BELL'S ALTERATIVE OR Condition Powders

FOR HORSES, CATTLE AND SWINE. PRICE 25 CENTS A PAPER OR \$1 A BOX.

The immense sales of these powders during the short period they have been before the public is a sufficient guarantee of their great popularity, and the decided benefits derived from their use.

By their use the Horse's appetite is improved, and derangement of the digestive organs corrected, softening the skin, and giving to the coat a sleek and shining appearance, and may be used with perfect safety at all times, as it contains no ingredients which can injure a horse, whether sick or well.

GREATEST LINIMENT IN USE

BELL'S WHITE OIL.

A Powerful Oleaginous Compound for the Cure of Rheumatism, Strains, Sprains, Numbness of the Limbs, Wounds, Frost-bites and Burns, Sprains, Saddle Galls, Poll Evil, Ring Bruises, Scalding of all kinds, and in fact every Disease for which an Emollient is applicable.

THE Cleanest and Cheapest Liniment in Use

It is extensively used in many parts of the country, and being a compound of the most valuable and efficacious remedies, the proprietor recommends it with the utmost confidence as a safe and certain remedy.

LATEST FASHIONS DEMAND

J. W. Bradley's celebrated Patent DUPLEX ELLIPTIC (OR DOUBLE SPRING) SKIRT.

The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Churches, Pews, Arm Chairs, for Promenades and House Dress, as the Skirt can be folded when in use to occupy a small space as easily and conveniently as a Silk or Muslin Dress, an invaluable quality in a crinoline; not found in any Single Spring Skirt.

A lady having enjoyed the Pleasure, Comfort and Great Convenience of wearing the Duplex Elliptic Steel Spring Skirt for a single day will never thereafter willingly dispense with their use. For Children, Misses and Young Ladies they are superior to all others.

They will not bend or break like the Single Spring, but will preserve their perfect and graceful shape when three or four ordinary Skirts will have been thrown aside as useless. The Hoops are covered with double and twisted thread, and the bottom rods are not only double springs, but twice (or double) covered, preventing them from wearing out when dragging down stumps, stairs, &c.

The Duplex Elliptic is a great favorite with all ladies and is universally recommended by the Fashionable Magazines as the STANDARD SKIRT OF THE FASHIONABLE WORLD.

To enjoy the following inestimable advantages in Crinoline, viz: superior quality, perfect manufacture, stylish shape and finish, flexibility, durability, comfort and economy, enquire for J. W. Bradley's Duplex Elliptic, or Double Spring Skirt, and be sure you get the genuine article.

CAUTION.—To guard against impostors be particular to notice that skirts offered as "duplex" have the red ink stamp, viz., "J. W. Bradley's Duplex Elliptic Steel Spring," upon the waistband—none others are genuine. Also Notice that every Hoop admits of being passed through the centre, thus revealing the two (or double) springs braided together therein, which is the secret of their flexibility and strength, and a combination not to be found in any other Skirt.

FOR SALE in all stores where FIRST CLASS skirts are sold throughout the United States and elsewhere.

Manufactured by the Sole Owners of the Patent, **WESTS, BRADLEY & CARY,** 97 Chamber & 79 & 81 Reade Sts., N. Y. October 19—3m.

THE GREAT EMPORIUM!

Hats, Shoes, Trunks and Clocks, Tobacco, Segars, Candies, &c. &c.

FOR THE LEAST MONEY!

J. BEAVER,

The founder of this enterprise in Waynesboro, A. D. 1854, has again fitted up a new room. The new stock is now being fitted with an entire new stock of the latest styles. Facts are stubborn things and selling superior and cheap goods for so many years has satisfied the citizens of Waynesboro, and the community in general, that some things can be done as well as others, and notwithstanding the prophecies and kind wishes of my neighbors, the house still stands, with the original motto still floating over it, and not a single star cracked.

Come then old and new friends and buy from J. Beaver. Remember his place on the east corner of the square, next door to Mullen's Hotel and Dr. Oelgig's office.

Improved Thrashing Machine!

Farmers will please look at the great advantage in Thrashing Grain with

GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER.

With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt.

This Machine is conveniently arranged for hauling and thrashing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half trouble in a barn floor as a common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, reliable, durable, compact and cleanly to work by when in operation, not making near the dust as the common machine or other Separators.

Farmers can rest assured that this machine is no humbug, and judging from the very recommendations of farmers that are using them, I must come to the conclusion that it is the very Machine that far more want and will have as soon as they have an opportunity to appreciate and attest its merits, for which I hope they will give me an opportunity, as I am willing to be responsible if it does not perform as represented in this Circular.

