"PA HAS STRUCK ILE."

I once was unknown by the happy and gay, And the friends that Igrought did all turn away; Our dwelling was plain and and fare, And nothing inviting of course could be there. But now what a change! our house is so grand, Not one is so fine throughout the whole land, And we can now live in the very best style, And it's simply because my "Pa has struck ile."

Tis strange what attention a fortune does bring, At home or abroad how friends to one cling, And now even strangers the courteous and bland, To pay their addresses or take by the hand, When before, on a walk, if a neighbor I'd meet, Cold was his look and quick his retreat, But now in my carriage he greets with a smile, And it's simply because my "Pa has struck ile."

And now if to church I happen to stray, The sexton is ready to show me the way, Or if to a concert I fancy to go, I find plenty there with smiles to beslow. The world is no more a wilderness drear, "With none to caress and no one to cheer," Wherever I am there is much to beguile, And it's simply because my "Pa has struck ite."

MARITAL MAXIMS .- "A Perfect Brute" is responsible for the following :

Soft words butter no parsnips, but a new bonnet presented to a wife will cover a multitude of her husband's site. Grievances and babies were both made to be rursed and n fair division of labors lighteneth toil ; consequently the sagacious husband will take charge of the first and leave the second entirely with his wife.

Never place temptation in the way of the weak; loose change left in the marital pocket over night is apt to vanish before the morning. Business is a convenient cloak, which judiciously used may be made to hide a number of stolen pleasures. The simplest cure for persistent cold mutton is to dine at the restaurant and deduct from the housemoney accordingly. A latchkey is the mar-ried man's symbol of freedom; consequently secure it.if possible in the honeymoon. Never make vague promises to a wife; give a woman an inch of promise, and she requires ten miles of fulfilment. A soft answer may turn away wrath, but a good round expletive will often clinch an argument wonderfully. Lastly never attempt to stop a woman's tongue, talk is as necessary to female vitality as the air she breathes.

DIDN'T WANT A SUBSTITUTE .- Mr. Pilk. inson, a small farmer in Pennsylvania was some time ago drafted for the service of his country. His wife, though she possesses but a small stock of general information, is one of the best conjugal partners, and she was much troubled with the thought of parting with her husband. As she was engaged in scrubbing off her doorsteps, a rough looking stranger came up and thus addressed her:

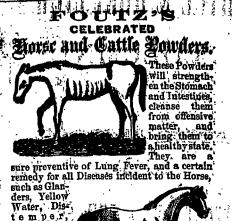

been drafted."

"Yes. sir, he has," answered Mrs. Pilkin-son, "though, dear knows, there's few couldn't better be spared from their families.

"Well, madam, I have come to offer myself as a substitute for him." "A what?" asked Mrs. Pilkinson, with

some excitement. "I am willing to take his place," said the stränger.

"You take the place of my husband,

BEWARE OF

👼 Counterfeits 🖼 As Kunkels Bitter Wine of Iron is the only sure and effectual remedy in the known world for the permanent cure of Dyspepsia and Debility, and as there are a number of imitations offered to the public, we would caution the community to purchase none but the genuine article, manufactured by S. A. KUNKEL & BRO, and has their stamp on the top of the cork of every bottle. The very fact that others are attempting to imitale this valuable remedy, proves its worth and speaks volumes in its favor.

The Bitter Wine of Iron is put up in 75 cent and \$1 bottles, and sold by all respectable druggisst throughout the country. Be particular that every bottle bears the *fuc simile* of the proprietors' signaure.

This Wine includes the most agreeable and effi-cient Salt of Iron we possess; Citrate of Magnetic Oxhide combined, with the most energetic of vegel table tonics, Yellow Peruvian bark. The effect in many cases of debility, loss of appetite, and gener-al prostration, of an efficient Salt of Iron, combined with our valuable Nerve Tonië, is most happy .-It augments the appetite, raises the pulse, takes off muscular flabbiness, removes the pallor of debility and gives a florid figure to the countenance.

