THE HARVESTER OF 1866.

ROSS'S COMBINED REAPER & MOWER.

WE call the attention of farmers to this justly celebrated Harvester. As a combined Machine, we can safely say it has no equal. It is a perfect Reaper as a Reaper, and Mower as a Mower.

The "Russel" is a double wheeled machine with folding cutter bar. The Reaper is so constructed that by removing a single bolt the platform, reel, &c., swings to the rear, thus making it as convenient to pass through a gate or over a bridge as a wagon. It also has the Sawyer attachment, which is better than heretofore. Having made considerable improvements in the house and stabling he feels confident that he is able to give every comfort his guests may want. His TABLE and BAR shall always be supplied with the very best the market can afford. John Richardson having attached a Livery all can be accommodated.
