THE GRHAT ZINGARI BITTERS. **Asure Preventive**

OF CHOLERA !====

THIS WONDERFUL REMEDY was discov-Dr. S. Cheopsus, an eminent Egyptian physician.
He had long seen and felt the want of some remaily which would strike at the root of the disease, and so prevent much of the suffering which the hu-

and so prevent much of the suffering which the human family was then compelled to endure.

This great question was presented to his mind every day in vivid colors as he moved among the siek and dying, and observed the inefficiency of hearly all the remedies then in use. Thus he was lead to think and experiment; and after ten years of study and labor, he presented to his fellow-man the trouderful Zingari Birtars. The effect of this men wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription—Dr. S. Cheonsus, the Public Benefuctor—was presented to him by the Viceroy.

The preparation has been used in several epidem ics of cholera, both as a preventive and curative measure, and with great success, that it has been introduced into nearly all the general hospitals of the old world. The old saying that an ounce of prevention is worth a pound of cure, applies with marvellous force to cholera, and therefore any remedy that will protect us against this terrible discase should be freely and persistently used.

Ail pathologists now agree that the cholera pisono acts on the system through the blood, and that any combination which acts on the exerctory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, especially the different forms of lever.

The Zingari Bitters is just such a remedy as the

above conditions require. It acts on the organs of expretion and secretion, keeping up a perfect bal-ance between them. This Bitters is composed entirely of roots and herbs, so nicely concected that every organ is acted upon and pubin tone. Its taste is pleasant and its effects prompt and lasting.

A umerous cases of the following diseases have been cured by it: Coolera, Diarrhoca, Dysentery, Typhoid and Typhus Fever, Fever, Ague, Nervous Delbits, Appendix Description, College, Marchine, College, College, Marchine, College, College, Marchine, College, Co Debility, Anaemia. Dysyepsia, Flatulency, Colic, Scredula, &c. & Price &t per quart bottle.

jan 18—1y. MOROCCO and Lining skins at Ap. 5] Page & Hoeflich's, Improved Thrashing Machine!

Farmers will please look at the great advantage in Thrashing

GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR.

driven either by Gear or Belt.

CLEANER AND BAGGER. With the latest Improved Triple-Geared Horse Power,

This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half trouble in a barn floor as a common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, reliable,

common unrasher and snaker. It is also easily put in operation. It is miniple, easily intallegely compact and cleanly to work by when in operation, not making near the dust as the common machine or other Separators.

Farmers ean rest assured that this machine is no humbug, and judging from the high recommendation of farmers that are using them, I must come to the conclusion that it is the very Machine that far mers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which I hope they will give me an opportunity, as I am willing to be responsible if it does not perform

which in this Circular.

No. 1 is a eight-horse power, with cast iron thresher frame and wrought-iron and wood cylinder, sixteen inches in diameter and thirty three inches long

Trunk has ten inch rake crank and seven rakes. teen inches in diameter and thirty three inches long. Trunk has ten inch rake crank and seven rakes, is thirty-five inches wide, and delivers the straw on the second-rake, these carry the straw out on their tops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all difficulties in cleaning grain against winay weather. It bags the grain b' reasonable management, sufficiently clean for market, and its capacity, under ordinary circumst nees, is from twenty to torty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstance, it will thresh from forty to tifty bushels per hour, and with more case and agreeableness to hands than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly a anticol to the farmer's use; use The No. 2 Machine, fully represented in the above cut, is particularly a anticol to the farmer's use; use the No. 2 Machine, fully represented in the above cut, is particularly a anticol to the farmer's use; use the No. 2 Machine, fully represented in the above cut, is particularly a anticol to the farmer's use; use the No. 2 Machine, fully represented in the above cut, is particularly a language of the farmer's use; use the No. 2 Machine, fully represented in the above cut, is particularly a language of the farmer's use; use the No. 2 Machine, fully represented in the above cut, is particularly a language of the languag The No. 2 Machine, fully represented in the above cut, is particularly a lapted to the fariner's use; is intended to apply to any common lever or railway power; weighs 1,300 pounds; has an iron threster frame, and cylinder, 123-inches in diameter, and 28 inches long; delivers the clean grain in lags, or if desired, in a half bushel. It delivers the straw fifteen feet from the receiver, or it desired, considerably makes from 100 to 175 lushels at award chaff together; will thresh and clean, in good grain, ready for makes from 100 to 175 lushels of wheat, or from 300 to 500 bushels of oats per day, using four or is a long to the same number of hands; but to force the work, under most favorable circumstances, good grain which treash and clean considerably more. The Machine will threah and clean all kinds of grain generally turched with the common machine, and requires no more horse nower but in many cases does not run so hard. It will common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power

Shop Prices of Machines range from \$210, to \$525. warrant the machines to be as above represented; also against any reasonable defects of materia workmanship, &c.

Having now taken a room to keep Repair Castings on hand, I have also selected and am prepared to furnish a variety of other agricultural implements, the latest and best improved, and such as are best adapted to the wants of the farmers of this part of the country: Such as the Hagerssuch as are best adapted to the wants of the farmers of this part of the country. Such as the sagests town (Miller's) Clover Stemmer, Huller and Cleaner, which is proving by its own merits to be one of the best machines of the kind now in use. The latest improved BUCKEYE REVPER AND MOW. ER combined, with Dropper, and the Mower alone. The American May Fork and Knife combined, Hay Rakes, Fodder Cutters, Cider Mills, &c. &c. &c., which I will furnish on short notice and warrant

10.000 POUNDS OF BUTTER!

THE quantity of butter made in this country is too small. It can be increased 10,000 pounds, by the use of Nixon's Horse and Cattle Powders. Good for all diseases of Horses Cattle, Shap and Hogs. Sold by J. F. KUR'R. Waynesboro'.

Read these certificates, hundreds of which

Four or five years ago, J. S. NIXON compound ed a Horse and Cattle Powder, and asked me to try it. I was the first farmer to whom it was given and the first one to use it for stock. I found it fully equal to what Mr. Nixon said of it, and I have used itextensively since, and heartily recommend it to farmers as a sure thing in fattening stock of all kinds and a capital Powder for Hores.

MICHAEL EBERSOLE. Chambersburg, December, 1865.

MR. J. S. Nixon.—To the multitude in this por-tion of our State, who have used your Cattle Powder, no commendation is necessary. Its beneficial effects have been fairly tested, and hence its unbounded popularity. I have used it for my horses and cows for several years past, and cannot afford to do without it. It keeps all kind of cattle in good condition, loosens the skin, smoothes the hair, and sharpens their appetites. As a preventive from disease, I regard it as invaluable. Yours, &c.,

REV. B. S. SCHNECK.

Chambersburg, April, 1866.

MR. J. S. Nixon :- Dear Sir :- I gave your Horse and Cattle Powder a fair trial with all my stock, Horses and cattle, and it improved them wonderfully. It speedily increased the richness of the milk of my cows, and improved the condition of my stock

I can cordially recommend it as the best thing of the kind I have ever known or tried, for all kinds of stock, and it should be kept in every stable. Yours truly, A. K. McCLURE, Ed. Repository.
