# Improved Thrashing Machine!

Farmers will please look at the great advantage in Thrashing Grain with

# GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR

CLEANER AND BAGGER.

With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt.

This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels.—One man-can-easily move or shift it about, so that it is not half trouble in a barn floor as a common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, cliable, durable, compact and cleanly to work by when in operation, not making near the dust as the common

Parmers can rest assured that this machine is no humbug, and judging from the high recommendation of farmers that are using them, I must come to the conclusion that it is the very Machine that far mers want and will have as soon as they have an opportunity to appreciate and attest its inerits, for which I hope they will give me an opportunity, as I am willing to be responsible if at does not perform as represented in this Circular.

No. 1 is a eight-horse power, with cast iron thresher frame and wrought iron and wood cylinder, six teen inches in diameter and thirty three inches long. Frunk has ten inch rake crank and seven rakes, is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their tops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all difficulties in cleaning grain against windy weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to torty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstance, it will thresh from forty to fifty bushels per hour, and with more ease and agreeableness

to hands than any other machine now in common use. The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; is intended to apply to any common lever or railway power; weighs 1,300 pounds; has an iron thresher frame, and cylinder, 12½ inches in diameter at d 28 inches long; delivers the clean grain in bags, or if desired, in a half bushel. It delivers the straw fifteen-feet-from the reeder, or if desired, can deliver the straw and chaff together; will thresh and clean, in good grain, ready for market, from 100 to 175 bushels of wheat, or from 300 to 500 bushels of oats per day, using four or s. horses, and the same number of hands; but to force the work, under most favorable circumstances, good g oin, &c., will thresh and clean considerably more. The Machine will threah and clean all kinds of graingenerally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power

Shop Prices of Machines range from \$210, to \$525. I warrant the machines to be as above represented; also against any reasonable defects of materia

Faring now taken a room to keep Repair Castings on hand, I have also selected and am prepared to furnish a variety of other agricultural implements, the latest and best improved and such as are best adapted to the wants of the farmers of this part of the country: Such as the Hagerstown (Miller's) Clovef Stemmer, Huller and Cleaner, which is proving by its own merits to be one of the best machines of the kind now in use. The latest improved BUCKEYE RE \PER AND MOW-ER combined, with Dropper, and the Mower alone. The American May Fork and Knife combined, Hay Rakes, Fodder Cutters, Cider Mills, &c. &c. &c., which I will furnish on short notice and warrant lay Rakes, Fodder Cutters, Cider Mills, &c. &c. &c., which they are intended, hem to answer the purposes for which they are intended.

For further particulars, circulars, &c. address

DANIEL GEISER,

Waynesboro', Franklin Co. Penn'a.

# Waynesboro' Foundry

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER, AND THE LATEST IMPROVED THRESHER AND TRIPPLE-GEARED HORSE POWERS, DRIVING EITHER BY GEAR OR BELT, ALL FURNISHED COMPLETE, READY TO PUT ON WAGONS.

I, the undersigned, desire to call the attention of Farmers and Threshermen of Franklin and adjoin ing counties to this machine. It has been before the public for a number of years, during which time in the given general satisfaction, and the patentee has made some very important improvements which rent der it still more complete, both for clean separating and cleaning, and also for the ease of draught and ast threshing. I take pleasure in recommending it to the public knowing that it will give the best satisfaction. I am manufacturing two sizes, viz :

The largest is eight-horse power and will thresh and clean from 200 to 500 bushels per day.

The small size. See the above which fully represents the machine, also full description, price, &c., of machine. Persons wishing machines should send in their orders in reasonable time to insure their being

# ELECTED AND MANUFACTURERS OF SYRUP!

I am manufacturing different sizes of Sugarcane Mills (to be driven either by water, steam or horsepower) and Evaporators and fixtures for making Syrup; also Portable and Stationary Steam Engines for driving Mills, Threshing Machines, Sawing Wood, &c I am fully prepared to make the above to order and on short notice; also GRIST AND SAW MILL GEARING, SHAFTING AND PULLEYS, IRON BRIDGES, CAST

IRON WATER-WHEELS. IRON KETTLES, &c, Stovus and Plow castings, also cast iron and wrought iron pipe for steam orwater, and Brass castings of every description; in a word, I am prepared to do everything usually done in a foundry and machine shop. Having supplied myself with the latest improved machinery, such as Lathes, Boring, Planing shop. Having supplied myself with the latest improved machinery, such as Laures, some ond Drilling Machines, persons can rely on having their work done in the most satisfactory manner. I am also prepared to manufacture to order machinery for wood, such as Tonging and Groving machines. Sec.

chines for flooring, Surface, Tenout and Moulding machines, &c. I also offer to the public a new and valuable improvement in my steam engines, made within the last year, viz: for the economizing of fuel, and the regulation of speed, which renders my new engines far superior to the old engines. All my machines are sold under warrantee. My hands are all experianced workmen in this line of business, and I use all good material, so that I am perfectly safe in warranting all my work.

I am also prepared to do repairing in workman like manner, on the shortest notice. Orders solicited and promptly attended to. All orders sent in for repairing must be accompanied with the cash.

For particulars and circulars descriptive of machine, address

GEORGE FRICK, Or DANIEL GEISER, Proprietor of Territory and solicitor of orders, Waynesboro, Franklin Co Pa.

Waynesboro'.

Waynesboro'.

Found these continuates, hundreds of which could be published:

Found of five years ago, J. S. NIXON compounded a Horse and Cattle Powder's rid asked me to

try it. I was the first farmer to whom it was given and the first one to use it for stock. I found it fully equal to what Mr Nixon said of it, and I have used itextensively since, and heartily recommend it to farmers as a cure thing in fattening stock of all kinds and a capital Powder for Hores. MICHAEL EBERSOLE:

Chambersburg, December, 1865.

Mg. J. S. Nixon.—To the multitude in this por-tion of our State, who have used your Cattle Powder, no commendation is necessary. Its beneficial effects have been fairly tested, and hence its unbounded popularity. I have used it for my horses and cows for several years past, and cannot afford to do without it. It keeps all kind of cattle in good condition, toosens the skin, smoothes the hair, and sharpens the repeatites. As a prepentive from disease I repeat it as invalvable. ease, I regard it as invaluable. Yours, &c., REV. B. S. SCHNECK.

Chambersburg, April, 1866. Mr. J. S. Nixon - Dear Sir :- I gave your Horse nd Cattle Powder a fair trial with all my stock, Horses and cattle, and it improved them wonderfully. It speedily increased the richness of the milk of my cows, and improved the condition of my stock

greativ. I can cordially recommend it as the best thing of the kind I have ever known or tried, for all kinds of stock, and it should be kept in every stable.

Yours truly, A. K. McCLURE, Ed. Repository.
