**CONGRESS.**—The Resolutions recently passed by Congress for an investigation of President Johnson's actions and his impeachment if found guilty of the high crimes with which he is charged, will very naturally excite the ire of the unreconstructed throughout the rebellion, whilst the loyalists of the country, both North and South, will commend the action of our fearless and patriotic Representatives. It is a significant fact that the persecuted sons of the South who were loyal to the Government during the rebellion, have all the while, with one accord, commended the action of the radical members of Congress. They maintained the right when the Rebellion was first inaugurated and still adhere to it, despite all persecutions and outrages, Memphis and New Orleans included. But what is equally significant on the other hand is, that those in the loyal states who sympathized with the traitors during the progress of the war, are still in sympathy with them. The rebel journals throughout the South denounce Congress and applaud Andy Johnson. The copperhead journals of the North do the same. The former are opposed to the Constitutional Amendments, and the latter equally so. The belligerents from the two extremes are certainly in a blissful state of harmony and concord in this respect. Take for instance the *Valley Spirit* and compare its arguments with those contained in the *Richmond Inquirer* or any other Southern paper in the interest of the Rebels during the war, and see if they do not accord in sentiment so far as the President, Congress and Reconstruction is concerned. The passage of the resolutions referred to must, therefore, incur for Congress the displeasure of both, and the usual amount of harmless rant and bluster.

### LOCAL MATTERS.

Pork is retailing here at 9¢.

**RECEIVED.**—We acknowledge the receipt of \$2.60 from T. Nicodemus, Elkhardt, Ill.

**DEAD.**—George Jones, (colored) formerly of this vicinity, died recently at Elkhardt, Ill.

**PUBLIC SALE.**—We call attention to the public sale of valuable personal property, by Mr. Fourthman, in another column.

**FOR SALE.**—It will be seen by reference to our advertising columns that the Buena Vista Spring property on the South Mountain, will be offered for rent if not sold at public sale on the 26th inst.

**VALUABLE STOCK, ETC.**—We direct special attention to the public sale of valuable personal property advertised by John Heller, of Quincy township, in another column.

**RECEIPTS.**—The ladies connected with the Presbyterian Church realized, from their Fair and Concerts the handsome sum of \$500, which is to be applied towards furnishing the new church.

**JON WORK.**—Persons wanting sale bills and other posters printed, large or small, will find us at all times ready to supply them at short notice and at reasonable rates, our selection of type for this purpose being ample.

**INJURED.**—Geo. W. Wolfe, constable of Mercersburg, was very seriously injured on New Year's Eve by being struck with a pallet in the hands of Thos. Hoeflich. Tom keeps a Saloon, and the constable was endeavoring to preserve order at the time.

**SPREADING.**—A Lodge of Good Templars was organized at Greencastle on Thursday evening last. From all accounts "hard drinkers" are numerous there and few places in more need of such an organization.

**AN ENTERTAINMENT.**—The young men of this place composing the Social Orchestra propose giving an entertainment at the Town Hall, to-morrow (Saturday) evening, to consist of Music and Stage Plays. They will be assisted by Prof. Moyer, of Chambersburg. We bespeak for our young friends a full house.

**ABUSING SUBSCRIBERS.**—The *Valley Spirit* says we continue abusing subscribers who won't pay up. The Copperhead editor forgets that not long since he exposed an old Democrat of this place, by publishing his name, who was too poor to pay. If guilty of an abuse in this respect we are certainly not alone.

**The Pastor of the German Reformed Church,** Rev. I. H. Brown, of Mercersburg, was made the recipient of a fine Sewing Machine on Christmas day, from the lady members of his congregation.

**CONVICTS.**—The Sheriff of Hagerstown last week started for the Baltimore Penitentiary with twelve convicts, five white and five colored males, and two colored females. They embraced all grades, from the chicken thief to the horse thief, the terms of imprisonment varying from fifteen months to five years. Parties in this place who have lately been making too free with neighbors' fowls should take warning.

**The Indian Doctor,** known as the successful Lung, Throat, Heart and Blood Physician, will be in Waynesboro, Pa., at Gilbert's Hotel, on Thursday, Friday, Saturday and Sunday, Jan. 17th, 18th, 19th and 20th, where he can be consulted on all manner of Diseases of the Eyes, Ears, Heart, Throat and Blood.

Confidence in him cannot be misplaced. Best of certificates shown from persons in Penna., that have been treated by him and cured.

**DECEASED.**—W. D. Bell, Esq., druggist of Hagerstown, died at the residence of his mother, in that place, on the 4th inst., in the 28th year of his age. Of the deceased the *Herald* says:—Mr. Bell has died in the early prime of manhood free from the vices, and adorned with most of the virtues of his race. In the brief annals of his life he showed himself a kind and devoted son, an affectionate and sympathizing brother and an upright, honest, pure minded man.

