1866. X. I. THE GREAT

ZINGARI BITTERS. **A Sure Preventive** OF CHOLERA!

ered and introduced about twenty years ago by Dr. S. Cheopsus, an eminent Egyptian physician. He had long seen and felt the want of some remedy which would strike at the root of the disense, and so prevent much of the suffering which the hu-

man family was then compelled to endure. This great question was presented to his mind every day in vivid colors as le moved among the sick and dying, and observed the inefficiency of nearly all the remodies then in use. Thus he was lead to think and experiment; and after ten years of study and labor, he presented to his fellow-man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the follow-

ing inscription—Dr. S. Cheopsus, the Public Benefactor—was presented to him by the Viceroy. The preparation has been used in several epidem ics of cholera, both as a preventive and curative ineasure, and with great success, that it has been introduced into nearly all the general hospitals of the old world. The old saying that an ounce of prevention is worth a pound of cure, applies with marvellous force to cholera, and therefore any remedy that will protect us against this terrible dirense

should be freely and persistently used.

All pathologists now agree that the cholera poism acts on the system through the blood, and that any combination which acts on the excretory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, especially the different forms of fever.

The Zingari Bitters is just such a remedy as the above conditions require. It acts on the organs of expretion and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely concocted that every organ is acted upon and put in to ne. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following diseases have
