BELL'S ALTERATIVE

Condition Powders

PRICE 25 CENTS A PAPER, OR \$1 A BOX-

THE immense sales of these powders during the short period they have been before the public, is a sufficient guarantee of their great popularity, and the decided benefits derived from their use.

They are confidently recommended not only as a preventive, but as a complete cure for all diseases incident to the Horse, Cow or Hog, as Distemper, Founder, Yellow Water, Heaves, Loss of

Appetite, &c.
By their use the Horso's appetite is improved, and derangement of the digestive organs corrected, softening the skin, and giving to the coat a sleek and shining appearance, and may be used with perfect safety at all times, as it contains no ingredients h can injure a horse, whether sick or well.

These powders also possess peculiar properties in increasing the quantity of milk in cows, thereby giving them are importance and value which should

place them in the hands of all interested.

For fattening cattle they are invaluable. In all diseases to which the Hog is subject, as Ulcers in the Lungs and Liver, etc., we guarantee their effi-ciency, if once fairly tried.

L. B KURTZ, Proprietor, Successor to J. W. Taylor. Ap.il-20, 1866.

Improved Thrashing Machine!

Farmers will please look at the great advantage in Thrashing Grain with

GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR.

CLEANER AND BAGGER.

With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt.

This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half trouble in a barn floor as a common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, reliable, durable, compact and cleanly to work by when in operation, not making near the dust as the common

Farmers can rest assured that this machine is no humbug, and judging from the high recommenda-tion of farmers that are using them, I must come to the conclusion that it is the very Machine that farmers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which? I hope they will give me an opportunity, as I am willing to be responsible if it does not perform as represented in this Circular.

No. 1 is a eight-horse power, with east iron thresher frame and wrought iron and wood cylinder, six-teen inches in diameter and thirty three inches long. Trunk has ten inch rake crank and seven rakes, is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their ops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack tops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all difficulties in cleaning grain against windy weather.—It-bage the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstance, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness to hands than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; is intended to apply to any common lever or railway power; weighs 1,300 pounds; has an iron thresher frame, and cylinder, 12½ inches in diameter and 28 inches long; divers the clean grain in bags, or if desired, in a half bushel. It delivers the straw fifteen feet from the reeder, or if desired, can deliver the

desired, in a half bushel. It delivers the straw fifteen feet from the reeder, or if desired, can deliver the straw and chaff together; will thresh and clean, in good grain, ready for market, from 100 to 175 bushels of wheat, or from 300 to 500 bushels of oats per day, using four or six horses, and the same number of hands; but to force the work, under most favorable circumstances, good grain, &c., will thresh and clean considerably more. The Machine will thresh and clean all kinds of grain generally threshed with the common muchine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power

Shop Prices of Machines range from \$210, to \$525.

Having now taken a room to keep Repair Castings on hand, I have also selected and am prepared to furnish a variety of other agricultural implements, the latest and best improved, and such as are best adapted to the wants of the farmers of this part of the country: Such as the Hagerstown (Miller's) Clover Stemmer, Huller and Cleaner, which is proving by its own merits to be one of the best machines of the kind new in use. The latest improved BUCKEYE REAPER AND MOW-ER combined, with Dropper, and the Mower alone. The American Hay Fork and Knife combined; Hay Rakes, Fodder Cutters, Cider Mills, &c. &c. &c., which I will furnish on short notice and warrant them to a newes the proposes for which there are intended. Hay Rakes, Fodder Cutters, Ulder Mills, &c. &c. &c., ..., them to answer the purposes for which they are intended.

For further particulars, circulars, &c. address

DANIEL GEISER,

Waynesboro', Franklin Co. Penn'a.

Waynesboro' Foundry

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR. CLEANER AND BAGGER, AND THE LATEST IMPROVED THRESHER AND TRIPPLE-GEARED HORSE POWERS, DRIVING EITHER BY GEAR OR BELT, ALL FURNISHED COMPLETE, READY TO PUT ON WAGONS.

