THESE Bonds are issued under the Act of Conference of March 8, 1864, which provides that all Bonds issued under this Act shall be EXEMPT FROM TAXATION by or under any state municipal authority. Subscriptions to these Rouds are received in United States house or notes of Nationpercuyed in United States notes or notes of National al Banks. They are TO BE REDEE MED IN COIN, at the pleasure of the Government, at any period not feel than ten not more than forth years from their date, and until their redemption FIVE PER CENT, INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually and on all other Bonds semi-annually. The interest is payable on the first days of March

and September in each year. Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasurer, and can be transferred only on the owner's order.-Coupon Bonds are payable to bearer, and are more convenient for commercial u ses.

Subscribers to this loan will have the option of having their Bonds draw interest from March Isty by paying the accrued interest in coin-(or in United States notes; or the notes of National Banks, adding fifty per cent for premium,) or receive them drawing interest from the date of subscription and deposit. As these Bonds are

Exempt from State or Municipal Taxation, their value is increased from one to three per cent. per annum, according to the rote of tax levies in various parts of the country.

At the present rate of premium on gold they pay OVER EIGHT PER CENT. INTEREST n currency, and are of equal convenience as a per

manent or temporary investment.

It is believed that no securities offer so great inducements to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness the faith or ability of private parties or stock companies or seperate communities only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and interest in

are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.

It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3d day of March. 1864, was \$768,975,000. The interest on this debt for the coming fiscal year will be \$45,937,126, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the rate of over \$100,000,000 per annum.

It will be seen that even the present gold revenue of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annu al receipts from customs on the same mount of importations, to \$150,000,000 per an-กบท.🗷 🧺

Instructions of the National Banks acting as loan ngents were not issued from the United States Preasury until March 26, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK.

Subscriptions will be received by the First National Bank of Philadelphia, Pa. Second National Bank of Philadelphia, Pa, Third National Bank of Philadelphia, Pa. AND BY ALL OTHER NATIONAL BANKS. which are deposituries of Public money, and all RESPECTABLE BANKS AND BANKERS throughout the country, (acting as agents of the National Depository Banks,) will furnish further

information on application and Afford every Facility to Subscribers.