Improved Thrashing Machine !

Farmers will prease look at the great advantage in Thrashing Grain with

GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR, **OLEANER AND BAGGER.**

At a time like the present, when labor is very scarce, it is important that farmers who are interested should give attention to the above improvement, which will considerably reduce the expense of threshing grain over the common way.

grain over the common way. This machine has been before the public for a number of years, but not very widely circulated, al-though it has competed with all the best of the different patented Grain Separators, and proved a decid-ed advantage, and now has the reputation of being the best Separator ever before the public. In order to prove this in new neighborhoods where it is not known, I am willing to forward a machine for a test to prove this in new neighborhoods where it is not known, I am willing to forward a machine for a test to any person desiring a trial, and have its merits tested; and I wish to have it understood that I put the machine upon its own merits, and want farmers to judge for themselves. If it does not fully meet their wants and liky do not wish to purchase, I am perfectly willing to bear all expenses of shipping. The machine is particularly adhifed to farmers for their own use, and will apply to lever or railway, power, will thresh and clean, in good graid, from 100 to 150 bushels per day, using four to six horses and the same number hands, but uniter very favorable circumstances will thresh more per day. I cleans the grain thoroughly clean by one operation, which is not generally done by other Separators. Circle desared on this meeting with more light thresh light the test with one of two cents more per bush-

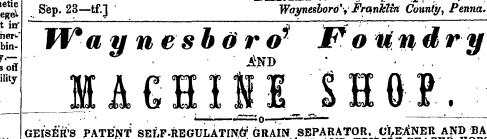

It cleans the grain throughly clean by ohe operation, which is not generally done by other Separators. Grain cleaned on this inhehine, with mirch light filthy matter, is worth one or two cents more per bush-el than if cleaned in the common way. There is also a great saving of grain, in straw and chaff over, the common way of thrashing and cleaning, and also over other Separators and Cleaners. The machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can cassily move or shift it about, so that it is not half the trouble in a barn floor as the common thresher and shaker. If is also easily put in operation, being simple, easily managed, relia-ble, durable, compact, and cleanly to work by while in operation, not making near the dust as the com-mon machine or of the Sedarators. mon machine or other Serierators.

Far ners can' rest assured that this machine is no humbilg, and judging from the high recommendation from farmers that are using them, I must come to the conclusion that it is the very machine that farmers want and will have as soon as they have an opportunity to appreciate and attest its merits, which I hope they will give me an opportunity, as I am willing to be responsible, as already stated,

Price of Machine at Shop, (all complete, ready to attach to belt Lever or Railway Power,) \$1,75 cash; \$180 in three months, with interest from date. As material for manufacturing advances, there may be a corresponding advance in the price of ma-

I, the undersigned, desire to call the attention of Farmer's and Threshermen of Franklin and adjoin-ing counties to this machine. It has been before the public for a number of years, during which time it has given general satisfaction, and the patentee Las made some very important improvements which ren-der it still more complete, both for clean separating and cleaning, and also, for the ease of draught and fast threshing. I take pleasure in recommending it to the public knowing that it will give the best satis-faction. I am manufacturing two sizes with

A few years since the noted Tom Marshall was delivering an address before a large audience in Buffalo, when some one in the hall, every few moments, should 'Louder ! louder!" Tom stood this for awhile; but at last, turning gravely to the presiding officer, said: 'Mr. Chairman, at the last day, when the angel shall with his golden trumpet proclaim that 'time shall be no longer,' I doubt not, sir, that there will be in that vast crowd, as now, some drunken fool from Buffalo, shouting 'Louder ! louder !'

The house roared; Tom went on with his speech; but their were no more cries of 'louder !'

A lady dressed in as luxurious fabrics as ever fluttered from a fairy form 'before war's deadly blast was blown,' with a sweeping trail behind her on the ground, of indefinite length turned the corner at the Wayside Hospital the other day, and as the turned she cast a glance of anxious solicitude back to see if the aforesaid trail was all O.