I, the undersigned, desire to call the attention of Farmers and Threshermen of Franklin and adjoining counties to this machine. It has been before the public for a number of years, during which time is has given general satisfaction, and the patentee has made some very important improvements which rent der it still more complete, both for clean separating and cleaning, and also for the ease of draught and fast threshing. I take pleasure in recommending it to the public knowing that it will give the best satis-

faction. I am manufacturing two sizes, viz : The largest is eight-horse power and will thresh and clean from 200 to 500 bushels per day.

The small size. See the above which fully represents the machine, also full description, price, &c., of

machine. Persons wishing machines should send in their orders in reasonable time to insure their being important to subarcane growers

AND MANUFACTURERS OF SYRUP! I am manufacturing different sizes of Sugarcane Mills (to be driven either by water, steam or horseand Tin-ware in Wayneshoro'.

The subscriber tenders to the community his

and Evaporators and fixtures for making Syrup; also Portable and Stationary Steam Engines for driving Mills, Threshing Machines, Sawing Wood, &c.

I am fully prepared to make the above to order and on short notice; also
GRIST AND SAW MILL GEARING, SHAFTING AND PULLEYS, IRON BRIDGES, CAST IRON WATER-WHEELS. IRON KETTLES, &c.

Stovus and Plow castings, also cast iron and wronght iron pipe for steam orwater, and Brass castings of every description; in a word, I am prepared to do everything usually done in a foundry and machine shop. Having supplied myself with the latest improved machinery, such as Lathes, Boring, Planing end Drilling Machines, persons can rely on having their work done in the most satisfactory manner. I am also prepared to manufacture to order machinery for wood, such as Tonging and Groving machines for flooring, Surface, Tenout and Monding machines, &c.

I also offer to the public a new and valuable improvement in my steam engines, made within the lest year, viz: for the economizing of fuel, and the regulation of speed, which renders my new engines. You will find among his stock of stoves those splen-spread workings in this line of hardens are sold under warrantee. My hands are all experising this line of hardens are sold under warrantee. anced working in this line of business, and I use all good material, so that I am perfectly safe in war-

ranting all my work. I am also prepared to do repairing in werkman like manner, on the shortest notice. Orders solicited and promptly attended to. All orders sent in for repairing must be accompanied with the cash-

NEW SKIRT FOR 1866.

The Great Invention of the Age in HOOP SKIRTS.

J. W. BRADLEY'S New Patent DUPLEX E LIPTIC (or double) SPRING SKIRT.

THIS INVENTION consists of DUPLEX (or two)
ELIPTIC PURE REPIRED STREEL SPRINGS, ingeniously
BRADDED TIGHTLY and PIRALLY together, RODE to Edge, making the TOUGHEST, most Flexible, Elabric and DURADIE Spring ever used. They seldom send or shear, like the Single Springs, and consequently preserve their perfect and beautiful shape more than twice as long as any Single Spring Shirt that ever Has or Can be made.

THE wonderful flexibility and great comfut and

pleasure to any Lady wearing the Duplex Eliptic Skirt will be experienced particularly in all crowded Assemblies. Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded when in use to occupy a small place as easily and conveniently as a Silk or Musiin Dress. A Lady having Enjoyed the Pleasure, Comfort and Great Convenience of wearing the Duplex Eliptic Steel Spring Skirt for a single day will Never

afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are superior to all others.

THE HOOPS are covered with 2 ply double twisted thread and will wear twice as long as the Single yarn covering which is used on all Single Steel Hoop Skirts. The three bottom rods on eve-ry skirt are also double steel, and twice or double

covered to prevent the covering from wearing off the rods when dragging down stairs stone steps, etc., etc., which they are constantly subject to when in All are made of the new and elegant Corded Tapes, and are the best quality in every part, giving to the wearer the most graceful and perfect shape possible, and are unquestionably the lightest, most lesirable,_comfortable_and_economical-skirt-ever
