

Orders to insure their being filled until harvest should be sent in immediately. I am fully prepared to make to order and on short notice Portable and Stationed

Having supplied myself with the latest improved machinery, such as Lathes, Boring, Planing and Drilling Machines, persons can rely on having their work done in the most satisfactory manner.— I am also prepared to manufacture to order ma-chinery for wood, such as Tenging and Groving machines for flooring, Surface, Tenout and Mould

ing machines, &cc. I also offer to the public a new and valuable improvement in my steam engines, made within the last year, viz: for the economizing of fuel, and the regulation of speed, which renders my new engines for superior to the old engines.

All my machines are sold under warrantee. My

hands are all experienced workmen in this line of pusiness, and I use all good material, so that I am perfectly safe in warranting all my work.
