X. 1866. L.

THE GREAT ZINGARI BITTERS.

A Sure Preventive OF CHOLERA!

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr. S. CHOPUS, an eminent Egyptian physician. He had long seen and felt the want of some remedy which would strike at the root of the disease, and so prevent much of the suffering which the human family was then compelled to endure. This great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was led to think and experiment; and after ten years of study and labor, he presented to his fellow-man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription—Dr. S. Chopus, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in several epidemics of cholera, both as a preventive and curative measure, and with great success, that it has been introduced into nearly all the general hospitals of the old world. The old saying that an ounce of prevention is worth a pound of cure, applies with unparelleled force to cholera, and therefore any remedy that will protect us against this terrible disease should be freely and persistently used. All pathologists now agree that the cholera poison acts on the system through the blood, and that any combination which acts on the excretory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, especially the different forms of typhoid fever. The Zingari Bitters is just such a remedy as the above conditions require. It acts on the organs of excretion and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely connected that every organ is acted upon and put in tone. Its taste is pleasant and its effect prompt and lasting. Numerous cases of the different diseases have been cured by it: Cholera, Bilious Dysentery, Typhoid and Typhus Fever, Fever Ague, Nervous Debility, Anaemia, Dyspepsia, Flatulency, Colic, Scouria, &c. Price \$1 per quart bottle. Principal Depot at the Walnut street wharf, Harrisburg, Pa. Sold by Druggists, Hotelkeepers and Grocers. **F. RAHFER, Sole Proprietor** For sale at the "Waynesboro' Hotel," by V. B. GILBERT, Agent. June 22-67.

CELEBRATED BASE BURNING STOVE

THE MORNING GLORY!

The Morning Glory is a perpetual burner, having a magazine or reservoir for reserve coal, which is required to be filled but once a day, and if the proper sized coal is used it is not necessary to relight the fire during the entire winter. (No clinker will remain in these stoves, nor will there be any trouble from slate, or other impurities in the coal.) As the fire being always at the base of the grate, the impurities are left in the ashes and ground out by the "Mill-grate" being.

THERE'S NO ESCAPE OF GAS OR DUST

ECONOMY OF FUEL!

The combustion of fuel being perfect and at a high temperature, the amount of heat produced from the same quantity of coal is much greater than at a low temperature, hence but a small quantity of fuel is necessary to be undergoing the process of combustion at one time. The entire outer surface of the Morning Glory is radiating surface. Add to this the surface of objects heated by rays of light from the mica windows, and you have the secret of the great heating properties of the Morning Glory with a small amount of fuel.

For sale at W. A. TRITTE'S Tin and Stove Store. [Dec. 28-2m.]

NOTICE.

THE subscriber informs the public that he is indebted with power of attorney to acknowledge Deeds, Power of Attorney, Private Accruments, etc. **J. F. KURTZ,** Dec 28 67.