**RUIN'S DOINGS.**—Mr. Tice, of Hagerstown passed through Harrisburg the other day, in charge of two boys, aged five and seven, who were being taken to the "Home for the Friendless" in Baltimore. The *Telegraph* says:—These were the last of a once respectable and wealthy family. The parents, through the too free use of rum, squandered their property and are now really destitute, although still addicted to the almost constant use of the cup. In order to save the little boys from the fearful consequences of being cast upon the cold charities of the world, a place was secured for them in the Home for the Friendless, where they will be properly cared for, and shielded from such evil influences as those to which they would be otherwise exposed.

**Men wearing the uniform of a United States soldier or sailor are not safe in any of the cities of the South, if found alone at night in the streets. Next to a freedman the whipped rebels hate a federal soldier.**

Eight panthers were killed in Centre county last week.

**JURORS.**—The following are the Jurors selected from Washington and Quincy townships for Court, commencing at Chambersburg on Monday the 21st instant:

**Grand Jurors.**—Geo. Cook, J. E. Cook, Geo. Hoover, David Lohr, Josiah Mentzer, Samuel Ribbhart, Jr., Geo. Smith, Traverser Jurors.—J. H. Clayton, D. M. Deatrich, John Dacy, Benj. Funk, Jos. Middler, Jas. McFarren, Washington McGinley, W. H. Potter, Daniel Price, Jos. Rock, Jos. Ripple, Jerome Beaver, M. J. Burns, Henry Baer, Geo. Besore, J. D. Benedict, Samuel Frantz, Martin Geiser, John W. Good, Simon Leonard, Jos. Miller, of Joo., Samuel Nicodemus, D. B. Russell, Isaac Shockey, of J. John P. Study, John Shockey, of C. S. B. Wingert.

**TO DEALERS.**—A wise enactment was passed by the last Legislature, which may not be generally known. It provides that any person who shall receive or buy from minors or unknown or irresponsible parties, any scrap iron, brass, lead or metal, shall be sentenced to pay fine not exceeding five hundred dollars, and undergo an imprisonment of not more than one year, or both, or either. This makes it criminal to buy or receive from such parties, irrespective of whether it was stolen or not, and removes from children the temptation to pilfer.

**GONE TO ROME.**—One secular paper of Hagerstown, Md., recently announced, that the Rev. Andrew Stewart and wife had been received into the Roman Catholic Church at that place. It is added, that they formerly resided at Burkettville, Md. From this latter fact we infer that the Reverend gentleman referred to must be the Rev. Moses A. Stewart, of the Reformed Church. Rumor had it that such a transition had taken place in his case, and to those who have been familiar with his idiosyncrasies for years past, the event will not occasion surprise. All we have to say is, we wish him no harm, but hope he has at last found his proper spiritual home and will be happy in it. —*Ger. Reformed Mess.*

**HARRISBURG, Jan. 7.**—Gen. E. C. Williams has been appointed, by the Joint Legislative Committee in charge of the inauguration, as Chief Marshal of the occasion. He is a soldier who won a fair distinction during the Mexican, and late war, and will discharge his duties with ability.

He has issued an order inviting the Boys in Blue from all parts of the city, existing military organizations, civic associations, and firemen of Pennsylvania, to take part in the inauguration ceremonies.

**DESTRUCTION OF A CITY.**—An arrival at San Francisco reports the almost total destruction, by fire, of the city of Yokohama, Japan, on November 20. The loss is set down at four millions of dollars. All the buildings of the foreign consulates were destroyed.

Two boxes were discharged at Boston on New Year's day among the cargo of the steamer Saxon, of Philadelphia, one of which contained the dead bodies of a man and woman, apparently about 30 years of age, each with their throats cut, and the other containing the body of a large man without any marks of violence upon it. There is a complete mystery about the matter.

At Pleasant Mills, New Jersey, lives the oldest John Smith. His age is 117 years, and his faculties are not dim, nor his natural force abated.

Another warrant has been issued against Judge Daniel H. Magruder, the Circuit Court of Anne Arundel county, Md., for violation of the civil rights bill, in sentencing four negroes convicted of larceny to be sold for one year. Judge M. has been held to bail in \$2,000 on each case.

Hon. Thaddeus Stevens was presented on Christmas day with a very handsome dressing gown purchased at the fair for the Soldiers Home in Baltimore by a number of Union citizens.

A Cairo (Illinois) paper says that if there was one person for every two rats in that city it would be as populous as New York.

