Improved Thrashing Machine!

Farmers will please look at the great advantage in Thrashing Grain with

GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR; CLEANER AND BAGGER.

At a time like the present, when labor is very scarce, it is important that farmers who are interested should give attention to the above improvement, which will considerably reduce the expense of threshing

grain over the common way. This machine has been before the public for a number of years, but not very widely circulated, al though it has competed with all the best of the different patented Grain Separators, and proved a decided advantage, and now has the reputation of being the best Separator ever before the public. In order to prove this in new neighborhoods where it is not known, I am willing to forward a machine for a test GEORGE STOVER

to prove this in new neighborhoods where it is not known, I am willing to forward a machine for a test to any person desiring a trial, and have its merits tested; and I wish to have it understood that I put the machine upon its own merits, and want farmers to judge for themselves. If it does not fully meet their wants and they do not wish to purchase, I am perfectly willing to bear all expenses of shipping.

The machine is particularly adapted to farmers for their own use, and will apply to lever or railway power, will thresh and clean, in good grain, from 100-to-150 bushels per day, using lots to six Lorses and the same number hards, but under very favorable circumstances will thresh more per day.

It cleans the grain thoroughly clean by one operation, which is not generally done by other Separators. Grain cleaned on this machine, with much light fifthy matter, is worth one or two cents more per bushel than if cleaned in the common way. There is also a great saving of grain, in straw and chaff over the common way of thrashing and cleaning, and also over other Separators and Cleaners.

The machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half the trouble in a barn floor as the common thresher and shaker. It is also easily put in operation, being simple, easily managed, reliable, compact, and cleanly to work by while in operation, being simple, easily managed, reliable, compact, and cleanly to work by while in operation, not making near the dust as the common machine or other Separators.

mon machine or other Separators. For ners can rest assured that this machine is no humbug, and judging from the high recommendation from farmers that are using them, I must come to the conclusion that it is the very machine that farmers went and will have as soon as they have an opportunity to appreciate and attest its merits, which I hope they will give me an opportunity, as I am willing to be responsible, as already stated, Price of Machine at Shop, (all complete, ready to attach to belt Lever or Railway Power,)
\$1,75 cash, \$180 in three months, with interest from date.

As material for manufacturing advances, there may be a corresponding advance in the price of machines.—The machine is fully represented in the above cut.

I warrant the machine to do as above represented. Orders solicited and promptly attended to.

The machine is manufactured in Pennsylvania and Maryland, at different shops.

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAG-GER, AND THE LATEST IMPROVED THRESHER AND TRIPPLE-GEARED HORSE POWERS, DRIVING EITHER BY GEAR OR BELT, ALL FURNISHED COMPLETE, READY TO PUT ON WAGONS.

I, the undersigned, desire to call the attention of Farmers and Threshermen of Franklin and adjoining counties to this machine. It has been before the public for a number of years, during which time is has given general satisfaction, and the patentee has made some-very improvements which rent der it still more complete, both for clean separating and cleaning, and also for the ease of draught and fast threshing. I take pleasure in recommending it to the public knowing that it will give the best satisfaction. I am manufacturing two sizes, viz:

The largest is eight-horse power and will thresh and clean from 200 to 500 bushels per day.

The Great Remeay for Sore Throat or Dip-theria, Croup, Neuralgia, &c., Also for Diarrhæa; Dysentery, Cholic, Cholera Morbus, Vomiting, Pains in the Stom-ach, Cramps, Frosted Feet, Chap-ped Hands, Fresh and Old Sores, Bruises, Burns, Toothache, to be used Internally and Externally.

The attention of the public is especially called to it as a remedy for Diptheria or Sore Throat. It has been tried in hundreds of cases in different parts of the country and has never failed to care it used to the country and has never failed to care it used to the result according to directions.

In time and according to directions. A great amount of suffering might often be saved by having a couple of bottles of this valuable medicine in the house.—

Try it, and it will speak wonders for itself. Read the strong testimony in its favor appended below.

As an external remedy for Croup, Sore Throat,
Diptheria, Fresh Cuts, Old Sores, Chapped Hands, Burns, &c., nothing can equal it, always alleviating the most severe pains in a few minutes. Knowing it to be perfectly harmless, and having been used with unbounded success, and in many cases when nothing else would relieve, I have directed every a gent to return the money to any purchaser if it did not give entire satisfaction, feeling confident that not one bottle in 1,000 will be returned.

Parents cannot keep a more efficacious medicine in the house, for the treatment of children, when in the house, for the treatment of children, when suddenly attacked with CROUP, SORE THROAT, D1PTHERIA, SCARLETINA, &c., which so often, like a thief at night, makes such ravages among their flocks of little ones, when they are attacked with Croup, Sore Throat, and their breathing obstructed. Then rub well the neck and cliest with the Pain Killer, at the same time giving a few drops internally, and you will never have to lament their removal by those dangerous diseases. It has necessarily removal by those dangerous diseases. It has proven itself infallible in the last stages of Croup and Sore Throat, when given over to die. It is also a valua-ble semedy for Bronchitis, and all affections of the Throat. The Pain Killer has snatched many a child from an untimely grave; now reader, purchase a bottle or two of the Pain Killer, and it will prove

a God-send in the above diseases.

No person having used one bottle will ever be without it in the family. It is one of the most effieient family medicines ever offered to the public for the removal of the nervous derangements of the Stomach and Bowels, Throat, &c., and all who use

it will find it.so. In fact, no family should ever be without a bottle in the house.

Croup and Sore Threat are diseases which very often carry off the patient very suddenly. It would be well in such cases to have the Balsam or Pain Killer always ready, it being an infallible remedy, by giving it internally, and at the same time saturate a flannel cloth well and let it be applied to the

rate a flannel cloth well and let it be applied to the th.oat and over the chest; it never fails to relieve if applied properly, having cured numbers of cases of the worst kind. All who have used it speak in the highest terms of it in curing Sore Throat, &c.

Dysentery is a disease of the larger and lower intestines, and its presence is indicated by bloody discharges, consisting of blood and slime. It is a dangerous malady, and must be treated with caution. Cramps of the stomach, and especially of the bow-els, are violent affections of the muscular and ner-tous system. Sudden shocks of cold frequently produce Cramps of the stomach and bowels, and for this the Healing Balsam is an infallible remedy, by taking inwardly and bathing the stomach and bowels well with the Balsam, and lay a piece of flannel n wet with the same.

Diarrhæa is a dangerous disease, and in many ocalities it is worse than others. It prostrates the patient very much, and often change of water or diet affects the bowels considerable, and causes great pain, and very often brings on Dysentery, which is more dangerous than the first. COUGH SYRUP!

This SYRUP is an invaluable remedy for the alleviation and cure of PULMONARY DISEAS ES. It is prompt in its action, pleasant to the taste, and from its carreme mildness, is peculiarly applicable to the use of children and persons in delicate health. As an anodyne expectorant, it will always be found to be beneficial by alleviating and arresting the severest spells of coughing so distressing to the patient. The indispensable qualities of such a remedy for popular use, must be, certainty of operation, absence of danger from accidental over dose, and its adaption to every patient of any age or either nex.

These conditions have been realized in this preparation, which, while it reaches to the foundation of diseases, and acts with unfailing certainty, is still harmless to the delicate invalid or tender infant.
