BELL'S ALTERATIVE

OR Condition Powders FOR HORSES, CATTLE AND SWINE

PRICE 25 CENTS A PAPER, OR \$1 A BOX.

THE immense sales of these powders during the short period they have been before the public, a sufficient guarantee of their great popularity, and the decided benefits derived from their use. They are confidently recommended not only as a preventive, but as a complete cure for all diseases incident to the Horse, Cow or Hog, as Distemper, Founder, Yellow Water, Heaves, Loss of Appetite, &c.

By their use the Horse's appetite is improved, and derangement of the digestive organs corrected, softening the skin, and giving to the coat a sleek and shining appearance, and may be used with perfect safety at all times, as it contains no ingredients which can injure a horse, whether sick or well.

These powders also possess peculiar properties in increasing the quantity of milk in cows, thereby giving them of importance and value which should place them in the hands of all interested. For fattening calves they are invaluable. In all diseases to which the Hog is subject, as Ulcers in the Lungs and Liver, etc., we guarantee their efficiency, if once fairly tried.

GREATEST LINIMENT

IN USE BELL'S WHITE OIL.

PRICE 25 CENTS A BOTTLE.

A Powerful Oleaginous Compound for the Care of

Rheumatism, Strains, Sprains, Numbness of the Limbs, Wounds, Festered Feet and Hands

Sprains, Saddle Galls, Poll Evil King Bruises, Swelling of all kinds and in fact every disease for which an Em brocation is applicable.

The Cheapest and Cheapest Liniment in Use. It is extensively used in many parts of the country, and being a compound of the most valuable and efficacious remedies, the proprietor recommends it with the utmost confidence as a safe and certain remedy.

Sold in Waynesboro' by F. FOURTHMAN, and by Druggists and Storekeepers generally. Prepared by W. D. Bell, Apothecary, (Graduate of Philadelphia College of Pharmacy.) Hagerstown, April 20—17.

THE GREAT EMPORIUM!

FOR

Hats, Shoes, Trunks and Clocks, Tobacco, Sgars, Candies, &c. &c.,

FOR THE LEAST MONEY!

J. BEAVER,

The founder of this enterprise in Waynesboro', A. D. 1854, has again fitted up a new room. The shelves and drawers are filled with an entire new stock of the latest styles.

Facts are stubborn things and selling superior and cheap goods for so many years has satisfied the citizens of Waynesboro', and the community in general, that some things can be done as well as others, and notwithstanding the prophecies and kind wishes of my neighbors, the house still stands, with the original motto still floating over it, and not a single star erased.

Come then old and new friends and buy from J. Beaver

Remember his place on the east corner of the square, next door to Mallen's Hotel and Dr. Oelwig's office.

BEAVER'S EMPORIUM.

June 22, 1866.

Improved Threshing Machine!

Farmers will please look at the great advantage in Threshing Grain with

GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER.

With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt.

This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half trouble in a barn, floor as a common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, reliable, durable, compact and cleanly to work by when in operation, not making near the dust as the common machine or other Separators.

Farmers can rest assured that this machine is no humbug, and judging from the high recommendation of farmers that are using them, I must come to the conclusion that it is the very Machine that farmers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which I hope they will give me an opportunity, as I am willing to be responsible if it does not perform as represented in this Circular.

No. 1 is a eight-horse power, with cast iron thrasher frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty three inches long. Trunk has ten inch rake crank and seven rakes, is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their tops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and far sides being closed, to confine the straw and chaff, remedies all difficulties in cleaning grain against windy weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to thirty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstances, it will thresh forty to fifty bushels per hour, and with more ease and agreeableness to hands than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; is intended to apply to any common lever or railway power; weighs 1,300 pounds; has an iron thrasher frame, and cylinder, 12 1/2 inches in diameter and 18 inches long; delivers the clean grain in bags, or if desired, in a half bushel—it delivers the straw fifteen feet from the feeder, or if desired, carries the straw and chaff together; will thresh and clean, in good grain, ready for market, from 100 to 175 bushels of wheat, or from 300 to 500 bushels of oats per day, using four or a horse, and the same number of hands; but to force the work, under favorable circumstances, it will thresh and clean considerably more. The Machine will thresh all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will supply very well to a two-horse railway power

Shop Prices of Machines range from \$210, to \$525.

