in Monday's issue, intimates that the military authorities should take action to prevent Sepator Wilson, Mr. Conway, and other Radical speakres now canvassing the South, from this to save my family from starving," bursuing their course.

per lairs are now very popular in the South, as a source of raising means with which to furnish material to decorate the graves of the rebel dead. She-secessionists are raising thousands of dollars to be squandered in that manver, while at the same time the people of the North are asked to contribute funds to feed the starving vagabonds who became outlaws with the discharge of the rebel arnies.

THE INJUNCTION CASE .- A special dishatch to the Herald from Washington says Walker, Sharkey, Jenkins, and other parties here, who are endeavoring to get an injunction from the Supremie Court, against the President's execution of the reconstruction laws of Congress, are confident, it is said, of succeeding in their object. They count the Judges for and against the injunction, and triumphantly declare, in advance, that the majority will be on their side-that is to say, out of the nine Judges five will be, for injunction to four against, the division of the - - court being the same as in the Milligan case. Of course the decision of the majority is the verdict of the Court. It is intimated that the President anticipates such a decision, and even desires it, hoping in this way to defeat the purpose of Congress and to carry -out-his-own-policy-

EUROPEAN.-The war cloud in Europe has blown over for the present, if it has not been-eatirely-dispersed. France is willing last-year, he would give Radicalism a new to make concessions, and Prussia to accept. The means by which immediate hostilities are averted is a Peace Congress. Queen Victoria was made the medium in bringing about an agreement between the opposing powers. She addressed a letter to the Kingof Prassia counselling moderation and the acceptance of the plan of compromise.\_\_Nap: oleon signified his assent, and late on Saturday night the King of Prussia telegraphed his willingness to submit the Luxemburg question to a General Uonference of the

John Merriman, Colonel Kane, Bradley Johnson and others, indicted for treason and bridge burning, were discharged by the United States District Court at Baltimore, recentty, a nolle prosequi having been found in their cases. These are the mea who fomented the attack in the streets of Baltimore on the Sixth Massach uset ts Regiment, on the 19th of April, 1861; who burned the bridges between Baltimore and Philadelphia to prevent the passage of Federa, troops, and who employed every means within their control to aid the cause of treason. Johnson became an officer in the rebel service, and he was particularly cruel and vindictive towards the Ready-made Clothing for men and boys for written, about a mile from an Indian village Union-people-of-his-own-State.-

The New York Sunday Mercury has the following Copperhead fling at President Johnson.

"Our Washington correspondent informs us hat the President is about to pay a visit to Raleigh, N. C., and that on the way he will probably addre as the people. We sincerely by way of variety; but let him not make speeches. Let his aspirations take any shape but that. Raleigh is a terrible place for bad whiskey, which kills futher than a needlegun; and is, under its influence, the Presi-

EVENTFUL MONTH .- April holds a conspicnous place in the history of the war Sumpter was bombarded on the 12th of April, 1861; the Massachusetts troops were attacked in Baltimore on the 19th of April; the Virginia ordinance of secession was passed on the 17th of April in April 1862, West Virginia was admitted as a State, on the 3d of April 1865, Richmond fell, on the 6th of Great Powers. The Conference is to meet April, General Lee surrendered, fon the 14th at London and in the meansime the fortress of April President Lincoln was killed, on ple at large, for if his lubors are lavishly reof Luxemburg is to be dismantled.
