THE GREAT ZINGARI BITTERS. **ASure PreVentive**

OF CHOLERA! THIS WONDERFUL REMEDY was discover ered and introduced about twenty years ago by Dr. S. Cheopsus, an eminent Egyptian physician. He had long seen and felt the want of some remdy which would strike at the root of the disease and so prevent much of the suffering which the human family was then compelled to endure.

This great question was presented to his mine every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly sil the remedies then in use. Thus he was lead to think and experiment; and after ten years of study and labor, he presented to his fellow-man the wonderful Zingari Bitters. The effect of this prep aration in the prevention and; cura of disease, was so marvellous and astonishing, that the most flattering marks of royal tavor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the follow-

ing inscription Dr. S. Cheopsus, the Public Benefactor was presented to him by the Viceroy. The preparation has been used in several epidem cs of cholers, both as a preventive and curative introduced into nearly all the general hospitals of Timware, the old world. The old saying that an ounce of prevention is worth a pound of cure, applies with marvellous force to cholera, and therefore any remedy that will protect us against this terrible disease

should be freely and persistently used. All-pathologists now agree that the cholera poison acts on the system through the blood, and that any combination which acts on the excretory organs. and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholers, but of nearly all other maladies, ospecially the different forms of tever. The Zînghrî Bitters is just such a remedy as the above conditions require. It acts on the organs of

exerction and secretion, keeping up a perfect hal-ance between them. This litters is composed en-tirely of roots and herbs, so nicely concocted that every organ is acted upon and put in to no. Its taste is pleasant and its effects prompt and lasting. Numerous cases of the following diseases have been cured by it: Coolera, Diarrhoea, Dysentery, Typhoid and Typhus Fever, Fever. Ague. Nervous of the latest improvements, the very best in a Debility, Anaemia. Dysycpoia, Flatulency, Colic. Scrofula, &c. Price B1 per quart hottle.

Chambersburg, December, 1865.

Mr. J. S. Nixon.-To the multitude in this perion of our State, who have used your Cattle Powder. no commendation is necessary. Its beneficial its fects have been fairly tested, and hence its unbounded popularity. I have used it for my horses and cows for several years past, and cannot afford to use without it. It keeps all kind of cattle in good condition, loosens the skin, smoothes the hair, and sharpens their appetites. As a preventive from disease, I regard it as invaluable. Yours, &c.,