No. 1 is a eight-horse power, with cast iron thresher frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty three inches long. Trunk has ten inch rake crank and seven rakes, is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their tops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides are close to confine the straw and chaff, remedies all difficulties in cleaning grain against windy weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstances, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness to hands than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; is intended to apply to any common lever or railway power, weighs 1,300 pounds; has an iron thresher frame, and cylinder, 12 1/2 inches in diameter and 28 inches long; delivers the clean grain in bags, or if desired, in a half bushel. It delivers the straw fifteen feet from the feeder, or if desired, can deliver the straw and chaff together; will thresh and clean, in good grain, ready for market, from 100 to 175 bushels of wheat, or from 300 to 500 bushels of oats per day, using four or six horses, and the same number of hands; but to force the work, under most favorable circumstances, good grain, &c., will thresh and clean considerably more. The Machine will thresh and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power.

Shop Prices of Machines range from \$210, to \$525.

I warrant the machines to be as above represented; also against any reasonable defects of material workmanship, &c.

Having now taken a room to keep Repair Castings on hand, I have also selected and am prepared to furnish a variety of other agricultural implements, the latest and best improved, and such as are best adapted to the wants of the farmers of this part of the country: Such as the Hagerstown (Miller's) Clover Stemmer, Huller and Cleaner, which is proving by its own merits to be one of the best machines of the kind now in use. The latest improved RUCKEY'S REAPER AND MOWER, R.R. combined, with Dropper, and the Mower alone. The American Jay Fork and Knife combined, Hay Rakes, Fodder Cutters, Cider Mills, &c. &c., which I will furnish on short notice and warrant them to answer the purposes for which they are intended.

Orders solicited and promptly attended to. For further particulars, circulars, &c. address **DANIEL GEISER,** Waynesboro', Franklin Co. Penn'a. May 4, 1866.]

Waynesboro' Foundry AND MACHINE SHOP.

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER, AND THE LATEST IMPROVED THRESHER AND TRIPLE-GEARED HORSE POWER, DRIVING EITHER BY GEAR OR BELT, ALL FURNISHED COMPLETE, READY TO PUT ON WAGONS.

I, the undersigned, desire to call the attention of Farmers and Threshermen of Franklin and adjoining counties to the fact that I have been before the public for a number of years, during which time I have given general satisfaction, and the patentee has made some very important improvements which render it still more complete, both for clean separating and cleaning, and also for the ease of draught and fast thrashing. I take pleasure in recommending it to the public knowing that it will give the best satisfaction. I am manufacturing two sizes, viz:

The largest is eight-horse power and will thresh and clean from 300 to 500 bushels per day. The small size. See the above which fully represents the machine, also full description, price, &c., of machine. Persons wishing machines should send in their orders in reasonable time to insure their being filled.

IMPORTANT TO SUGARCANE GROWERS AND MANUFACTURERS OF SYRUP!

I am manufacturing different sizes of Sugarcane Mills (to be driven either by water, steam or horse-power) and Evaporators and fixtures for making Syrup; also Portable and Stationary Steam Engines for driving Mills, Thrashing Machines, Sawing Wood, &c.

I am fully prepared to make the above to order and on short notice; also GRIST AND SAW MILL GEARING, SHAFTING AND PULLEYS, IRON BRIDGES, CAST IRON WATER-WHEELS, IRON KETTLES, &c.

Stoves and Flow castings, also cast iron and wrought iron pipe for steam or water, and Brass castings of every description; in a word, I am prepared to do everything usually done in a foundry and machine shop.

Having supplied myself with the latest improved machinery, such as Lathe, Planing, and Drilling Machines, persons can rely on having their work done in the most satisfactory manner. I am also prepared to manufacture to order machinery for wood, such as Tonging and Grooving machines for flooring, Surface, Tenon and Moulding machines, &c.

I also offer to the public a new and valuable improvement in my steam engines, made within the last year, viz: for the economizing of fuel, and the regulation of speed, which renders my new engines far superior to the old engines. All my machines are sold under warranty. My hands are all experienced workmen in this line of business, and I use all good material, so that I am perfectly safe in warranting all my work.

I am also prepared to do repairing in workman like manner, on the shortest notice. Orders solicited and promptly attended to. All orders sent in for repairing must be accompanied with the cash. For particulars and circulars descriptive of machine, address **GEORGE FRICK,** Or DANIEL GEISER, Proprietor of Territory and solicitor of orders, Waynesboro', Franklin Co. Pa. Oct 31—1f.
