BELL'S ALTERATIVE OR Condition Powders

FOR HORSES, CATTLE AND SWINE. PRICE 25 CENTS A PAPER, OR \$1 A BOX-

THE immense sales of these powders during the short period they have been before the public, is a sufficient guarantee of their great popularity, and the decided benefits derived from their use.

They are confidently recommended not only as a preventive, but as a complete cure for all diseases incident to the Horse, Cow or Hog, as Distemper, Founder, Yellow Water, Heaves, Loss of Appetite, &c.

Appetite, 4c.

By their use the Horse's appetite is improved, and derangement of the digestive organs corrected, softening the skin, and giving to the cost a sleek and shining appearance, and may be used with perfect safety at all times, as it contains no ingredients which can injure a horse, whether sick or well.

These powdors also possess peculiar properties in increasing the quantity of milk in cows; thereby giving them an importance and value which should place them in the hands of all interested.

For fattening cattle they are invaluable. In all diseases to which the Hog is subject, as Ulicers in the Lungs and Liver, etc., we guarantee their efficiency, if once fairly tried.

GREATEST LINIMENT

BELL'S WHITE OIL. PRICE 25 CENTS A BOTTLE,

A Powerful Oleaginus Compound for the Cure of

Bruises, Swelling of all kinds and in fact every Disease for which an Em brocation is . applicable.

The Cleanest and Cheapest Liniment in Use It is extensively used in many parts of the country, and being a compound of the most valuable and efficacious remedies, the proprietor recommends it with the utmost confidence as a safe and certain

remedy.
Sold in Wayneb ro' by F. Fourteman, and by Druggists and Storckeepers generally.
Prepared by W. D. Bell, Apothecary, (Graduate of Philadelphia College of Pharmacy.)
Hagerstown, April 20—1y.

BAKING Molasses, also some fine Syrups at Paten & Torratoga. Improved Thrashing Machine!

Farmers will please look at the great advantage in Thrashing

GEISERS' PATENT SBLF-REGULATING GRAIN SEPARATOR,

With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt.

This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half trouble in a barn floor as a common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, eliable, durable, compact and cleanly to work by when in operation, not making near the dust as the common-

machine or other Separators.

Farmers can rest assured that this machine is no humbug, and judging from the high recommendation of farmers that are using them, I must come to the conclusion that it is the very Machine that far mers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which I hope they will give me an opportunity, as I am willing to be responsible if it does not perform as represented in this Circular.

No. I is a eight-horse power, with cast iron thresher frame and wrought iron and wood cylinder, sixteen inches in dismeter and thirty three inches long. Trunk has ten inch rake crank and seven rakes, is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their tops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack licen to cighteon feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chall, remedies all difficulties in cleaning grain against winay weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to torty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstance, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness

hands than any other machine now in common use. The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; is intended to apply to any common lover or railway power; weighs 1,300 pounds; has an iron thresher frame, and cylinder, 12½ inches in diameter and 28 inches long; delivers the clean grain in bags, or if desired, in a half bushel. It delivers the straw lifteen feet from the needer, or if desired, can deliver the straw and chaff together; will thresh and clean, in good grain, ready for market, from 100 to 175 bushels of wheat, or from 300 to 500 bushels of oats per day, using four or six horses, and the same number of hands; but to force the work, under most favorable circumstances, good grain, &c., will thresh and clean considerably more. The Machine will threah and clean all kinds of grain generally threshed with the ommon muchine, and requires no more horse power, but in many cases does not run so hard. It will

warrant the machines to be as above represented; also against any reasonable defects of material

ER combined, with Dropper, and the Mower alone. The American Hay Fork and Knife combined, Hay Rakes, Fodder Cutters, Cider Mills, &c. &c., which I will furnish on short notice and warrant

Waynesboro' Foundry

1, the undersigned, desire to call the attention of Farmers and Threshormen of Franklin and adjoin ing counties to this muchine. It has been before the public for a number of years, during which time i-has given general satisfaction, and the patentee has made some very important improvements which rent

The largest is eight-horse power and will-thresh-and-clean from 200 to 500 bushels per day.

The small eize. See the above which fully represents the machine, also full description, price, &c., of nachine. Persons wishing machines should send in their orders in reasonable time to insure their being

important to sugargane growers

AND MANUFACTURERS OF SYRUP! I am manufacturing different sizes of Sugarcane Mills (to be driven either by water, steam or horse

IRON WATER-WHEELS, IRON KETTLES, &c, Stoves and Plow castings, also cast iron and wrought iron pipe for steam orwater, and Brass castings of

coring, Surface, Tenout and Moulding machines, &c. l also offer to the public a new and valuable improvement in my steam engines, made within the last year, viz: for the economizing of fuel, and the regulation of speed, which renders my new engine far superior to the old engines. All my machines are sold under warrantee. My hands are all experi-

onced workmen in this line of business, and I use all good material, so that I am perfectly safe in warranting all my work. I am also prepared to do repairing in workman like manner, on the shortest notice. Orders solicited

and promptly attended to. All orders sent in for repairing must be accompanied with the cash. For particulars and circulars descriptive of machine, address GEORGE FRICK,
