FRESH LIME !

LATEST FASHIONS DEMAND J. W. Bradley's celebrated Patent DUPLEX ELLIPTIC (OR DOUBLE SPRING) SKIBT .1 :

THE wonderful flexibility and great comfort and pleasure to any Lady wearing the Duplex Eliptic Skilt will be experienced particularly in all crowded Assemblies. Operas, Carringes, Railford Cars, Dhurch Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded when in use to occupy a small place as easily and convenientiy as a Silk or Muslim Dress, an invaluable qualty in crinoline; not found in any Single Spring Skirt.

A Lady having Enjoyed the Pleasure. Comfort and Great Convenience of wearing the Duplex E-liptic Steel Spring Skirt for a single day will Never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are supeior to all others.

They will not bend or break like the Single Spring but will preserve their perfact land griceful shape when three or four ordinary Skirts will have been thrown aside as useless. The Hoops are covered with double and twisted thread, and the bottom rods are not only double springs, but twice (or double) covered; preventing them trom wearing out when

The Duplex Elliptic is a great favorite with all ladies and is universally recommended by the Fashion Magazines as the STANDARD SELET OF THE PASH-

OSABLE WORLD. To enjoy the following inestimable advantages in sure you get the genuine article. CAUTION.—To guard against IMPOSITION be

particular to NOTICE that skirts offered as "DUPLEX" have the red ink stamp, viz., "J. W. Bradley's Duplex Elliptic Steel Spring," upen the waistband-none others are genuine. Also Notice that every Hoop will admit a pip being passed through the centre, thus revealing the two (or double) springs finided together therein, which is the secret of their flexibility and strength, and a combination not to be found in any other Skirt.

FOR SALE in all stores where FIRST CLASS skirts are sold throughout the United States and else-

where Manufactured by the Sole Owners of the Paten WESTS, BRADLEY & CARY, 97 Chamber & 79 & 81 Reade Sts.; N. Y. Feb. 1-3m.]

Improved Thrashing Machine!

Farmers will please look at the great advantage in Thrashing Grain with

GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR. CLEANER AND BAGGER.

With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt.

This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half trouble in a harn floor as a common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, "eliable, durable, compact and cleanly to work by when in operation, not making near the dust as the common machine or other Separators.

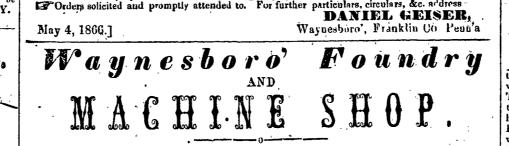

Farmers can best assured that this machine is no humbut, and judging from the high recommenda tion of farmers that are using them, I must come to the conclusion that it is the very Machine that far mers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which I hope they will give me an opportunity, as I am willing to be responsible if it does not perform as represented in this Circular.

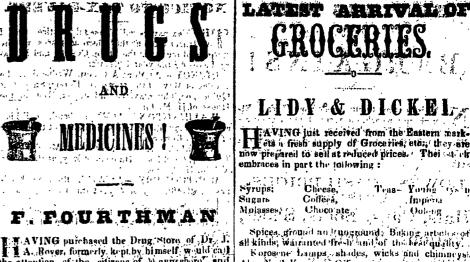

-No. 1 is a eight-horse power, with cast iron thresher frime and wrought, iron and wood cylinder, sizteen inches in diameter and thirty three inches long. Frunk has ten inch rake crank and seven rakes is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their tops, and deliver it on the stacker, which will deliver about thirty five fee: beyond the teeder, on a stack ifficen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all difficulties in creaning grain against winay weather. It bags the grain by reasonable management, suf-ficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to lorty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstance, it will thresh from forty to tilty bushels per hour, and with more case and agreeableness to hand's than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; is intended to apply to any common lever or railway power; weighe 1,300 pounds; has an iron thresher frame, and cylinder, 121 inches in diameter and 28 inches long; delivers the clean grain in bags, or if desired, in a hait bushel. It delivers the straw fifteen feet from the needer, or if desired, can deliver the straw and chaft together; will thresh and clean, in good grain, ready for market, from 100 to 175 bushels of wheat, or from 300 to 500 bushels of oats per day. using four or s. horses, and the same number of hands; but to force the work, under mist favorable circumstances, good goin, dea, will thresh and clean considerably more. The Machine will threah and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power

Shop Prices of Machines range from \$210, to \$525. EF I warrant the machines to be as above represented; also against any reasonable defects of materia workmanship, &c.

The Having now taken a room to keep Repair Castings on hand, I have also selected and am prepared to furnish a variety of other agricultural implements, the latest and best improved. and such as are best adapted to the wants of the farmers of this part of the country: Such as the Hagers-town (Miller's) Clover-Stemmer, Huller and Cleaner, which is proving by its own merits to be one of the best machines of the kind now in use. The latest improved BUCKEYE BE OPER AND MOW-ER combined with Dropper, and the Mawer alone. The American they Fork and Knife combined. ER combined, with Dropper, and the Mower alone. The American May Fork and Knife combined, Hay Rakes, Fodder Cutters, Cider Mills, &c. &c. &c., which I will furnish on short notice and warrant them to answer the purposes for which they are intended. To Orders solicited and promptly attended to. For further particulars, circulars, &c. a'dress

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR. ULEANER AND BAG-GER, AND THE LATEST IMPROVED THRESHER AND TRIPPLE GEARED HORSE POWERS, DRIVING EITHER BY GEAR OR BELT, ALL FURNISHED (COMPLETE, M.M. STONER, M. H. STONER, M. H. STONER, READY TO PUT ON WAGONS.

I, the undersigned, desire to call the attention of Farmers and Threshermen of Franklin and adjoir ing counties to this machine. It has been before the public for a number of years, during which time ihas given general satisfaction, and the patentee has male some very important improvements which rent der it still more complete, both for clean separating and cleaning, and also for the ease of draught and fast threshing. I take pleasure in recommending it to the public knowing that it will give the best satisfaction. I am manufacturing two sizes, viz :

The largest is eight horse power and will thresh and clean from 200 to 500 bushels per day. The sm all size. See the above which fully represents the machine, also full description, price, &c, of nachine. Persons wishing machines should send in their orders in reasonable time to insure their being filled

ixipobvant to suclabelate growers AND MANUFACTURERS OF SYRUP !
