**FIRST CASH DRUG STORE**  
IN WAYNESBORO, PA.

**M. M. STONEE, Druggist,**

THANKS to his friends and customers for the very liberal encouragement received in his "old business," and he hopes that the introduction of the cash system will add to their interest and his advantage in continuing their favors. He believes a distinction ought to be made between cash and credit and he intends to exhibit it in the prices of his articles offered for sale. Call and see, and if not so, purchase where ever you can get the cheapest, the best article at the lowest price. His assortment is more general than is usually found in country Drug Stores. He has quite a variety of Books, &c., which he will dispose of cheap for cash, intending to close it, considering it no part of his business, and has adopted this motto, "live and let live, support and supporting."  
M. M. STONEE,  
Aug. 19-1864.

**NOTICE!**

THE almost universal cash system prevailing in every department of business in this community, in connection with the high prices for every article of consumption, especially the high price of medicines, renders it necessary that we require the settlement of all accounts every six months. All bills there fore will be made out and ready for settlement by the 1st day of January next, when those indebted will please call and settle.

PRICE 25 CENTS A PAPER, OR \$1-A BOX

THE immense sales of these powders during the short period they have been before the public is a sufficient guarantee of their great popularity, and the decided benefits derived from their use.

They are confidently recommended not only as a preventive, but as a complete cure for all diseases incident to the Horse, Cow or Hog, such as Distemper, Founder, Yellow Water, Heaves, Loss of Appetite, &c.

By their use the Horse's appetite is improved, and derangement of the digestive organs corrected, softening the skin, and giving to the coat a sleek and shining appearance, and may be used with perfect safety a full dozen times, as it contains no ingredients which are injurious to the horse, whether sick or well.

These powders also possess peculiar properties in increasing the quantity of milk in cows, thereby giving them an importance and value which should place them in the hands of all interested.

For fattening cattle they are invaluable. In all diseases to which the Hog is subject, as Ulcers in the Lungs and Liver, &c., we guarantee their efficiency, if once fairly tried.

**GEISERS' PATENT**  
**SELF-REGULATING GRAIN SEPARATOR,**  
**CLEANER AND BAGGER.**

*With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt.*

This Machine is conveniently arranged for hauling and thrashing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half trouble in a barn floor as a common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, reliable, durable, compact and cleanly to work by when in operation, not making near the dust as the common machine or other Separators.

Farmers can rest assured that this machine is no humbug, and judging from the high recommendation of farmers that are using them, I must come to the conclusion that it is the very Machine that farmers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which I hope they will give me an opportunity, as I am willing to be responsible if it does not perform as represented in this Circular.

No. 1 is a eight-horse power, with cast iron thresher frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty three inches long. Trunk has ten inch rake crank and seven rakes, is thirty five inches wide, and delivers the straw on the second rake, these carry the straw out on their tops, and deliver it on the stacker, which will deliver about thirty five feet beyond the feeder, on a stack fifty to eighty feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all difficulties in cleaning grain against windy weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstances, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness to hands than any other machine now in common use.

The No. 2 Machine, fully represented in the above cuts, is particularly adapted to the farmer's use; it is intended to apply to any common level or railway power, weighs 1,300 pounds; has an iron thresher frame, and cylinder, 12 1/2 inches in diameter and 28 inches long; delivers the clean grain in bags, or if desired, in a half bushel. It delivers the straw five to six feet from the feeder, on a stack fifty to eighty feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all difficulties in cleaning grain against windy weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstances, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness to hands than any other machine now in common use.

The No. 3 Machine, fully represented in the above cuts, is particularly adapted to the farmer's use; it is intended to apply to any common level or railway power, weighs 1,300 pounds; has an iron thresher frame, and cylinder, 12 1/2 inches in diameter and 28 inches long; delivers the clean grain in bags, or if desired, in a half bushel. It delivers the straw five to six feet from the feeder, on a stack fifty to eighty feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all difficulties in cleaning grain against windy weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstances, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness to hands than any other machine now in common use.

Shop Prices of Machines range from \$210, to \$525.  
I warrant the machines to be as above represented; also against any reasonable defects of material workmanship, &c.

