As Kunkels Bitter Wine of Iron is the only sure and effectual remedy in the known world for the permanent cure of *Dyspepsia and Debility*, and as there are a number of imitations offered to the public, we would caution the community to purchase none but the genuine article, manufactured by S. A. KUNKEL & BRO., and has their stamp on the top of the cork of every bottle. The very fact that others are attempting to imitate this valuable remody, proves its worth and speaks volumes in its favor.

The Bitter Wine of Iron is put up in 75 cent and \$1 bottles, and sold by all respectable druggists throughout the country. Be particular that every bottle bears the fac simile of the proprietors signa-

This Wine includes the most agreeable and effi-cient Salt of Iron we possess; Citrate of Magnetic Oxhide combined, with the most energetic of vege-table tonics, Yellow Peruvian bark. The effect in many cases of debility, loss of appetite, and general prostration, of an efficient Salt of Iron, combined with our valuable Nerve Tonic, is most happy.— It augments the appetite, raises the pulse, takes of muscular flabbiners, removes the pallor of debility, and gives a florid figure to the counterance.

GEISER'S PATENT / SELF-REGULATING GRAIN SEPARATOR CLEANER

AND BAGGER ed Horse Powers, Driving either by Gear or Belt, all furnished Complete ready to be put on Wagons,

I, the undersigned, desire to call the attention of Farmers and Threshermen of Franklin and adjoining counties to it. This machine has been before the public for eight years, during which time it has given general satisfaction, and the patentee having made some very important improvements which render it still more complete, both for clean separa-ting and cleaning, and also for the case of draught and fast threshing. I take pleasure in recommending it to the public, knowing that, it will give the best satisfaction. I am manufacturing three different sizes, viz:

No. I is 8-horse Power, will threshand clean from

No. 2 is 5-to 6-horse power, will thresh and clean from 150 to 300 bushels per day.

No. 3 is 4 to 6-horse power, will thresh and clean from 100 to 200 bushels per day.

These Machines are warranted to do the above, and is if much hatter in every respect, there day on

and do if much better in every respect than any other machine in use.

Grain having much light fifth in it cleaned on this Machine is worth from 2 to 3 cents more per bushel than when cleaned on any other separator, or the common way of cleaning on hand faus. For this season there is not the eighth part of light matter

in the grain as when cleaned on the riddle principle. The blast acts freely on all the grain as it leaves thes hues, whereas, when cleaned with riddle that advantage is lost

This machine does not return the tailends as most of the separators do. By returning filthy tail ends alternately it is impossible to make merchanta-ble grain, Another important feature in this machine that others of the kind have not, is the Selfacting Blast Regulator in the fan, which remedies all difficulties in bad cleaning, blowing grain in the

chaff in high speed or irregular driving, which can-not be avoided in cleaning grain by horse power. This Machine is also more durable and less te. dious to manage than any other Separator and Cleaner, or the common machine with shaker. Orders to insure their being filled until harvest should be sent in immediately.

ing machines, &c.

I also offer to the public a new and valuable improvement in my steam engines, made within the last year, viz: for the economizing of fuel, and the regulation of speed, which renders my
