

They are a sure preventive of Lung Fever, and a certain remedy for all Diseases incident to the Horse, such as Glanders, Yellow Water, Dis-Founder Slavering vers, Loss

Appetite and

gy. &c.
In poor, low-spirited animals, it has the most beneficial effect. The use of them improves the wind, strengthens the Appetite, and gives to the Horse a fine, smooth and glossy skin—thus improving the appearance, vigor and spirit of this

The property this Powder possesses in increasing the quantity of Milk in Cows, gives it an importance and value which should place it in the hands of every person keeping a Cow. By actual experiment it has proven that it will increase the quantity of Milk and Cream twenty per cent, and make the Butter firm and sweet. In fattening Cattle, it gives them an appetite, loosens their hide and makes them thrive much faster. HOGS.

In all Diseases of the Swine, such as, Coughs, Ulcers in

the Lungs, Liver,
the Lungs,
the Lun above Diseases can be cured or entirely prevented. By using these Powders the Hog Cholera can be prevented. Price 25 cts. per Paper, or 5 Papers for \$1.

Improved Thrushing Machine !

is prepared to sell as cheap as they can be had at any other house in the town, and which, in regard to quality, cannot be excelled. He h s also on hand to quality, cannot be excelled. He h s also on hand Grain with

> GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER.

> At a time like the present, when labor is very scarce, it is important that farmers who are interested should give attention to the above improvement, which will considerably reduce the expense of threshing

grain over the common way. This machine has been before the public for a number of years, but rot very widely circulated, al though it has competed with all the best-of the different patented Grain Separators, and proved a decided of the second s though it has competed with all the best of the diffe-ent patented Grain Separators, and proved a decided advantage, and now has the reputation of being the best Separator ever before the public. In order to prove this, in new neighborhoods where it is not known, I am willing to forward a machine for a test to any person desiring a trial, and have its merits tested; and I wish to have it understood that I put the machine upon its own merits, and want formers to judge for themselves. If it does not fully meet their wants and they do not wish to purchase, I am perfectly willing to bear all expenses of shipping.

The machine is particularly adapted to farmers for their own use, and will apply to lever or railway power, will thresh and clean, in good grain, from 100 to 150 bushels per day, using four to six Lorses and the same number hards but under very favorable circumstances will thresh more per day.

It cleans the grain thoroughly clean by one operation, which is not generally done by other Separators. Grain cleaned on this machine, with much light filthy matter, is worth one or two cents more per bush.

Grain cleaned on this machine, with much light filthy matter, is worth one or two cents more per busher than if cleaned on this machine, with much light thiny matter, is worth one or two cents more per dustiel than if cleaned in the common way. There is also a great satisfied of grain, in straw and chaff over
the common way of thrashing and cleaning, and also over other Separators and Cleaners.

The machine is conveniently arranged for hadling and threshing, being permanently fixed on two
wheels. One man can easily move or shift it about, so that it is not half the trouble in a barn floor as

the common thresher and shaker. It is also easily put in operation, being simple, easily managed, reliable, durable, compact, and cleanly to work by while in operation, not making near the dust as the common machine or ot er Separators. Mon machine or other Separators.

For ners can rest assured that this machine is no humbug, and judging from the high recommendation from formers that are using them, I must come to the conclusion that it is the very machine that farmers

want and will have as soon as they have an opportunity to appreciate and attest its merits, which I hope they will give me'an opportunity, as I am willing to be responsible, as already stated,
Price of Machine at Shop, (all complete, ready to attach to belt Lever or Railway Power,)
\$1,75 cash, \$180 in three months, with interest from date.

As material for manufacturing advances, there may be a corresponding advance in the price of ma As materiar to maintactum advantages, the state of the machine is fully represented in the above cut.

I warrant the machine to do as above represented. Orders solicited and promptly attended to. The machine is manufactured in Pennsylvania and Maryland, at different shops.

For further information and description of machine, address

DANIEL GEISER, Proprietor, Waynesboro', Franklin County, Penna.

Waynesboro' Foundry MACHINE SHO

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER, AND THE EATEST IMPROVED THRESHER AND TRIPPLE-GEARED HORSE POWERS, DRIVING EITHER BY GEAR OR BELT, ALL FURNISHED COMPLETE, READY TO PUT ON WAGONS READY TO PUT ON WAGONS.

I, the undersigned, desire to call the attention of Farmers and Threshermen of Franklin and adjoining counties to this machine. It has been before the public for a number of years, during which time it has given general satisfaction, and the patentee Las made some very important improvements which render it still more complete, both for clean separating and cleaning, and also for the ease of draught and fast threshing. I take pleasure in recommending it to the public knowing that it will give the best satisaction. I am manufacturing two sizes, viz :

The largest is eight-horse power and will thresh and clean from 200 to 500 hushels per day. The small size. See the above which fully represents the machine, also full description, price, &c., of machine. Persons wishing machines should send in their orders in reasonable time to insure their being
