### THE GREAT ZINGARI BITTERS. **Asure PreVentive** OF-CHOLERA!

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr. S. Cheopsus, an eminent Egyptian physician. He had long esen and felt the want of some remand so prevent much of the suffering which the human family was then compelled to endure.

This great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was lead to think and experiment; and after ten years of study and labor, he presented to his fellow-man the wonderful Zingari litters. The effect of this prep aration in the prevention and cure of disease, was "so marvellous and astonishing, that the most flatter ing marks of royal tavor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the follow ing inscription-Dr. S. Cheopsus, the Public Bene factor-was presented to him by the Viceroy.

The preparation has been used in several epidem ics of cholera, both as a preventive and curative measure, and with great success, that it has been introduced into nearly all the general hospitals of the old world. The old saying that an ounce of prevention is worth a pound of cure, applies [with] marvellous force to cholera, and therefore any remedy that will protect us against this terrible discase should be freely and persistently used. All pathologists now agree that the cholera pisono

acts on the system through the blood, and that any con hination which acts on the excretory organs. and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholers, but of nearly all other maladies, especially the different forms of fever.

The Zingari-Bitters is just such a remedy as the above conditions require. It acts on the organs of excretion and secretion, keeping up a perfect bal-ance between them. This Bitters is composed entirely of roots and herbs, so nicely concected that every organ is acted upon and put in tone. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following diseases have been cured by it: Coolera, Diarrhoea, Dysentery, Typhoid and Typhus Fever, Fever, Ague, Nervous Debility, Anaema. Dysycpsin. Flatulency, Colic, Scrofula, &c. & Price \$1 per quart bottle.

Principal Depot at the Walnut street wharf, Harrisburg. Pa. Sold by Druggists, Hotelkeepers and Grocers.

F. RAHTER, Sole Proprietor. For sale at the "Waynesboro' Hotel," by V. B. GILBERT, Apent. [june22-ly.

### USEFUL FOR ALL!

THE Grover & Baker Sewing Machines of different kinds, both family and lock stitch, at various prices and for the different kinds of work, viz: Tailors, Saddlers, and Coach Makers, and for tamily sewing geneaally, are kept constantly on hand and for sale at my room next door to Stoner's Drug Store, where an operator will at all times show how the work is done. Havis g obtained the agencyf or part of Franklin Co., Pa., aiso Washington, Frederick and Allegheny counties in Md., I am prepared to furnish machines in any of these counties.

OR a cake of fine Scap, you must go to

# Improved Thrashing Machine!

Farmers will please look at the great advantage in Thrashing

# GEISERS' PATENT are not only double springs, but twice (or double) SBLIFREGULATING GRAIN SIPARATOR

With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt.

This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two rheels. One man can easily move or shift it about, so that it is not half trouble in a barn floor as a common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, eliable durable, compact and cleanly to work by when in operation, not making near the dust as the common

machine or other Separators Farmers can rest assured that this machine is no bumbur, and judging from the high recommendation of farmers that are using them, I must come to the conclusion that it is the very Machine that far mers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which I hope they will give me an opportunity, as I am willing to be responsible if it does not perform as represented in this Circular.

No. 1 is a eight-horse power, with cast iron thresher frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty three inches long. Trunk has ten inch rake orank and seven rakes, is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their tops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the chaff with the stra w, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all difficulties in deaning grain against windy weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstance, it will thresh from forty to fifty bushels per hour, and with more case and agreeableness o hands than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; is intended to apply to any common lever or railway power; weight 1,300 pounds; has an iron threster frame, and cylinder, 12½ inches in diameter a. d 38 inches long; delivers the clean grain in bags, or if desired, in a half bushel. It delivers the straw fifteen feet from the reeder, or if desired, can deliver the straw and chaff together; will thresh and clean, in good grain, ready for market, from 100 to 175 bushels of wheat, or from 300 to 500 bushels of oats per day, using four or s... horses, and the same number of hands; but to force the work, under most favorable circumstances, good g nin, &c., will thresh and clean considerably more. The Machine will threah and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will

pply very well to a two-horse railway power Shop Prices of Machines range from \$210, to \$525. Warrant the machines to be as above represented; also against any reasonable defects of materia

Having now taken a room to keep Repair Castings on hand, Lhave also selected and am prepared to furnish a variety of other agricultural implements, the latest and best improved, and such as are best adapted to the wants of the farmers of this part of the country: Such as the flagerstown (Miller's) Clover Stemmer, Huller and Cleaner, which is proving by its own merits to be one of the best machines of the kind now in use. The latest improved BUCKEYE REAPER AND MOW-ER combined, with Dropper, and the Mower alone. The American May Fork and Knife combined, Hay Rakes, Folder Cutters, Cider Mills, &c. &c. &c., which I will furnish on short notice and warrant

hem to answer the purposes for which they are intended.

Orders solicited and promptly attended to. For further particulars, circulars, &c. address DANIEL GEISER, Waynesboro', Franklin Co. Penn'a.

# Waynesboro' Foundry

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAG-GER, AND THE LATEST IMPROVED THRESHER AND TRIPPLE GEARED HORSE POWERS, DRIVING EITHER BY GEAR OR BELT, ALL FURNISHED COMPLETE, READY TO RUT ON WAGONS.

I, the undersigned, desire to call the attention of Farmers and Threshermen of Franklin and adjoin ng counties to this machine. It has been before the public for a number of years, during which time i has given general satisfaction, and the patentee has made some very important improvements which rent der it sull more complete, both for clean separating and cleaning, and also for the ease of draught and fast threshing. I take pleasure in recommending it to the public knowing that it will give the best satisfaction. I am manufacturing two sizes, viz :

The largest is eight-horse power and will thresh and clean from 200 to 500 bushels per day.

The small size. See the above which fully represents the machine, also full description, price, &c., of machine. Persons wishing machines should send in their orders in reasonable time to insure their being

# elevant to subarcane browers

AND MANUFACTURERS OF SYRUP! I am manufacturing different sizes of Sugarcane Mills (to be driven either by water, steam or horsepower) and Evaporators and fixtures for making Syrup; also Portable and Stationary Steam Engines for driving Mills, Threshing Machines, Sawing Woou, &c

I am fully prepared to make the above to order and on short notice; also GRIST AND SAW MILL GEARING, SHAFTING AND PULLEYS, IRON BRIDGES, CAST IRON WATER-WHEELS. IRON KETTLES, &c.,

Stoves and Plow castings, also cast iron and wrought iron pipe for steam orwater, and Brass castings of every description; in a word, I am prepared to do everything usually done in a foundry and machine shop. Having supplied myself with the latest improved machinery, such as Lathes, Boring, Planing end Drilling Machines, persons can rely on having their work done in the most satisfactory manner. I am also prepared to manufacture to order machinery for wood, such as Tonging and Groving machines for flooring, Surface, Tenout and Moulding machines, &c.

I also offer to the public a new and valuable improvement in my steam engines, made within the last year, viz: for the economizing of fuel, and the regulation of speed, which renders my new engines far superior to the old engines. All my machines are sold under warrantee. My hands are all experienced workmen in this line of business, and I use all good material, so that I am perfectly safe in war-

I am also prepared to do repairing in workman like manner, on the shortest notice. Orders solicited and promptly attended to. All orders sent in for repairing must be accompanied with the cash.

For particulars and circulars descriptive of machine, address

GEORGE FRICK, Or DANIEL GEISER, Proprietor of Territory and solicitor of orders, Waynesboro, Franklin Co Pa.
