Improved Thrashing Machine!

Farmers will please look at the great advantage in Thrashing

GEISERS' PATENT SELF-REGULATING-GRAIN SEPARATOR,

CLEANER AND BAGGER. With the latest Improved Triple-Geared Horse Power, etc., which they are constantly subject to when in driven either by Gear or Belt.

This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half trouble in a barn floor as a common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, eliable, durable, compact and cleanly to work by when in operation, not making near the dust as the common

machine or other Separators. Farmers can rest assured that this machine is no humbug, and judging from the high recommendation of farmers that are using them, I must come to the conclusion that it is the very Machine that farmers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which I hope they will give me an opportunity, as I am willing to be responsible if it does not perform

as represented in this Circular.

No. 1 is a eight-horse power, with cast iron thresher frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty three inches long. Trunk has ten inch rake crank and seven rakes, is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their tops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fificen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all difficulties in cleaning grain against windy weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstance, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness

to hands than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; is intended to apply to any common lever or railway power; weighs 1,300 pounds; has an iron threster frame, and cylinder, 12½ inches in diameter and 28 inches long; delivers the clean grain in bugs, or if desired, in a half bushel. It delivers the straw fifteen feet from the needer, or if desired, can deliver the staw and chaft together; will thresh and clean, in good grain, ready for market, from 100 to 175 bushels of wheat, or from 300 to 500 bushels of oats per day, using feur or six horses, and the same number of hands; but to force the work, under most favorable circumstances, good grain, &c., will thresh and clean considerably more. The Machine will threah and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power

and 28 Perches, adjoining lands of Rev. D. F. Good Shop Prices of Machines range from \$210, to \$525. Is I warrant the machines to be as above represented; also against any reasonable defects of material

> am prepared to furnish a variety of other agricultural implements, the latest and best improved. and such as are best adapted to the wants of the tarmers of this part of the country: Such as the Hagerssuch as are best adapted to the wants of the tarmers of this part of the country: Such as the Hagerssuch as are best adapted to the wants of the tarmers of this part of the country: Such as the Hagerssuch as are best adapted to the wants of the tarmers of this part of the country:

LIVERY STABLE, GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER, AND THE LATEST IMPROVED THRESHER AND TRIPPLE-GEARED HORSE POWERS, DRIVING EITHER BY GEAR OR BELT, ALL FURNISHED COMPLETE, POWERS, DRIVING EITHER BY GEAR OR BELT, ALL FURNISHED COMPLETE, READY TO PUT ON WAGONS.

> I, the undersigned, desire to call the attention of Farmers and Threshermen of Franklin and adjoining counties to this machine. It has been before the public for a number of years, during which time i-has given general satisfaction, and the patentee has made some very important improvements which rent der it still more complete, both for clean separating and cleaning, and also for the ease of draught and

at the shortest notice, all hours. Persons desiring Horses or Buggies, for riding or driving, would do well filled.

Let a sim more complete, noth or clean separating and cleaning, and are for the ease of draught and fast threshing. I take pleasure in recommending it to the public knowing that it will give the best satisfaction. I am manufacturing two sizes, viz:

The largest is eight-horse power and will thresh and clean from 200 to 500 bushels per day.

The small size. See the above which fully represents the machine, also full description, price, &c., of machine. Persons wishing machines should send in their orders in reasonable time to insure their being filled.

filled.

IMPORTANT TO SUGARDANIE CROWSIS

AND MANUFACTURERS OF SYRUP!

I am manufacturing different sizes of Sugarcane Mills (to be driven either by water, steam or horse-power) and Evaporators and fixtures for making Syrup; also Portable and Stationary Steam Engines for Living Mills. Therebies Mechanic Sanise West. driving Mills, Threshing Machines, Sawing Wood, &c.

I am fully prepared to make the above to order and on short notice; also
GRIST AND SAW MILL GEARING, SHAFTING AND PULLEYS, IRON BRIDGES, CAST IRON WATER-WHEELS. IRON KE ITLES, &c.

Stoves and Plow eastings, also cast iron and wrought iron pipe for steam orwater, and Brass.castings of every description; in a word, I am prepared to do everything usually done in a foundry and machine shop. Having supplied myself with the latest improved machinery, such as Lathes, Boring, Planing end Drilling Machines, persons can rely on having their work done in the most satisfactory manner.

1 am also prepared to manufacture to order machinery for wood, such as Tonging and Groving machines for flooring, Surface, Tenout and Moulding machines, &c. I also offer to the public a new and valuable improvement in my steam engines, made within the last year, viz: for the economizing of fuel, and the regulation of speed, which renders my new engines far superior to the old engines. All my machines are sold under warrantee. My hands are all experianced workmen in this line of business, and I use all good material, so that I am perfectly safe in war

I am also prepared to do repairing in workman like manner, on the shortest notice. Orders solicited and promptly attended to. All orders sent in for repairing must be accompanied with the cash.

For particulars and circulars descriptive of machine, address GEORGE FRICK, Or DANIEL GEISER, Proprietor of Territory and solicitor of orders, Waynesboro, Franklin Co. Pa.
