FRICE 25 CENTS A PAPER, OR \$1 A BOX THE immense sales of these powders during the short period they have been before the public, is a sufficient guarantee of their great popularity, and the decided benefits derived from their use. They are confidently recommended not only as preventive, but as a complete cure for all diseases neident to the Horse, Cow or Hog, as Destemper, Founder, Yellow Water, Heaves, Loss of Appètite, &c. By their use the Horse's appetite is improved, at d derangement of the digotive organs corrected, sof-tening the skin, and gving to the coat a sleek and shining appearance, and may be used with perfect safety at all times, as it contains no incredients which can injure a horse, whether sick or well. These powders also possess peculiar properties in increasing the quantity of milk in cows, thereby giving them an importance and value which should place them in the hands of all interested. For futtening cattle they are invaluable. In all Farmers will please look at the great advantage in Thrashing GEISERS' PATENT. For fattening cattle they are invaluable. In all diseases to which the Hog is subject, as Ulcers in the Lungs and Liver, etc., we guarantee their effi-ciency, if once fairly tried. SBLF-REGULATING GRAIN SEPARATOR, GREATEST LINIMENT

CLEANER AND BAGGER. With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt. A Powerful Oleaginus Compound for the

> This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half trouble in a barn floor as a common thrasher and shoker. It is also easily put in operation. It is simple, easily managed, cliable, durable, compact and cleanly to work by when in operation, not making near the dust as the common machine or other Separators. Farmers can rest assured that this machine is no humbug, and judging from the high recommenda-

Grain with

tion of farmers that are using them, I must come to the conclusion that it is the very Machine that far-mers want and will have as soon as they have an opportunity to appreciate and attest its merits, for It is extensively used in many parts of the counwhich'I hope they will give me an opportunity, as I am willing to be responsible if it does not perform try, and being a compound of the most valuable and as represented in this Circular.

No. 1 is a eight-horse power, with cast iron thresher frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty three inches long. Trunk has ten inch rake crank and seven rakes, is thirty five inches wide, and delivers the straw on the second rake, these carry the straw out on their tops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fitteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being cloced, to confine the straw and chaff, remedies all difficulties in cleaning grain against wing, weather. It has the grain by reasonable management, suf-ficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bush-els per hour, using eight horses and the same number of hands; but to force the work under favorable circumstance, it will thresh from forty to fifty bushels per hour, and with more case and agreeableness to hand's than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly orapted to the farmer's use; is intended to apply to any common lever or railway power; weighs 1,300 pounds; has an iron thresher frame, and cylinder, 123 inches in diameter at d 28 inches long; delivers the clean grain in bage, or if desired; in a half bushel. It delivers the straw fifteen feet from the reeder, or if desired, can deliver the straw and chaff together; will thresh and clean, in good grain, ready for market, from 100 to 175 bushels of wheat, or from 300 to 500 bushels of cats per day. using four or six horses, and the same number of

hands; but to force the work, under most favorable circumstances, good grain, &c., will thresh and clean considerably more. The Machine will threah and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power

Shop Prices of Machines range from \$210, to \$525. IT warrant the machines to be as above represented; also against any reasonable defects of material rockmanship, &c.

IF Having now taken a room to keep Repair Castings on hand, I have also selected and am prepared to furnish a variety of other spiricultural implements, the latest and best improved, and such as are best adapted to the wants of the farmers of this part of the country : Such as the Hagerstown (Miller's) Clover Stemmer, Huller and Cleaner, which is proving by its own merits to be one of the best machines of the kind now in use. The latest improved BUCKEYE REAPER AND MOW.

ER combined, with Dropper, and the Mower alone. The American flay Fork and Knife combined; Hay Nakes, Fodder Cutters, Cider Mills, &c. &c. &c., which I will furnish on short notice and warrant them to answer the purposes for which they are intended. EF Orders solicited and promptly attended to... For further particulars, circulars, &c. address IDANNEL, GEESER,

Improved Thrashing Machine: NEW SKIRT FOR 1866 The Great Invention of the Age in HOOP SKIRTS.

W. BRADLEY'S New Patent DUPLEX E LIPTIC (or double) SPRING SKIRT.

THIS INVENTION consists of DUPLEX (or two ELIPTIC PURE REFIRED STEEL SPRINGS, ingeniously BRAIDED TIGHTLY and FIRMLY together, EDGE to EDGE making the roughest, most PLEXIBLE, ELASTIC, and making the roughest, most PLEXIBLE, ELASTIC, and DERABLE SPRING ever used. They soldom bern of BREAK, like the Single Springs, and consequently preserve their perfect and beautiful shape more than twice as long as any Single Spring Skirt that ever her or Can be mode. Has or Can be made.

Has or Can be made. THE wonderful flexibility and great comfort and pleasure to any Lady wearing the Duplex Eliptic Skirt will be experienced particularly in all crowded Assemblids. Operas, Cartiages, Railroad Cars, Church Pows, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded (when in

House Dress, as the Skirt can be folded (when in use to occupy a small place as easily and conveni-ently as a Silk or Muslin Dress. A Lady having Enjoyed the Pleasure, Comfort and Great Convenience of wearing the Duplex E-liptic Steel Spring Skirt for a single day will Never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are supe-rior to all others.

Children, Misses and Young Ladies they are supe-rior to all others. THE HOOPS are covered with 2 ply double twisted thread and will wear twice as long as the Single yarn covering which is used on all Single Steel Hoop Skirts. The three bottom rods on eve-ry skirt are also double steel, and twice or double covered to prevent the covering from wearing off the rods when dragging down stairs stone steps, etc., etc., which they are constantly subject to when in

use. All are made of the new and elegant Corded Tapes, and are the best quality in every part, giving to the wearer the most graceful and perfect shape possible, and are unquestionably the lightest, most desirable, comfortable and economical skirt ever made.
