

VILLAGE RECORD.

WAYNESBORO

Friday, July 5, 1867.

Congress re-assembled at Washington on Wednesday. A quorum was confidently expected in both Houses.

The Republican State Convention which met at Williamsport on Wednesday of last week, nominated Hon. Henry W. Williams, of Pittsburg, as candidate for Justice of the Supreme Court.

Despatches received in Washington by the Austrian Minister, Secretary Wells, and others, represent that Maximilian was executed by the Liberals on the 19th ult. No particulars are given.

No doubt the shooting of Maximilian will arouse considerable indignation in Europe, but it is not likely that Austria or France will be induced to resume the war on account of it. He ventured his life for a great stake, and lost it. Better men have been summarily shot in Mexico by his own orders. Juarez is now in possession of all Mexico except Vera Cruz, and has powerful and victorious armies in all parts of the republic. The national feeling is thoroughly aroused, and the people always difficult to please, are little inclined to hear of anything but vengeance upon those who have inflicted untold miseries upon them.

PROSCRIBING MINISTERS.—The copperhead, Johnson-ized Maryland State Constitutional Convention which has been deliberating at Annapolis for some time, recently among other foolish and diabolic doings conducted a session excluding forever from the halls of legislation all ministers and religious teachers.

A member of the Convention, Mr. Stodert, in advocating the exclusion of the clergy, said that "abolition could never have spread throughout the country had it not been for the ministry. They inculcated the doctrines into women and children at the breast as being religious doctrines," &c., and, true to his instincts, concluded by showing his spite against public schools as one of the promoters of liberal ideas.

"Establish your primary schools, and you would have New England women to teach false doctrines in them!" Thus (says the Baltimore American) we might go on and cite other specimens of the mad zeal of these men, but let these suffice. A few members, seeing the folly and injustice of the proscription measure against the clergy, strove to defeat it, but all to no purpose. The majority, knowing full well that the spirit of Christianity is the very germ and spring of true freedom and human rights, which they cordially hate, voted to exclude from the halls of legislation all religious teachers, in these words: "Section 7. No minister or preacher of the Gospel of any religious creed or denomination shall be eligible as Senator or Delegate."

Thus it appears that these gentlemen, who make such high claims of possessing and representing all the intelligence, all the refinement and good breeding, and we believe, all the true religion in the State, practically declare that the influence they chiefly dread in the legislation of the State is that of religious preachers and ministers! No matter how immoral, how ignorant—no matter what be a man's profession or what he teaches, so that he be not a preacher or teacher of religion, he can have free access to the halls of legislation; but no minister, preacher or teacher of the Gospel must ever presume to participate in the making of laws for Maryland? We hope the friends of religious freedom will ponder this action of the Constitutional Convention, and when the time comes show, by their votes at the ballot-box, how they esteem the work of these men, who are now attempting to revolutionize the State backward and revive the sway of the enemies of human freedom.

Look out for wolves in sheep's clothing, who are traveling about the country in the capacity of agents for a work called "Youth's History of the Great Civil War." This book, says an exchange, is one of the vilest of treasonable compilations, and is the same that was originally published in the South, just after the close of the war, under the title of "The Lost Cause." We warn all Union men against encouraging the sale of this book. Let those purchase it who mourn over the "lost cause," while we move steadily forward in the course of freedom, humanity and education, until the beacon fires of liberty and progress shall burn brightly from every hill top, illuminating every valley and cheering every heart, rendering our beloved country a haven of happy rest for the downtrodden and oppressed of every nation.

WHEAT IN THE WEST.—The news from the West in regard to the wheat crop is uniformly favorable. The Chicago Journal says:

In the great wheat fields of Southern Illinois, where the choicest winter wheat is raised, reaping machines by hundreds are now at this moment whirling through the golden grain and gathering out of harm's way one of the best wheat crops ever raised in Egypt. We know of one firm in Southern Illinois, which sold the past season, in six counties, four hundred and six new reaping machines, and these, together with all the hundreds of old ones in the same district, are now at work. This item may give some idea of the magnitude of the crop in that section.

SHERIDAN A VANDAL.—The Valley Spirit of this week charges Gen. Sheridan with a wanton destruction of private property and inhuman warfare upon non-combatants in the valley of Virginia. It adds:—"Sheridan and McCausland are two names fit to be linked together in history, and they should, and doubtless will, go down to posterity as the greatest vandals of their day."

