This great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of presents all the manufacture of the colors and the sick a nearly ail the remedies then in use. Thus he was elad to think and experiment; and after ten years of study and labor, he presented to his fellow-man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so morvellous and astonishing, that the most flattering marks of royal tavor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription—Pr. S. Cheopsus, the Public Benefactor—was presented to him by the Viceovy.

The preparation has been used in several epidem ics of choters, both as a preventive and curative measure, and with great success, that it has been introduced into nearly all the general hospitals of the old world. The old saying that an ounce of prevention is worth a pound of cure, applies with marvellous force to cholera, and therefore any rem. Table Dapers, Crash for Towels, Calicoes, Delains, Alpaceas. edy that will protect us against this terrible disease

should be freely and persistently used.
All pathologists now agree that the cholera pismo acts on the system through the blood, and that any ron bination which acts on the exerctory organs. tenible effects on the organism. This is true not only of cholers, but of nearly all other muladies, especially the different forms of fever.

The Zingari litters is just such a remedy as the above conditions require. It acts on the organs of ex retion and secretion, keeping up a perfect ballaries between them. This Butters is composed en. May 31, 1867. tirely of roots and herbs, so nicely concocted that every organ is acted upon and put in tone. Its taste is pleasant and its effects prompt and lasting. Aumerous cases of the following diseases have

been cured by it: Coolera, Diarrhosa, Dysentery, Typhord and Typhus Fever, Fever Ague, Nervous Debitity, Anaemia. Dysycpsia, Flatulency, Colic, Scrofula, &c. Frice \$1 per quart bottle

MOROCCO and Lining skins at Ap. 5] Paice & PRIOR & HERRICE'S,

Improved Thrashing Machine!

Farmers will please look at the great advantage in Thrashing Grain with

GEISERS' PATENT SELF-REGULATING GRAIN SEPARATOR.

CLEANER AND BAGGER. With the latest Improved Triple-Geared Horse Power,

This Machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half trouble in a barn floor as a common thrasher and shaker. It is also easily put in operation. It is simple, easily managed, reliable, durable, compact and cleanly to work by when in operation, not making near the dust as the common-

driven either by Gear or Belt.

Farmers can rest assured that this machine is no humbug, and judging from the high recommendation of farmers that are using them, I must come to the conclusion that it is the very Machine that far mers want and will have as soon as they have an opportunity to appreciate and attest its merits, for which I hope they will give me an opportunity, as I am willing to be responsible if it does not perform as represented in this Circular.

No. 1 is a eight-horse power, with cast iron thresher frame and wrought iron and wood cylinder, sixeen inches in diameter and thirty three inches long. Trunk has ten inch rake crank and seven rakes. is thirty-five inches wide, and delivers the straw on the second rake, these carry the straw out on their is thirty-five incus was, and centers are said with the stops, and deliver it on the stacker, which will deliver about thirty-five feet beyond the feeder, on a stack fifteen to eighteen feet high, and can be easily managed to carry the chaff with the straw, or deliver it in a separate place. The trunk and fan sides being closed, to confine the straw and chaff, remedies all difficulties in creaning grain against wingy weather. It bags the grain by reasonable management, sufficiently clean for market, and its capacity, under ordinary circumstances, is from twenty to forty bushels per hour, using eight horses and the same number of hands; but to force the work under favorable circumstance, it will thresh from forty to fifty bushels per hour, and with more case and agreeableness

treumstance, it will thresh from forty to fitty bushels per hour, and with more case and agreeableness to hands than any other machine now in common use.

The No. 2 Machine, fully represented in the above cut, is particularly adapted to the farmer's use; is intended to apply to any common lover or railway power; weighs 1,300 pounds; has an iron thresher frame, and cylinder, 12½ inches in diameter and 28 inches long; delivers the clean grain in bugs, or if desired, in a half bushel. It delivers the straw fifteen feet from the needer, or if desired, can deliver the straw fifteen feet from the needer, or if desired, can deliver the straw fifteen feet from the needer, or if desired, can deliver the straw fifteen feet from the needer, or if desired, can deliver the straw fifteen feet from the needer, or if desired, can deliver the straw and chaff together, will thresh and clean, in good grain, ready for market, from 100 to 175 bushels of wheat, or from 300 to 500 bushels of east per day, using four or s... horses, and the same number of hands, but to force the work, under most favorable circumstances, good g. nin, &c., will thresh and clean on hand, which he will sell cheap. Prices to considerably more. The Machine will threah and clean all kinds of grain generally threshed with the common machine, and requires no more horse power, but in many cases does not run so hard. It will

apply very well to a two-horse railway power Shop Prices of Machines range from \$210, to \$525. I warrant the machines to be as above represented; also against any reasonable defects of materia workmanship, &c.

