## A POIC FOR THE TIMES.

While war's fierce peals alarm us,  
Or victory's shout of charm us,  
The calmer notes of local news,  
Of little brawls, or breaks, or stews,  
Are equally engaging.

The former often shocks or pleases,  
But such emotions quickly cease,  
But when jewels bright and gay,  
In multitudinous array,  
Our serious thoughts assuage!

Are placed to view at Grove's old stand,  
To brighten eye, or ear, or hand—  
To decorate the lass or lad,  
To beautify the calm or sad,  
Oh every heart's delighted!

With rings, and pins, and bracelets bright,  
Glistening like the stars of night,  
On wrist, and fingers, breast and ear,  
Like seraphs fair the youth appear!  
With beauty's splendors freighted

With thimbles, lockets, mourning sets,  
Bouquins, gold-chains, and sets of jet,  
Steel jewelry, belt-slides and hooks,  
All of the latest styles and looks,  
I'm sure you'll be delighted.

Eight-day, alarm, thirty-hour, and fancy clocks; Spectacles, cases, and a full assortment of jewelry of the latest styles and most elegant finish, watches and jewelry promptly repaired at the lowest cash prices.

# Improved Threshing Machine!

Farmers will please look at the great advantage in Threshing  
Grain with

## GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER.

At a time like the present, when labor is very scarce, it is important that farmers who are interested  
should give attention to the above improvement, which will considerably reduce the expense of threshing  
grain over the common way.

This machine has been before the public for a number of years, but not very widely circulated, al-  
though it has competed with all the best of the different patented Grain Separators, and proved a decid-  
ed advantage, and now has the reputation of being the best Separator ever before the public. In order  
to prove this in new neighborhoods where it is not known, I am willing to forward a machine for a test  
to any person desiring a trial, and have its merits tested; and I wish to have it understood that I put the  
machine upon its own merits, and want farmers to judge for themselves. If it does not fully meet their  
wants—and they do not wish to purchase, I am perfectly willing to bear all expenses of shipping.

The machine is particularly adapted to farmers for their own use, and will apply to lever or railway  
power, will thresh and clean, in good grain, from 100 to 150 bushels per day, using four to six horses and  
the same number hands but under very favorable circumstances will thresh more per day.

It cleans the grain thoroughly clean by one operation, which is not generally done by other Separators;  
Grain cleaned in this manner, with much light flimsy matter, is worth one or two cents more per bushel  
than if cleaned in the common way. There is also a great saving of grain, in straw and chaff over  
the common way of threshing and cleaning, and also over other Separators and Cleaners.

The machine is conveniently arranged for hauling and threshing, being permanently fixed on two  
wheels. One man can easily move or shift it about, so that it is not half the trouble in a barn house as  
the common thrasher and shaker. It is also easy to put in operation, being simple, easily managed, reli-  
able, durable, compact, and cleanly to work by while in operation, not making near the dust as the com-  
mon machine or other Separators.

Farmers can rest assured that this machine is no humbug, and judging from the high recommendation  
from farmers that are using them, I may at once come to the conclusion that it is the very machine that farmers  
want and will have as soon as they have an opportunity to appreciate and attest its merits, which I hope  
they will give me an opportunity, as I am willing to be responsible, as already stated.  
Price of Machine at Shop, (all complete, ready to attach to belt-lever or Railway Power,)  
\$1.75 cash, \$180 in three months, with interest from date.

As material for manufacturing advances, there may be a corresponding advance in the price of ma-  
chines. The machine is fully represented in the above cut.  
I warrant the machine to do as above represented. Orders solicited and promptly attended to.  
The machine is manufactured in Pennsylvania and Maryland, at different shops.  
For further information and description of machine, address

## Waynesboro' Foundry AND MACHINE SHOP.

GER, AND THE LATEST IMPROVED THRESHER AND TRIPPLE-GEARED HORSE  
POWERS, DRIVING EITHER BY GEAR OR BELT, ALL FURNISHED COMPLETE,  
READY TO PUT ON WAGONS.

I, the undersigned, desire to call the attention of Farmers and Threshermen of Franklin and adjoin-  
ing counties to this machine. It has been before the public for a number of years, during which time it  
has given general satisfaction, and the patentee has made some very important improvements which ren-  
der it still more complete, both for clean separating and cleaning, and also for the ease of draught and  
fast threshing. I take pleasure in recommending it to the public knowing that it will give the best satis-  
faction. I am manufacturing two sizes, viz:

The largest is eight-horse power and will thresh and clean from 200 to 500 bushels per day.  
The small is six-horse power and will thresh and clean from 100 to 200 bushels per day.  
The machine is fully represented in the above cut, also full description, price, &c., of

chines for flooring, Surface, Tenon and Moulding machines, &c.

I am also prepared to make the above to order and on short notice; also  
I also offer to the public a new and valuable improvement in my steam engines, made within the  
last year, viz: for the economizing of fuel, and the regulation of speed, which renders my new engines  
far superior to the old engines. All my machines are sold under warranty. My hands are all expe-  
rienced workmen in this line of business, and I use all good material, so that I am perfectly safe in war-  
ranteeing all my work.

ment is more general than is usually found in coun-  
try Drug Stores. He has quite a variety of Hooks,

and has adopted this motto, "live and let live, sup-