Except Gen. Grant, Gen. Sheridan perhaps accomplished more for the success of the Union army and the overthrow of treason and its pet institution, human slavery, than any other officer in it, consequently it is not unnatural that there should be ardent spirits even in the loyal States to misrepresent the actions of the gallant soldier. The editor of the Spirit and a few other sore-heads, of the same ilk, were recently on a tour through the valley of Virginia. They played out "Jonnie's" no doubt gave the party a warm welcome, and at the same time booked them up upon "Little Phil's" inhumanities! The Gen. of late seems to be growing unpopular. President Johnson, even, from all accounts, does not entertain a very strong "fellow feeling" for the little soldier.

Registration returns from Virginia, Georgia and Alabama continue to indicate large majorities in favor of the colored voters. Great efforts are being made in Richmond and other portions of Virginia to get the white citizens to register, since General Schofield has decided that the Alexandria Constitution does not effect those disfranchised by its provisions.

Sheridan announces that he will extend registration as ordered. Considering that registration is at an end in Louisiana, this extension, merely to coax a few Rebels who would not come in before, is wasteful and extravagant. This additional expense may be attributed to Mr. Johnson.

The question arises in Georgia as to whether those who have full pardons can be registered. This is a delicate point. If conceded, why may not the President pardon the whole South by a proclamation, and thus avoid the whole measure? If he wants reasons, Stabery will find them.

The President has not yet decided in the cases of the deposed Southern officials. It is said in Washington that Sheridan will not be removed; that nothing will be done to reinstate Wells or Withers, but that the Louisiana Levee Commissioners will be restored.

Alexander Renand, the villain convicted of an outrage on a small child, in Brooklyn, has been sentenced to twenty years in the State prison.

A Union League meeting in Schuylkill county was fired upon by a mob of copperheads last week. One of the cops was arrested while reloading his rifle.

LOCAL MATTERS.

RECEIVED—\$2 from John Brandt, Eagle Point, Ogle county Ill.

VALUABLE REAL ESTATE.—Rev. A. Burhman, of this place, Executor of J. C. Shultz, dec'd, advertises at public sale in to-day's paper, a large body of land situated in Harbaugh's Valley, Frederick county, Md., to which special attention is directed.

FRUIT JARS, etc.—It will be seen by reference to our advertising columns that D. B. Russell, Esq., has now for sale something new and useful for canning fruit—the "Patent Hero Fruit Jars"—and is well prepared to supply persons with other goods in his line.

STRAWBERRY PLANTS.—Persons who purpose setting out strawberry plants this fall—and we think every family should set apart a spot of ground for this purpose—are referred to the advertisement of M. D. D. Fahrney, in another column. No doubt about his varieties being the choicest.

THE FOURTH.—Yesterday (the 4th of July) was ushered in with martial music and firing of salutes. During the day the stores were closed and business pretty generally suspended. The Choir connected with the M. E. Church visited Black Rock, and another party Monterey Springs. Others went fishing, hunting, etc. So passed the day.

THE WEATHER.—The weather for the past four or five days has been very warm, the mercury at times ranging as high as 93° in the shade, which has favored the farmers very much who have had unusually large crops of grass to cut. Most of the crop is now securely housed.

DONT DO IT.—Some families in town are in the habit of removing the filth which accumulates about their premises either to the alley or the street. We have noticed this more particularly on Leitersburg Street, which must be annoying to the more cleanly disposed. To have clean streets and alleys such rubbish should be gathered together and burned.

DEAD.—Jacob Whetzel who sometime since had one of his legs badly broken from a tree falling on him, and which was afterwards amputated, died on Tuesday last. It appears he was either unable or unwilling to take efficient nourishment and grew gradually weaker until death relieved him of his sufferings. He was aged about 55 years.

NO PAPER NEXT WEEK.—According to a custom of our own no paper will be issued from this office next week. The omission is made to afford the boys an opportunity to spend a week in the harvest field. It is the duty of all we think, whose business will permit, to give farmers a helping hand in their efforts to secure the crops.

SCHOOL EXHIBITION.—The closing exercises of "Linden School," in charge of Misses L. & E. Kimble, took place in the Town Hall, on Friday evening last. The Hall, as usual, was a little too much crowded for comfort, but we learn the exercises were of the most interesting character and highly creditable to the young ladies as teachers.

The Misses Kimble have been teaching in this place for perhaps twelve or fifteen months and during this time have given very general satisfaction. The "Linden School" has therefore become an institution in our community that should by no means be dispensed with, and the heads of families should interest themselves to retain the services of these accomplished lady teachers, by increasing the number of pupils, that they may be more amply rewarded for their arduous labors in the future.