Having now taken a room to keep Repair Castings on hand, I have also selected and am prepared to furnish a variety of other agricultural implements, the latest and best improved, and such as are best adapted to the wants of the farmers of this part of the country: Such as the Hagerstown (Miller's) Clover Stemmer, Huller and Cleaner, which is proving by its own merits to be one of the best machines of the kind now in use. The latest improved BUCKEYE REAPER AND MOW-ER combined, with Dropper, and the Mower alone. The American Hay Fork and Knife combined, Hay Rakes, Fodder Cutters, Cider Mills, &c. &c. &c., which I will furnish on short notice and warrant them to answer the purposes for which they are intended.

Orders solicited and promptly attended to. For further particulars, circulars, &c. address

DANIEL GEISER, Waynesboro', Franklin Co. Penn'a.

Waynesboro' MACHINE

GER, AND THE LATEST IMPROVED THRESHER AND TRIPPLE-GEARED HORSE Peopler, Matches, Powers, DRIVING EITHER BY GEAR OR BELT, ALL FURNISHED COMPLETE, Pearl and Silver READY TO PUT ON WAGONS.

I, the undersigned, desire to call the attention of Farmers and Threshermen of Franklin and adjoin ing counties to this machine. It has been before the public for a number of years, during which time i-has given general satisfaction, and the patentee has made some very important improvements which rent der it still more complete, both for clean separating and cleaning, and also for the ease of draught and fast threshing. I take pleasure in recommending it to the public knowing that it will give the best satisfaction. I am manufacturing two sizes, viz :

The largest is eight-horse power and will thresh and clean from 200 to 500 bushels per day. The small size. See the above which fully represents the machine, also full description, price, &c., of and the sole furnished at a price, which will pay machine. Persons wishing machines should send in their orders in reasonable time to insure their being

important to sugargane growers AND MANUFACTURERS OF SYRUP!

I am manufacturing different sizes of Sugarcane Mills (to be driven either by-water, steam or horsepower) and Evaporators and fixtures for making Syrup; also Portable and Stationary Steam Engines for

I am fully prepared to make the above to order and on short notice; also
GRIST AND SAW MILL GEARING, SHAFTING AND PULLEYS, IRON BRIDGES, GAST
IRON WATER-WHEELS. IRON KETTLES, &c.,
Stoves and Plow castings, also cast iron and wrought iron pipe for steam orwater, and Brass castings of every description; in a word, I am prepared to do everything usually done in a foundry and machine shop. Having supplied myself with the latest improved machinery, such as Lathes, Boring, Planing and Drilling Machines, persons can rely on having their work done in the most satisfactory manner.

I am also prepared to manufacture to order machinery for wood, such as Tonging and Groving machines for flooring, Surface, Tenout and Moulding machines, &c. I also offer to the public a new and valuable improvement in my steam engines, made within the last year, viz: for the economizing of fuel, and the regulation of speed, which renders my new engines for superior to the old engines. All my machines are sold under warrantee. My hands are all experianced workmen in this line of business, and I use all good material, so that I am perfectly safe in war-

I am also prepared to do repairing in workman like manner, on the shortest notice. Orders solicited and promptly attended to. All orders sent in for repairing must be accompanied with the cash. For particulars and circulars descriptive of machine, address

GEORGE FRICK, Or DANIEL GRISER, Proprietor of Territory and solicitor of orders, Waynesboro, Franklin Co Pa-

10.000 POUNDS OF BUTTER!

THE quantity of butter made in this country is too small. It can be increased 10.000 pounds by the use of Nixon's. Horse and Cattle Powders. Good for all diseases of Herses, Cattle, Sheep and

Hogs. Sold by J. F. KURTZ, Wayneshoro'. Read these certificates, hundreds of which

could be published: Four or five years ago, J. S. NIXON compound

Mg. J. S. Nixon .- To the multitude in this portion of our State, who have used your Cattle Powder, no commendation is necessary. Its beneficial effects have been fairly tested, and hence its unbounded popularity. I have used it for my horses and cows for several years past, and cannot afford to do without it. It keeps all kind of cattle in good con-

dition, loosens the skin, smoothes the hair, and sharpens their appeilles. As a preventive from disease, I regard it us invaluable. Yours, &c.,

REV. B. S. SCHNECK. Chambersburg, April, 1866. MR. J. S. Nixon — Dear Sir :—I gave your Horse and Cattle Powder a fair trial with all my stock,

Horses and cattle, and it improved them wonderfully. It speedily increased the richness of the milk of my cows, and improved the condition of my stock greatly. c I can cordially recommend it as the best thing of the kind I have ever known or tried, for all kinds of stock, and it should be kept in every stable.

Yours truly, A. K. McCLURE, Ed. Repository.
