

FOUTZ'S CELEBRATED Horse and Cattle Powders.

These Powders will strengthen the stomach and intestines, cleanse them from offensive matter, and bring them to a healthy state. They are a sure preventive of Lung Fever, and a certain remedy for all Diseases incident to the Horse, such as Glaucoma, Yellow Water, Distemper, Founder, Heaves, Stomachic, Coughs, Fevers, Loss of Appetite and Vital Enervation, &c.

In poor, in-spirited animals, it has the most beneficial effect.

In fattening Cattle, it gives them an appetite, loosens their hide and makes them thrive much faster.

Improved Threshing Machine!

Farmers will please look at the great advantage in Threshing Grain with

GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER.

At a time like the present, when labor is very scarce, it is important that farmers who are interested should give attention to the above improvement, which will considerably reduce the expense of threshing grain over the common way.

This machine has been before the public for a number of years, but not very widely circulated, although it has competed with all the best of the different patented Grain Separators, and proved a decided advantage, and now has the reputation of being the best Separator ever before the public. In order to prove this in new neighborhoods where it is not known, I am willing to forward a machine for a test to any person desiring a trial, and have its merits tested; and I wish to have it understood that I put the machine upon its own merits, and want farmers to judge for themselves. If it does not fully meet their wants, and they do not wish to purchase, I am perfectly willing to bear all expenses of shipping.

The machine is particularly adapted to farmers for their own use, and will apply to lever or railway power, will thresh and clean, in good grain, from 100 to 150 bushels per day, using four to six horses and the same number hands, but under very favorable circumstances will thresh more per day.

It cleans the grain thoroughly clean by one operation, which is not generally done by other Separators. Grain cleaned on this machine, with much light filthy matter, is worth one or two cents more per bushel than if cleaned in the common way. There is also a great saving of grain in straw and chaff over the common way of threshing and cleaning, and also over other Separators and Cleaners.

The machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half the trouble in a barn floor as the common thresh and shaker. It is also easily put in operation, being simple, easily managed, reliable, durable, compact, and cleanly to work by while in operation, not making near the dust as the common machine or other Separators.

Farmers can rest assured that this machine is no humbug, and judging from the high recommendation from farmers that are using them, I must come to the conclusion that it is the very machine that farmers want and will have as soon as they have an opportunity to appreciate and attest its merits, which I hope they will give me an opportunity, as I am willing to be responsible, as already stated.

The machine is manufactured in Pennsylvania and Maryland, at different shops.

M. M. STONER, Druggist,

THANKFUL to his friends and customers for the very liberal encouragement received in his "old business" and he hopes that the introduction of the cash system will add to their interest and his advantage in continuing their favors. He believes a distinction ought to be made between cash and credit and he intends to exhibit it in the prices of his articles offered for sale. Call and see, and if not so, purchase where ever you can get the cheapest, the best article at the lowest price. His assortment is more general than is usually found in country Drug stores. He has quite a variety of Hooks, &c., which he will dispose of cheap for cash, intending to close it, considering it no part of his business, and has adopted this motto, "live and let live, support and supporting."
