GRAIN FOR EUROPE.—The export of grain to England is renewed, and during the past fow days over 250,000 bushels have been history, we will merely state that Mr. Steele of grain on hand at New York is estimated by those who fawned upon him in his day of at 12,000,000 bushels.

THREATENS TO REBEL - The Richmond Enquirer, alarmed at the indications of a disposition on the part of Congress to dismantle the Southern rebel governments set up by Andrew Johnson, has the audacity to threaten a new revolt if this policy is pursued. It says that "the President is bound by his oath so maintain the State governments in their just rights, and any attempt to abolish them by Congress, as proposed by the causeus would necessitate a collision! These are brave words, but the time has gone by when the Representatives of the American recople are to be intimidated,

Coly four members of the Virginia Legislature are in favor of ratifying the Constitutional amendment. This is consistent in a State which stole the navy yards, arsenals and forts of the United States, and which, after having been descated in rebellion, now offers to make the leader of the reble armies Governor. A STATE OF THE PARTY OF THE PAR

JOHN W. STEELE -The Oil City Regisfor contains the following, which will be in-

teresting to many of our readers: We obtloed in brief, in yesterday's paper, the sale of the John W. Steele, more famillarly known as the Widow McClintock farm, by the United States deputy collector, W L. Groves, to satisfy the claim of the Covernment for taxes due. It was bid in by the Government to scoure the claim, amounting to \$11,600. At a previous sale by the she iff of this county, \$74,000 was bid for the property, but the sale was stopped, the Government proving prior claim. The claims

against the property are heavy.

A brief history of this farm may not prove uninteresting to a large class of our readers. The Widow McClintock farm consisting of about 100 scree, is immediately or pisite the flourishing town of Rouseville, in ()il Creek. It was one of the first among the oil producing farms of the valley. The Van Slyke well, on this farm, struck early in 1863, produced for some time at the rate of 2.500 barrels of oil per day. The Ham mond well, struck some time after, produced

at the rate of 600 barrels per day. In 1864, Mrs. McClintock died. death was caused by being badly burned, while kindling a fire with crude oil. After her death, it was found by her will that the farm and all her possessions were left entire to her adopted son, John W Steele, a youth of nineteen or twenty. The daily income of her money, was found \$40,000 in gold and No sooner had he obtained possession of his property, than he was surrounded with parasites. He proved an easy victim to these sharpers, who went with him all the time. and he gave no heed to the counsels of those who were his best friends. To finish the shipped from New York alone. > GAMBLING ON A LARGE SCALE.—The New York Citizen, edited by the gallant pripate Miles O'Reilley, says that the "most vigerous and pertinacious fight against the tiger' ever made in this country came off on Wednesday night, the 12th inst. The assailing party was an ex-M C. of this city, while the bank was backed by a Member e ect. The attacking party left the scene of conflict at 9 a. m. on Thursday, the winner of \$124,000. We think this affair has no parallel in sporting annals. The parties to this magnificent gambling were Hon. Ben. Wood, ex-member of Congress from New York, and the Hon John Morrissey, Democratic member elect from the

same city.

It appears that he closed his store at the usual hour, and started for his residence, only about forty paces distant. As he failed to reach home, his wife, who had retired to bed, became uneasy, and getting up, proceeded to the yard, when she was horrified to discover him banging across the railing which enclosed his, residence.