I warrant the machines to be as above represented; also against any reasonable defects of materials, workmanship, &c.

Having now taken a room to keep Repair Castings on hand, I have also selected and prepared to furnish a variety of other agricultural implements, the latest and best improved, and such as are best adapted to the wants of the farmers of this part of the country. Such as the Hagerstown (Miller's) Chain Saw, HULL'S and CLEARING AND PULLEYS, IRON BRIDGES, CAST IRON WATER WHEELS, IRON KETTLES, &c. &c. The latest improved, BUCKEYE REAPER AND MOWER, combined with Dropper, and the Mower attachment. The American Jay Hawk and Knife combined, Hay Rakes, Forder Cutters, Cider Mills, &c. &c. &c., which I will furnish on short notice and warrant them to answer the purposes for which they are intended.

Orders solicited and promptly attended to. For further particulars, circulars, &c. address

DANIEL GEISER, Waynesboro', Franklin Co. Penn'a.

May 4, 1866.]

Waynesboro' Foundry AND MACHINE SHOP.

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER, AND THE LATEST IMPROVED THRESHER AND TRIPPLE-GEARED HORSE POWERS, DRIVING EITHER BY GEAR OR BELT, ALL FURNISHED COMPLETE, READY TO PUT ON WAGONS.

I, the undersigned, desire to call the attention of Farmers and Threshermen of Franklin and adjacent counties to this machine. It has been before the public for a number of years, during which time it has given general satisfaction, and the patentee has made some very important improvements which render it still more complete, both for clean separating and cleaning, and also for the ease of draught and fast threshing. I take pleasure in recommending it to the public knowing that it will give the best satisfaction.

I am now offering two sizes, viz: The largest is eight-horse power and will thresh and clean from 200 to 500 bushels per day. The small size. See the above which fully represents the machine, also full description, price, &c., of machine. Persons wishing machines should send in their orders in reasonable time to insure their being filled.

IMPORTANT TO SUGARCANE GROWERS AND MANUFACTURERS OF SYRUP!

I am manufacturing different sizes of Sugarcane Mills (to be driven either by water, steam or horse-power) and Evaporators and fixtures for making Syrup; also Portable and Stationary Steam Engines for Driving Mills, Threshing Machines, Sawing Wood, &c.

I am fully prepared to make the above to order and on short notice; also GRIST AND SAW MILLS, GEARING, SHEAFING AND PULLEYS, IRON BRIDGES, CAST IRON WATER WHEELS, IRON KETTLES, &c.

Stoves and Plover castings, also cast iron and wrought iron pipe for steam or water, and Brass castings of every description; in a word, I am prepared to do everything usually done in a foundry and machine shop. Having supplied myself with the latest improved machinery, such as Lathes, Boring, Planing and Drilling Machines, persons can rely on having their work done in the most satisfactory manner. I am also prepared to manufacture to order machinery for wood, such as Tonging and Grooving machines for flooring, Surface, Tenon and Moulding machines, &c.

I also offer to the public a new and valuable improvement in my steam engines, made within the last year, viz: for the economizing of fuel, and the regulation of speed, which renders my new engines far superior to the old engines. All my machines are sold under warranty. My hands are all experienced workmen in this line of business, and I use all good material, so that I am perfectly safe in warranting all my work.

I am also prepared to do repairing in workman like manner, on the shortest notice. Orders solicited and promptly attended to. All orders sent in for repairing must be accompanied with the cash.

For particulars and circulars descriptive of machines, address

GEORGE FRICK, Waynesboro', Franklin Co. Pa. Sep 31—17.