Having now taken a room to keep Repair Castings on hand, I have also selected and am prepared to furnish a variety of other agricultural implements, the latest and best improved, and such as are best adapted to the wants of the farmers of this part of the country. Such as the Hagers-town (Miller's) Clover-Steamer, Huller and Cleaner, which is proving by its own merits to be one of the best machines of the kind now in use. The latest improved BUCKEYE REAPER AND MOWER, ER combined, with Dropper, and the Mower alone. The American Jugg Furk and Knife combined; Hay Rakes, Forder Cutters, Cider Mills, &c. &c. &c., which I will furnish on short notice and warrant them to answer the purposes for which they are intended.

Orders solicited and promptly attended to. For further particulars, circulars, &c. address

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER, AND THE LATEST IMPROVED THRESHER AND TRIPLE-GEARED HORSE POWERS, DRIVING EITHER BY GEAR OR BELT, ALL FURNISHED COMPLETE, READY TO PUT ON WAGONS.

I, the undersigned, desire to call the attention of Farmers and Threshermen of Franklin and adjoining counties to this machine. It has been before the public for a number of years, during which time it has given general satisfaction, and the patentee has made some very important improvements which rent it still more complete, both for clean separating and cleaning, and also for the ease of draught and fast thrashing. I take pleasure in recommending it to the public knowing that it will give the best satisfaction. I am manufacturing two sizes, viz:  
The largest is eight-horse power and will thresh and clean from 200 to 500 bushels per day.  
The small size. See the above which fully represents the machine, also full description, price, &c. of machine. Persons wishing machines should send in their orders in reasonable time to insure their being fitted.

I am manufacturing different sizes of Sugarcane Mills (to be driven either by water, steam or horse-power) and Evaporators and fixtures for making Syrup; also Portable and Stationary Steam Engines for driving Mills, Thrashing Machines, Sawing Wood, &c.

I am fully prepared to make the above to order and on short notice; also  
GRIST AND SAW MILL, GEARING, SHAFING AND PULLEYS, IRON BRIDGES, CAST IRON WATER-WHEELS, IRON KEYS, &c.

Stoves and Blow castings, also cast iron and wrought iron pipe for steam water, and Brass castings of every description in a word, I am prepared to do everything usually done in a foundry and machine shop. Having supplied myself with the latest improved machinery, such as Lathes, Boring, Planing and Drilling Machines, persons can rely on having their work done in the most satisfactory manner. I am also prepared to manufacture to order machinery for wood, such as Tonging and Groing machines for flooring, Surface, Tenout and Moulding machines, &c.

I also offer to the public a new and valuable improvement in my steam engines, made within the last year, viz: for the economizing of fuel, and the regulation of speed, which renders my new engines far superior to the old engines. All my machines are sold under warranty. My hands are all experienced workmen in this line of business, and I use all good material, so that I am perfectly safe in warranting all my work.

I am also prepared to do repairing in workman like manner, on the shortest notice. Orders solicited and promptly attended to. All orders sent in for repairing must be accompanied with the cash.

The small size. See the above which fully represents the machine, also full description, price, &c. of machine. Persons wishing machines should send in their orders in reasonable time to insure their being fitted.

I am manufacturing different sizes of Sugarcane Mills (to be driven either by water, steam or horse-power) and Evaporators and fixtures for making Syrup; also Portable and Stationary Steam Engines for driving Mills, Thrashing Machines, Sawing Wood, &c.

I am fully prepared to make the above to order and on short notice; also  
GRIST AND SAW MILL, GEARING, SHAFING AND PULLEYS, IRON BRIDGES, CAST IRON WATER-WHEELS, IRON KEYS, &c.

Stoves and Blow castings, also cast iron and wrought iron pipe for steam water, and Brass castings of every description in a word, I am prepared to do everything usually done in a foundry and machine shop. Having supplied myself with the latest improved machinery, such as Lathes, Boring, Planing and Drilling Machines, persons can rely on having their work done in the most satisfactory manner. I am also prepared to manufacture to order machinery for wood, such as Tonging and Groing machines for flooring, Surface, Tenout and Moulding machines, &c.

I also offer to the public a new and valuable improvement in my steam engines, made within the last year, viz: for the economizing of fuel, and the regulation of speed, which renders my new engines far superior to the old engines. All my machines are sold under warranty. My hands are all experienced workmen in this line of business, and I use all good material, so that I am perfectly safe in warranting all my work.

I am also prepared to do repairing in workman like manner, on the shortest notice. Orders solicited and promptly attended to. All orders sent in for repairing must be accompanied with the cash.
