more or less, and many other articles not necessary to enumerate. Also a tract of

**TIMBER LAND,**

adjoining lands of William Pennell, John W. Hoover and others, containing 15 acres and 5 perches, neat measure. The above tract is well set with thriving timber. Sale to commence at 9 o'clock on said day when the terms will be made known by

**CELEBRATED BASE BURNING STOVE THE MORNING GLORY!**

The Morning Glory is a perpetual burner, having a magazine or reservoir for reserve coal, which is required to be filled but once a day, and if the magazine is used it is not necessary to refuel the fire during the entire winter. (No clinker will remain in these stoves, nor will there be any trouble from slate, or other impurities in the coal; the fire being always at the base of the stove, the impurities are left in the ashes and ground out by the "Mill-grate")

**THERE'S NO ESCAPE OF GAS OR DUST ECONOMY OF FUEL!**

The combustion of fuel being perfect and at a high temperature, the amount of heat produced from the same quantity of coal is much greater than at a low temperature, hence but a small quantity of fuel is necessary to be undergoing the process of combustion at one time. The entire outer surface of the Morning Glory is radiating surface. Add to this the mica windows, and you have the secret of the great heating properties of the Morning Glory with a small amount of fuel.  
For sale at W. A. TRITTE's Tin and Stove Store. [Dec. 28-29m.]
