THE GREAT ZINGARI BITTERS. A Sure Preventive OF CHOLERA!

TETHIS WONDERFUL REMEDY was discov. cred and introduced about twenty years ago by Dr. S. Cheopsus, an eminent Egyptian physician.

He had long seen and felt the want of some remedy which would strike at the root of the disease and so prevent much of the suffering which the hu-

man family was then compelled to endure. This great question was presented to his mind every day in vivid colors as le moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was lead to think and experiment; and after ten years of study and labor, he presented to his fellow man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flatter ing marks of royal tavor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the follow ing inscription-Ur. 8. Cheopsus, the Public Bene factor-was presented to him by the Viceroy.

The preparation has been used in several epidem ics of cholers, both as a preventive and curative measure, and with great success, that it has bee introduced into nearly all the general hospitals of the old world. The old saying that an ounce of revention is worth a pound of cure, applies with marvellous force to cholera, and therefore any rem edy that will protect us against this terrible areas

should be freely and persistently used.

All pathologists now agree that the cholera pois m acts on the system through the blood, and that any con bination which acts on the exerctory organs and keeps them in working order, must prevent sufficient accumulation of the poison to exert itterrible effects on the organism. This is true not only of cholers, but of nearly all other maladies, especially the different forms of fever.

pecially the different forms of fever.

The Zingari Bitters is just such a remedy as the above conditions require. It acts on the organs of expection and secretion, keeping up a perfect balance between them. This Ritters is composed entirely of roots and herbs, so nicely concocted that every organ is acted upon and put in tone. It taste to the manufacture and her in the results its results. is pleasant and its effects I rompt and lasting.

Aumerous cases of the following diseases have

been cured by it: Coulera, Diarrhoea, Dysentery Typhord and Typhus Fever, Fever Ague, Nervous Deivity, Annen in. Desyepsia, Flatukney, Colic. Ser fala, &c. Price \$1 per quart bottle. Principal Depot at the Walnut street wherf, Haribburg, Pa. Solo by Pringgists, Hotelkeepers and F. RAHTER, Solo Proprietors. For sale at the "Waynesboro" Hotel," by V. B.

Improved Thrashing Muchine!

Appetite. &c

By their use the Horie's oppetite is improved, and derangement of the directive organs correct d. softening the skin, and giving to the coat a steek and sninng appearance, and may be used, with perfect sufety at all times, as it contains no ingredients which can highest a horse, whether sick or well.

These powders also possess peculiar properties in increasing the quantity of milk in cows, thereby giving them at importance and value which should place them in the hands of all interested. Farmers will please look at the great advantage in Thrashing

GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR.

CLEANER AND BAGGER.

With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt.

This Machius is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half trouble in a barn floor as a common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, eliable, durable, compact and cleanly to work by when in operation, not making near the dust as the common machine or other Separators.

fuziners can rest assured that this machine is no humbur, and judging from the high recommenda-ion of fuziners that are using them, I must come to the conclusion that it is the very Machine that far mers want and will have as soon use they have an opportunity to appreciate and attest its merits, for which I hope they will give me an opportunity, as I am willing to be responsible if it does not perform s represented in this Circular.

No. 1 is a eight-horse power, with cast iron thresher frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty three inches long. Trunk has ten inch rake crank and seven rakes, is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their tops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack en to eighteen feet high, and can be easily manag d to carry the chaff with the stra w, or deliver if Bruggis a and Storckeep as generally.

Prepared by W. D. Bell, Apothecary, (Graduate of Philadelphia College of Pharmacy.)

Hagerstown, April 20—1y. in a separate place. The trunk and fan sides being closed, to confine the straw and chaif, remedies all difficulties in c caning grain against who weather. It bags the grain by reasonable management, sufficiently clean for market, and its enpacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstance, it will thresh from forty to any bushels per hour, and with more case and agreeableness

to hands than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the fagmer's use; is intended to apply to any common lever or railway power; weight 1,300 pounds; has an iron threster frame, and cylinder, 124 inches in diameter as d 48 inches long; delivers the clean grain in bags, or if EMPORIUM! frame, and cylinder, 12½ inches in diameter a d 48 inches long; delivers the clean grain in pags, or in desired, in a half bushel. It delivers the straw fitteen feet from the feeder, or if desired, can deliver the straw and chalf together; will thresh and clean; in good grain, ready for market, from 100 to 175 bushels of wheat, or nom 300 to 500 bushels of oats per day, using four or six horses, and the same number of hands; but to force the work, under mast favorable circumstances, good grain, &z., will thresh and clean clean att kinds of grain generally threshed with the considerable more. The Machine will thresh and clean att kinds of grain generally threshed with the Hats, Shoes, Trunks and ommon michine, and requires no more horse power, but in many cases does not run so hard. It will pply very well to a two horse railway power

Shop Prices of Machines range from \$210, to \$525. MONEY!

> Illaving now taken a room to keep Repair Castings on hand, I have also selected and im prepared to furnish a variety of other agricultural implements, the latest and best improved, and such as are best adapted to the wants of the farmers of this part of the country : Such as the Hagers town Miller's) Clover Stemener, Huster and Cleaner, which is proving by its own, merits to be one of the best machines of the kind now in use. The latest improved BUCKEYE RE PER AND WOW. ER combined, with Dropper, and the Mower alone. The American May Fork and Knife combined, they Rokes, Forder Cutters, Cider Mills, &c. &c. &c., which I will furnish on short notice and warrant