There were \$30,000,000 of gold in the U. S. treasury vaults at the end of last month.

No smoking is allowed on Sundays in the streets of Memphis, Tenn.

The United States authorities have thus far buried 341,770 Union Soldiers.

Jan. 11—ts.

**THANKS.**—Mr. McCaughy, of State Senate, will accept our thanks, for a copy of the Report of the Superintendent of Common Schools, for the year ending June 4, 1866.

**ANOTHER VETO.**—Andy Johnson has vetoed the District of Columbia suffrage bill. As he is powerless for harm in this respect, of course it amounts to nothing.

P. S. The bill has since passed both Houses by a two-thirds vote and has become a law.

**A GOOD EXAMPLE.**—A member of the last New Jersey Legislature has just been convicted of selling his vote, and sentenced to one year's imprisonment and to be forever precluded from holding office. This example of N. Jersey (says a cotemporary) in punishing a corrupt and mercenary legislator might be imitated with profit to honest legislation in many other States. Even Pennsylvania, we are sorry to say has great need of the law's restraint and punishment of this most infamous and growing crime.

These corrupt scoundrels are confided to no party, and every honest man of all parties should feel the imperative necessity of correcting and elevating our legislative standard. Many men go to Harrisburg to give their influence and their votes in the way that shall promote their own personal interests, without regard to the merits of questions or to the wishes of the constituents who made them.

We hope that all parties may feel the necessity of purifying legislation, and that none may hesitate, out of fear of injuring "the party," in exposing corrupt representatives so that the public may figuratively "wash the rascals naked through the land." The press, if it were the sentinel that it should be could do much to prevent selfish legislation, but in too many cases editors are as mercenary as legislators. After all, it is to the people that we must look for the correction of what is complained of. They should narrowly watch their representatives in reality as well as in name; and when a representative proves false or venal, he should be visited with a punishment that would deter others from following his example. We must have purity in our law-makers and our law-executors, if the Republic is to stand.

**THE CONSPIRATORS.**—Although no definite action has yet been taken in the case of Dr. Mudd, Spangler, Arnold and O'Laughlin, the assassination conspirators, it is not improbable, according to a report in legal circles, says a Washington despatch, that they will, in consequence of the late decision of the Supreme Court against military commissions, be brought hither by the Government from the Dry Tortugas, and delivered to a civil tribunal for a determination of the case.

The Judiciary Committee of the House of Representatives, to which the impeachment resolutions have been referred is one of the strongest committees in Congress. Among its members are such able and resolute Republicans as Hons. James F. Wilson, of Iowa; George S. Boutwell, of Massachusetts; Francis Thomas, of Maryland; Thomas Williams, of Pennsylvania, and William Lawrence of Ohio.

Three hundred murders of freedmen have occurred in Georgia within a little more than a year that have been brought to the attention of the civil courts of that State, besides no one knows how many more that have been wholly unnoticed. Of these three hundred murders, duly complained of, only six have been even as much as arrested by the civil authorities, and not one has been duly convicted and punished? Yet Georgia is the best and most orderly specimen of all Johnson's reconstructed States.

Judge Pearson, of Harrisburg, has decided that the Town Council of Harrisburg had no right to appropriate money to entertain the President and suit at the expense of the tax-payers of Harrisburg, as they did when President Johnson took his western tour. The question was brought before the Court by several heavy tax payers, who did not wish to pay for the suppers and liquor consumed on that occasion.

**PAID TO REBELS.**—During the last month of December, one million of dollars was paid to Southern claimants, for cotton-captured and confiscated by United States troops during the war, and which they claimed was illegality taken from the owners. Of course, more than half, at least three fourths, and probably more, was paid to blatant rebels and their sympathizers.

The Maryland Senate has concurred in a resolution of the House appointing a joint committee of ten to report a bill for the call of a Constitutional Convention, and proposing a similar committee to report a bill for the enfranchisement and restitution of certain citizens of the State to their full rights of citizenship.

**TRIAL FOR MURDER.**—The trial of John Boyle for the murder of the Squibb family of York county, was commenced on Wednesday last. It was difficult to obtain a jury, the whole panel of seventy names being exhausted before the required number (12) were accepted.

Rouben Lorash, of Lehigh county, obtained a verdict in damages of \$6,207.85, from the East Pennsylvania railroad company, for setting fire to his barn, in the fall of 1863. The case was tried at Mauch Chunk, last week.

The British Government has commuted the sentences of the Fenian prisoners from death to twenty years' imprisonment.

A band of rebel outlaws are burning freedmen's dwellings and driving them from Tennessee. They are in the "reconstructing business" evidently.

