THE Secretary of the Treasury gives notice that subser iptions will be acceived for Coupon Treasury Notes; pa yable thies years from Ang. 16th. and three-tenths per cent. per annum,-principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent, gold bearing bonds, payable not less than twenty years from their date, as the Government may elect. They will be issued in denominations of \$50, \$100, \$500, \$1. 000 and 5,000, and all subscriptions in ust be for fifty dollars or some multiple of fifty dollars,

The notes will be transmit ted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be

prepared.
As the notes draw interest from Angust 15, persons making deposites subsequent to that date must pay the interest accrued from date of note to date of deposit.
Parties depositing twenty-five thousand dollars

and upwards for these notes at any one time will be allowed a commission of one quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits,

SPECIAL ADVANTAGES OF THIS LOAN. IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and the best security. Any savings bank which pays its depositors in U.S. Notes, considers that it is paying in the best circulating medium of the country, and it caanot pay in anything better for its own assets are cither in government securities or in notes or bonds payable in government paper, '

It is equally convenient as a tempo rary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as col laterals for discounts.

Convertible into a Six per cent. 5-20 Gold Bond. In addition to the very liberal interest on the notes for three years, this privelege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than nine per cent. premium, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less thanten per cent. per annum.

Its Exemption from State or Municipal Taxation. But aside from all the advantages we have enumerated, a special Act of Congress exempts all bonds and Treasury notes from local taxution .-On the everage, this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the country. It is believed that no securities offer so great in-

lucements to lenders as those issued by the government. In all other forms of indetedness, the faith or ability of private parties, or stock companies, or seperate communities, only, is pledged for payment, while the whole property is held to secure the discharge of all the obligations of the United States. While the government offers the most liberal

terms for its loans, it be lieves that the very strong-

est appeal will be the loyalty and patriotism of the people.

Duplicate certificates will be issued for all deposits. The party depositing must endorse upon the original certificate the denomation of notes required, and whether they are to be issued in blank or payable to order. When so end orsed it must be left with the officer receiving the deposit, to be for-

warded to the Treasury Department. Subscriptions will be received by the Treasurer of the United States, at Washington, the several Assistant Treasurers, and designated. Depositaries, and by the

FIRST NATIONAL BANK OF WAYNES. and by all National Banks which are depositaries of public money, and

ALL RESPECTABLE BANKS & BANKERS throughout the country will give further information EVERY FACILITY TO SUBSCRIBE.
