Beef! Prime Beef!! THE subscribers inform the public that they have commenced the Butchering business and

d and infroduced about twenty years ago by Dr S. Cheopsus, an eminent Egyptian physician. He had long seen and felt the want of some rem-edy which would strike at the root of the disease, and so prevent much of the suffering which the hu-man family was then compelled to endure.

This great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of aration in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal favor were bestowed upon him Roll of Nobles, and a gold medal with the follow-ing inscription---Dr. S. Cheopsus, the Public Benefactor-was presented to him by the Viceroy.

The preparation has been used in several epidem ics of cholera, both as a preventive and curative introduced into nearly all the general hospitals of the old world. The old saying that an ounce of rrevention is worth a pound of cure, applies with marvellous force to cholera, and therefore any remedy that will protect us against this terrible disease ould be freely and persistently used.

All pathologists now agree that the cholem poism GREAT conbination which acts on the excittory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, especially the different forms of fever. The Zingari Bitters is just such a remedy as the

above conditions require. It acts on the organs of excretion and secretion, keeping up a perfect bul-ance between them. This Bitters is composed entirely of roots and herbs, so nicely concocted that every organ is acted upon and put in tone. Its taste is pleasant and its effects prompt and lasting. Numerous cases of the following diseases have

been cured by it: Coolesa, Diarthoen, Dysentery, Typhoid and Typhus Fever, Fever, Ague, Nervous Jephold and Typhus Fever, Ague, Nerrous

Thus he was lead to think and experiment; and after ten years of study and labor, he presented to his fellow-man the wonderful Zingari Bitters. The founder of this enterprise in Waynesboro', A. D. 1854, has again fitted up a new room. The shelves and drawers are filled with an entire new stock of the latest style.---Facts are stubborn things and selling superior and cheap goods for so many years has satisfied the citi-zons of Waynesboro', and the community in general, "that some things can be done as well as others," and notwithstanding the prophecies and kind wishes of my neighbors, the house still stands, with the original motto still floating o'er it, and not a sin-

gle star eraced. Come then old and newsfriends and buy from J. Beaver-