Thaddeus Stevens was born in Vermont. James Gordon Bennett, editor of the New York Herald, is 79 years old.

**MARKETS.**

**PHILADELPHIA CATTLE MARKET, Jan. 7.**—The offerings reached 1,800 head, among which we noticed some extra fine Cattle, which were soon taken at from 16 to 17¢ lb. Common continued quiet, notwithstanding they are off at extremely low rates, say from 5 up to 13¢ lb as to quality.—Prime range from 14 up to 15¢ lb.

**SHEEP.**—Total receipts, 5,000 head, sales at 6¢ to 7¢ lb gross, according to quality.

**HOGS.**—There has been an active inquiry during the past week, and prices are a shade better. Supplies have been taken almost as fast as they arrived at prices ranging from \$8 to \$9 75 per 100 lbs net. The receipts at Union Yards to-day were 3,102 head.

**PHILADELPHIA, Jan. 8.**—The Flour market continues quiet, but with a continuation of light receipts and stocks. Prices were firmly maintained. The demand was entirely confined to the wants of home consumers, who purchased 6@700 bbls in lots, at \$3 25 (3.75 per bbl for superfine; \$3@3.10 for extra; \$1 50@1.50 for common and choice Northwestern extra family; 12@14 25 for Pennsylvania and Ohio do; 14.50@17 for fancy brands, according to quality. Rye Flour may be quoted at \$7 25 per bbl. Nothing doing in Corn Meal.

The market is poorly supplied with prime Wheat, and this is the only description for which there is any inquiry. We quote Pennsylvania red at \$2 75@3.10, Southern do. at \$3.10@3.20, and white at \$3 20@3.40 — 3,000 bus. California sold at \$3.25, and 400 bus. Illinois at the same figure.—Rye is held at \$1 20@1.35 for Southern, Western and Pennsylvania. There was a good inquiry for Corn at yesterday's figures. Nothing doing in Barley and Malt.

Overseeded moves slowly, with small sales at \$8@8 75 per 61 lb. Timothy ranges from \$3 25 to 3.75, and Flaxseed from \$2 90 to \$3.

**THE GREAT ZINGARI BITTERS.**  
A Sure Preventive OF CHOLERA!

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr. S. Chocopus, a celebrated physician. He had long seen and felt the want of a remedy which would strike at the root of the disease, and so prevent much of the suffering which the human family was then compelled to endure.

This great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of every ailment then in use. Thus he was led to think and experiment; and after ten years of study and labor, he presented to his fellow-men the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription:—Dr. S. Chocopus, the Public Benefactor—was presented to him by the Victoria.

The preparation has been used in several epidemics of cholera, both as a preventive and curative measure, and with great success, that it has been introduced into nearly all the general hospitals of the old world. The old saying that an ounce of prevention is worth a pound of cure, applies with marvellous force to cholera, and therefore any remedy that will protect us against this terrible disease should be freely and persistently used.

All pathologists now agree that the cholera poison acts on the system through the blood, and that any combination which acts on the excretory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, especially the different forms of fever.

The Zingari Bitters is just such a remedy as the above conditions require. It acts on the organs of excretion and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely combined that every organ is acted upon and put in tone. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following diseases have been cured by it: Cholera, Diarrhoea, Dysentery, Typhoid and Typhus Fever, Febrile Ague, Nervous Debility, Anaemia, Dyspepsia, Flatulency, Colic, Scrofula, &c. Price \$1 per quart bottle.

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr. S. Chocopus, a celebrated physician. He had long seen and felt the want of a remedy which would strike at the root of the disease, and so prevent much of the suffering which the human family was then compelled to endure.

This great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of every ailment then in use. Thus he was led to think and experiment; and after ten years of study and labor, he presented to his fellow-men the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription:—Dr. S. Chocopus, the Public Benefactor—was presented to him by the Victoria.

The preparation has been used in several epidemics of cholera, both as a preventive and curative measure, and with great success, that it has been introduced into nearly all the general hospitals of the old world. The old saying that an ounce of prevention is worth a pound of cure, applies with marvellous force to cholera, and therefore any remedy that will protect us against this terrible disease should be freely and persistently used.

All pathologists now agree that the cholera poison acts on the system through the blood, and that any combination which acts on the excretory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, especially the different forms of fever.

The Zingari Bitters is just such a remedy as the above conditions require. It acts on the organs of excretion and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely combined that every organ is acted upon and put in tone. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following diseases have been cured by it: Cholera, Diarrhoea, Dysentery, Typhoid and Typhus Fever, Febrile Ague, Nervous Debility, Anaemia, Dyspepsia, Flatulency, Colic, Scrofula, &c. Price \$1 per quart bottle.
