WAYNESBORO FOUNDRY

MACHINE: SHOP IMPORTANT TO WHEAT GROWERS

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER,

AND BAGGER Cally are the Relative Beauty of the second

Latest Improved Thresher and Triple Gear ed Horse Powers, Driving either by Gear or Belt, all furnished Complete ready to be put on Wagons.

1, the undersigned, desire to call the attention of Farmers and Threshermen of Frankling and adjoining counties to it: This Machine has been before the public for seven years, during which time it has given general satisfaction, and the patentee having made some very important improvements which render it still more complete; both for clead separating and cleaning, and also for ease of draught and fast threshing. I take pleasure in recommending it to the public, knowing that it will give the best of satisfaction. I am manufacturing is all of my own make, and which has been proven cannot be found better in any place. Now, tememthe public for seven years, during which time it

No. 3 is 4 to 6 horse power, will thresh and clean from 100 to 400 bushele per day.

These M chines are warranted to do the above, and do it in a h better in every respect than any other machines in use. other machy e in use: other macht'e in use. Grain having much light filth fri it cleaned on this: Machine is worth from 2 to 3 cents more per bushe

el than what cleaned on any other separator, or the common was of cleaning on hand lans. For this reason there is not the eighth part of light matter in the grain as when cleaned on the riddle principle. The blast acts freely onali the grain as it leaves the shues, whereas, when cleaned with riddle that advantage is lost

This machine does not return the tailends as most of the separators do. By returning fifthy tailends afternately it is impossible to make merchantagrain, Another important feature in this machine gram, randing in portain tout, is the Self-noting that others of the kind have not, is the Self-noting all diff. Blast Regulator in the fan, which remedies all difficulties in bad cleaning; blowing grain in the chaff in high speed or friegular driving, which cannot be avoided in cleaning grain by horse power This Machine is also more durable and less tedious to manage than any other Separator and Cluaner, or

the common machine with shaker. Orders to insure their being filled until harves should be sent in immediately. I am fully prepared to make to order and on short notice Portable and Stationed

STEAM ENGINES.