HANDSOME PRESENT.—A few days since we were shown a very handsome Communion Service consisting of plates, goblets etc., which has been presented to the Presbyterian congregation of this place, by Miss Lou Douglass, of Chambersburg, intended we presume for the new church, which will be dedicated sometime about the first of September. The members of the church here will doubtless well appreciate the spirit of kindness and liberality which prompted so valuable an offering.

THE WHEAT CROP.—Some of our farmers have commenced cutting their wheat. According to all the information we have been able to obtain, a few late fields excepted, the crop is now well matured and promises to largely exceed, in this county and Washington county, Md., the yield of any harvest season for a number of years. Should the weather continue favorable the crop will all have been secured by the latter part of next week.

FALSE REPORT.—A report has been in circulation here for the past week that the wheat crop in Lancaster county would prove almost a total failure in consequence of damage from the weevil and rust. We copy from the Examiner of Wednesday last, which says:—"The hay crop is one of the heaviest that has been gathered for years. The grain looks well and will yield abundantly. Every thing looks as if we would have an abundant harvest. Let the people rejoice!"

VALUABLE WORK.—Mr. J. A. Robinson will shortly canvass this township for the purpose of soliciting subscribers to "The History of the Secret Service," by Gen. L. C. Baker late Provost Marshall of the War Department and chief of the National Detective Police. It is a work reliable and of thrilling interest and is meeting with ready sale wherever offered. Something more definite in regard to it will appear in our next issue. Those who can afford the outlay should not fail to secure a copy.

SOUTHERN RADICALS.—The Radical party of the South consists of the negroes, and here and there an unprincipled white man who is willing to sell his manhood for filthy lucre's sake. So says the Valley Spirit, which is now, as it always has been, good authority on the rebel side of any question.

CORN CROP.—The corn crop in this region at present presents a promising appearance. In the early part of the season the weather was anything but favorable, but of late it has been coming forward rapidly. During Wednesday afternoon and night we had the most delightful showers of rain, which must benefit immensely oats, corn, potatoes, etc., Everything now looks most propitious for a season of unusual abundance. All thanks to a bountiful Benefactor.

The Frederick Republican says, "the wheat crop will surpass both in quality and amount, any that we have had for a number of years. We are reliably informed that there never was a larger amount sown in Western Maryland, nor a yield that was more ample."

Execution of Maximilian.—NEW ORLEANS, June 29, 6 P. M.—There can be no doubt whatever that Maximilian; the ex-Emperor of Mexico, has been shot by the Liberals.

An Austrian man-of-war arrived at this port this morning, by way of the Southwest Pass, bringing dispatches for the Austrian Government. She was draped in mourning, and had all her flags at half-mast. Her officers are reticent, but from what has been gleaned from them, the execution of Maximilian is reduced to a positive certainty.

WASHINGTON, June 30.—The Austrian Minister, last night, received a despatch from the commander of an Austrian vessel, which has been lying at Vera Cruz, stating simply that Maximilian had been shot at seven o'clock on the morning of the sixteenth of June, and that Juarez has refused to surrender his remains to his friends. No other details are given, but the Austrian

Legation here fully credit the intelligence. It comes from an Austrian naval officer, who dispatched a special vessel to the Southwest Pass with the telegram announcing the fact of the execution to Count Wydenbruck, the Austrian Minister. It has been communicated by the letter over the Atlantic cable, to the Emperor Francis Joseph, of Austria, the brother of Maximilian.

It is said that in some parts of Massachusetts they are so opposed to "horns," that they won't have anything but muley cattle.

There are over twenty thousand acres of land in Alabama, planted in sweet potatoes this year, and which will produce eight hundred thousand bushels.

The army worm has appeared in the Shenandoah Valley, for the first time in fifty years.

A new potato bug has appeared in the potato crop of Wisconsin, Iowa and Michigan.

Strawberry Plants.

THOSE who are fond of eating strawberries when the season is here should not fail to prepare as much ground as they can spare for that purpose; then purchase plants of D. D. Fahrney of this place. Persons at a distance can enclose \$5 in a letter and receive 100 plants by return mail. Berries, exhibited at the store of W. A. Reid, weighed 5 ounces each—32 to the pound. Better leavens can not be found. A piece 60x70 feet produced some 3 bushels of berries for first crop. They should be planted from 18 to 24 inches apart. Will return investment in one year. None but first rate plants sold. W. A. Reid will receive all orders for these plants.
