Gred and introduced about twenty years ago in Gr. S. Cheopsus, an eminent Egyptian physician. He had long seen and felt the want of some remedy which would strike at the root of the disease and so prevent much of the suffering which the human family was then compelled to endure.

This great question was presented to his mind This great question was presented to his mind every day in virid colors as Le moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was lead to think and experiment; and after ten years of study and labor, he prescrited to his fellow-man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription—Dr. S. Cheopsus, the Public Benefactor—was presented to him by the Vicercy.

The preparation has been used in several epidem The preparation has been used in several epidem ics of cholera, both as a preventive and curative measure, and with great success, that it has been introduced into nearly all the general hospital of the old world. The old saying that an ounce of

edy that will protect us against this terrible discusse -hould be freely and persistently used.

All pathologists now agree that the cholera pis no acts on the system through the blood, and that any con-bination which acts on the exerctory organs. Trimings, Shawls, Brown and Bleached Sheetings and keeps them in working order, must prevent a clock Cleves Hosiery and Notions. We are resufficient accumulation of the poison to exert its Goods, Gloves, Hosiery and Notions. We are reterrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, essentially the different force of force.

The Zingari Bitters is just such a remedy as the above conditions require. It acts on the organs of exerction-and-secretion, keeping-up-a-perfect—balance between them. This Bitters is composed entirely of roots and herbs, so nicely concocted that every organ is acted upon and put in tone. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following the secretion of the is pleasant and its effects prompt and lasting.

Numerous cases of the following diseases have been cured by it: Coolera, Diarrhoea, Dysentery,

been cured by it: Coolera, Diarrhoea, Dysentery, Typhoid and Typhus Fever, Fever, Ague, Nervous Debility, Anaemia. Dysyepsia, Flatulency, Colic. Scrofula, &c. LF Price & per quart bottle. Principal Depot at the Walnut street wharf, Harrisburg, Pa. Sold by Druggists, Hotelkeepers and Grocers.

# GEISERS' PATENT SHIP-REGULATING GRAIN SUPARATOR.

CLEANER-AND BAGGER.

With the latest Improved Triple-Geared Horse Power, driven either by Gear or Belt.

This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half trouble in a barn floor as a common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, reliable, durable, compact and cleanly to work by when in operation, not making near the dust as the common-

machine or other Separators.

Farmers can rest assured that this machine is no humbug, and judging from the high recommendation of farmers that are using them, I must come to the conclusion that it is the very Machine that far ners want and will have as soon as they have an opportunity to appreciate and attest its merits, for which I hope they will give me an opportunity, as I am willing to be responsible if it does not perform as represented in this Circular.

No. I is a eight horse power, with east iron thresher frame and wrought iron and wood cylinder, sixteen inches in diameter and thirty three inches long. Trunk has ten inch rake crank and seven rakes, is thirty-five inches wide, and Jelivers the straw on the secon! rake, these carry the straw ont on their tops, and deliver it on the stacker, which will deliver about thirty five feet beyond the feeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the chall with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chall, remedies all difficulties in cicaning grain against windy weather. It bars the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstance, it will thresh from forty to litty bushels per hour, and with more ease and agreeableness to hands than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; is The No. 2 Machine, they represented in the above cut, is particularly acapted to the lattlets use; is intended to apply to any common lover or railway power; weighs 1,300 pounds; has an iron threst er frame, and cylinder, 12½ inches in diameter and 28 inches long; delivers the clean grain in bags, or if desired, in a half bushel. It delivers the straw fifteen feet from the needer, or if desired, can deliver the staw and chaff together; will thresh and clean, in good grain, ready for market, from 100 to 175 bushels. of-wheat, or-from 300 to 500 bushels of oats per day, using four or six horses, and the same humber of hands; but to force the work, under m is tayorable circumstances, good g. nin, &c., will thresh and clean considerably more. The Machine will threah and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will apply very well to a two-horse railway power

Shop Prices of Machines range from \$210, to \$525. EF I warrant the machines to be as above represented; also against any reasonable defects of materia-

Having now taken a room to keep Repair Castings on hand, I have also selected and am prepared to furnish errately of other agricultural implements, the latest and best improved, and such as are her alianted to the wants of the farmers of this part of the country: Such as the Hagerstown (Miller's) Clover Stemmer, Huller and Cleaner, which is proving by its own merits to be one of the best machines of the kind now in use. The latest improved BUCKEYE REAPER AND MOW-ER combined, with Dropper, and the Mower alone. The American Hay Fork and Knife combined, Hay Rakes, Folder Cutiers, Cider Mills, &c. &c. &c., which I will furnish on short notice and warrant
