: 18**66.** THE GREAT ZINGARI BITTERS. A Sure Preventive OF CHOLERA!

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr. S. Cheopsus, an eminent Egyptian physician. He had long seen and felt the want of some remedy which would strike at the root of the disease, and so prevent much of the suffering which the human family was then compelled to sailway.

and so prevent much of the suitering which the human family was then compelled to endure.

This great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was lead to think and appariment and other ten teams of lead to think and experiment; and after ten years of study and labor, he presented to his fellow-man the wonderful Zingari Bitters. The effect of this prepwonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold inedal with the following inscription—Ur. S. Cheopsus, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in several epidem

The preparation has been used in several epidem ics of cholera, both as a preventive and curative measure, and with great success, that it has been introduced into nearly all the general hospitals of the old world. The old saying that an ounce of prevention is worth a pound of cure, applies with for sale in Waynesboro', which they are prepared to seil at greatly reduced rates, having purchased their stock at a time when the markets were at the lowest rates during the recent decline in prices, marvellous force to cholera, and therefore any rem-

edy that will protect us against this terrible disease should be freely and persistently used.

All pathologists now agree that the cholera poison acts on the autom through the cholera poison acts on the system through the blood, and that any con bination which acts on the excretory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, especially the different forms of fever.

Goods department may be found The Zingari Bitters is just such a remedy as the above conditions require. It acts on the organs of Poil de Chevres, excretion and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely concocted that every organ is acted upon and put in tone. Its taste

is pleasant and its effects prompt and lasting.

Numerous cases of the following diseases have been cured by it: Coolera, Diarrhoea, Dysentery, Typhoid and Typhus Fever, Fever, Ague, Nervous Debility, Anaemia. Dysyepsia, Flatulency, Colic, Berofula, &c. Price \$1 per quart bottle. Principal Depot at the Walnut street wharf, Har

risburg, Pa. Sold by Druggists, Hotelkeepers and Grocers.
